Table Notes:

Beginning in 2004, commuter activity is excluded from all estimates. 2003 and prior, commuter activity was included in the Air Taxi use category.

Table cells that are populated by a small number of aircraft may display relatively high standard errors for the corresponding estimates.

Estimates in these types of categories also may vary noticeably from year to year and should be interpreted with caution.

Columns may not add to totals due to rounding procedures.

Beginning in 2005, light-sport was added as an aircraft type.

Estimated number of light-sport aircraft has increased significantly in 2007 due to mandatory regulation process changes.

Beginning in 2007, the survey increased the number of different types of landing gear that could be reported.

Table Notes:

Beginning in 2004, commuter activity is excluded from all estimates. 2003 and prior, commuter activity was included in the Air Taxi use category.

Table cells that are populated by a small number of aircraft may display relatively high standard errors for the corresponding estimates.

Estimates in these types of categories also may vary noticeably from year to year and should be interpreted with caution.

Columns may not add to totals due to rounding procedures.

Beginning in 2005, light-sport was added as an aircraft type.

Estimated number of light-sport aircraft has increased significantly in 2007 due to mandatory regulation process changes.

Beginning in 2007, the survey increased the number of different types of landing gear that could be reported.

Table 7.6

**2007 GENERAL AVIATION AND AIR TAXI *ACTIVE AIRCRAFT AND TOTAL NUMBER OF AIRCRAFT
WITH FLOATS OR OTHER LANDING GEAR SYSTEM***
BY AGE OF AIRCRAFT

AGE OF AIRCRAFT					Estimate of	Percent	Estimate of	Percent
