Organizations and Publications Using CHIS Data

California Health Interview Survey Use of CHIS Data

- More than 2,000 individuals have downloaded the CHIS Public Use Files from the UCLA Center for Health Policy Research's web site. There have been 2,730 downloads of the CHIS 2001 PUFs, 2,293 downloads of the CHIS 2003 PUFs, and 1,727 downloads of the 2005 PUFs to date.

- More than 16,000 individuals have used AskCHIS, the online data query system to conduct analysis and generate state or local-level estimates using CHIS data. To date, more than 300,000 individual queries have been made via AskCHIS.

- Previous CHIS funders, who actively promote and use CHIS data, include:
 - o California Department of Public Health
 - o The California Endowment
 - o National Cancer Institute
 - o Centers for Disease Control
 - o The Robert Wood Johnson Foundation
 - o First Five California
 - o California Department of Managed Care
 - o California Department of Health Services Office of Disability and Health
 - o California Department of Mental Health
 - o LA Health Care
 - o Kaiser Permanente
 - o California Area Indian Health Services
 - o Alameda County Health Services Agency
 - o Solano County Public Health Department
 - o County of San Diego, Public Health Services
 - o Marin County Department of Health and Human Services

There are many other users of CHIS data products, including local health departments, research institutions, and other health and community organizations. Although we do not have complete information on all the organizations that have used CHIS data for their needs, the tables on the following pages provide information on some of the organizations that are actively using CHIS data, the peer-reviewed publications that have been generated based on CHIS data, and the impact of CHIS data.
