

**Furnishing Documents To The Secretary of Labor on Request Under ERISA Section
104(a)(6)
OMB Number 1210-0112
November 2008**

SUPPORTING STATEMENT FOR PAPERWORK REDUCTION ACT 1995 SUBMISSIONS

A. Justification

1. *Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.*

Prior to the enactment of the Taxpayer Relief Act of 1997 (Pub. L. 105-34, August 5, 1997) (TRA '97), section 104(a) of the Employee Retirement Security Act of 1974 (ERISA) required administrators of employee benefit plans automatically to file the plan's summary plan description (SPD) and any summaries of material modification (SMMs) with the Secretary of the Department of Labor (the Department). TRA '97 eliminated the requirement that these documents be filed automatically with the Department, but added ERISA section 104(a)(6), requiring a plan administrator to furnish documents related to an employee benefit plan to the Department upon request. The requirement that administrators furnish the Department requested plan documents other than SPDs and SMMs was part of section 104(a) prior to enactment of TRA '97; that requirement was moved by TRA '97 to section 104(a)(6) and consolidated with the new furnishing requirement pertaining to SPDs and SMMs. The rule implementing the requirement to furnish SPDs and SMMs on request was finalized on January 7, 2002 (67 FR 777, 784), and has not been amended since that time. See 29 CFR 2520.104a-8.

2. *Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.*

The SPD, SMM, and other plan documents covered by the rule provide information to participants and beneficiaries about their rights and benefits under their employee benefit plans. Although Congress, in TRA '97, eliminated the requirement to file the SPD and SMMs automatically with the Department, Congress simultaneously added section 104(a)(6) to ERISA, authorizing the Department to request from an employee benefit plan "any documents relating to the employee benefit plan" that describe how the plan is established or operated. Pursuant to its regulation, the Department requests documents under Section 104(a)(6) when a participant or beneficiary has previously requested the documents directly from the plan administrator and the administrator has failed or refused to provide them. The Department therefore uses the requested information to respond to participants' requests to the Department for documents that the participants were unable to obtain from their plan administrators. Prior to elimination of the filing requirement, the Department was able to satisfy many of these public requests for assistance with plan documents by supplying copies of the SPDs filed with the Department and maintained in the Public Disclosure Room.

3. *Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information*

**Furnishing Documents To The Secretary of Labor on Request Under ERISA Section
104(a)(6)
OMB Number 1210-0112
November 2008**

technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration for using information technology to reduce burden.

The collection of this information may be satisfied electronically if the plan maintains the documents electronically and the participants are able to receive the documents electronically. Most plan administrators maintain printed copies of these documents even if they normally distribute them electronically. The Department encourages and accepts electronic furnishing of requested documents and has assumed for purposes of this burden estimation that 10% of plan administrators will supply electronic copies of requested documents. The remaining 90% of plan administrators are assumed to prefer for their own recordkeeping purposes to continue to supply printed documents to the Department from their existing printed stock. The Department expects to continue to promote the use of information technology as a means of increasing the timeliness of responses and to reduce the cost and time burdens for respondents.

4. *Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.*

This request for documents is not duplicated in any other Federal statute or regulation. Employee benefit plans are required by other statutory provisions to disclose certain plan information to participants. Section 104(a)(6) and the related regulation therefore contemplate that respondents will need merely to provide copies of documents that were previously prepared and are available pursuant to other statutory or regulatory requirements. The Department requests documents pursuant to 104(a)(6) and this rule when a participant or beneficiary requests assistance from the Department because he or she has been unable to obtain the document directly from the plan administrator.

5. *If the collection of information impacts small businesses or other small entities (Item 5 of OMB Form 83-I), describe any methods used to minimize burden.*

Not applicable.

6. *Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.*

The Department collects documents related to the establishment or operation of an employee benefit plan in order to provide participants and beneficiaries with plan information that they have requested and to which they are entitled under the disclosure requirements of ERISA. The collection is conducted as frequently as is necessary to provide technical assistance to plan participants and beneficiaries.

7. *Explain any special circumstances that would cause an information collection to be conducted in a*

**Furnishing Documents To The Secretary of Labor on Request Under ERISA Section
104(a)(6)
OMB Number 1210-0112
November 2008**

manner:

- *requiring respondents to report information to the agency more often than quarterly;*
- *requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;*
- *requiring respondents to submit more than an original and two copies of any document;*
- *requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;*
- *in connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;*
- *requiring the use of a statistical data classification that has not been reviewed and approved by OMB;*
- *that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or*
- *requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.*

None.

8. *If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.*

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years -- even if the collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.

Attached is a copy of the Department's Notice of Proposed Extension of Information Collection Request for Furnishing Documents to the Secretary of Labor on Request Under ERISA Section 104(a)(6), as published at 73 FR 47243, on August 13, 2008. No comments were received.

104(a)(6)
OMB Number 1210-0112
November 2008**

9. *Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.*

No payments or gifts are provided to respondents.

10. *Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.*

Not applicable.

11. *Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.*

Not applicable.

12. *Provide estimates of the hour burden of the collection of information. The statement should:*

- *Indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.*
- *If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I.*
- *Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.*

The burden hours attributable to this collection consist of those hours necessary for a plan administrator to assemble existing information when requested by the Department on behalf of an employee benefit plan participant or beneficiary and to forward the information to an address specified in the request. The information generally consists of plan documents such as SPDs or SMMs, which have been prepared previously to comply with other statutory requirements, such as ERISA disclosure provisions. The annual burden of complying with the Department's request is estimated at 44 hours.

**Furnishing Documents To The Secretary of Labor on Request Under ERISA Section
104(a)(6)
OMB Number 1210-0112
November 2008**

To derive this estimate of annual burden hours, the Department used the actual number of requests the Department made to plan administrators for SPDs and SMMs under section 104(d)(6) of the rule for fiscal year 2007/08, which was approximately 300 requests. In order to account for possible fluctuations year to year in number of requests, the Department has estimated that in future years 500 total respondents may be required annually to provide responses for purposes of this ICR. The Department has further assumed that 98% of the respondents (490 respondents) will respond promptly and fully to the Department's request when it is first received and that 10% of those 490 respondents (49 respondents) will provide the requested documents electronically. Because such requests pertain only to existing plan documents, the Department estimates that assembling the documents for mailing to the Department for the 441 respondents that do so will take approximately five minutes per respondent, resulting in an annual hour burden of 37 hours. The 49 respondents who reply electronically are estimated to take only two minutes each, since attaching electronic documents to an e-mail takes less time than collecting paper copies for mailing, resulting in an additional annual hour burden of approximately 1.63 hours. The remaining 2% of respondents (10 respondents) who do not timely respond to a Departmental request, either intentionally or for reasons beyond their control, will choose instead to supply an explanation and file a penalty waiver request. The Department estimates that it will require 30 minutes of each of these respondents' time to prepare such an explanation and waiver request and assemble it for mailing, creating an annual hourly burden of 5 hours. The total annual hour burden estimated for employee benefit plans is thus 43.6 hours (37 hours + 1.6 hours + 5 hours).

13. *Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 or 14).*

The documents that the Department requests pursuant to this rule have previously been created and maintained by the plan administrator in order to fulfill other statutory provisions, such as ERISA reporting or disclosure requirements. Therefore, there are no start-up costs ascribed to the collection of the information under section 104(a)(6) and this regulation,. The only additional cost for providing this information to the Department is the cost for assembling and mailing to the Department the requested plan documents. The Department has assumed that annually 10% of all respondents, including those that file an explanation and penalty waiver request, (50 respondents) will file plan documents electronically and that the remaining 450 respondents will choose to provide the requested documents by mail. The Department has not attributed any additional cost burden to electronic transmission of the documents and has estimated mailing costs at \$3.70 per mailing (allowing for the cost of certified mail, which the Department anticipates plan administrators will choose to use). Based on the Department's estimate of an annual 500 requests to plan administrators, the annual cost burden to respondents for distribution is approximately \$1,665.

**Furnishing Documents To The Secretary of Labor on Request Under ERISA Section
104(a)(6)
OMB Number 1210-0112
November 2008**

14. *Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.*

The annualized cost to the Federal government has been estimated based on the expected number of requests that the Department will make annually for plan documents (500) and the current processes in place to make and handle such requests. It is assumed that the Department will use form letters to make all of its initial requests for plan documents. Based on current procedures, assuming that the form letters require an average of ten minutes of clerical staff time at GS-6 (step 5) level, the annual cost to the Federal government to prepare and mail the form letters is estimated at \$1,671. For the 2% of respondents who annually do not promptly and fully respond to the Department's initial request, the Department will send additional follow-up correspondence addressing the issue of noncompliance. It is estimated that preparation and distribution of these individualized letters will require an average of 30 minutes of clerical time and that the additional annual cost to the government will be \$101. The total annual cost to the Federal government is therefore estimated at \$1,772.

15. *Explain the reasons for any program changes or adjustments reporting in Items 13 or 14 of the OMB Form 83-I.*

The adjustments are due to an adjustment in the estimated mailing costs.

16. *For collections of information whose results will be published, outline plans for tabulation, and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.*

Not applicable.

17. *If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.*

Not applicable.

18. *Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submission," of OMB 83-I.*

Not applicable; no exceptions to the certification statement.
