**Supplemental Information about the Annual Report of  
Cars Loaded and Cars Terminated (Form STB-54)**

This information collection is mandatory pursuant to 49 U.S.C. 11162 and 49 CFR 124

The estimated hour burden for filing this report is four hours per report.

The Board uses information in this report to forecast labor costs and measure the efficiency of railroads. Information in this report is entered into the Board's Uniform Rail Costing System (URCS), a cost measurement methodology. URCS was developed by the Board pursuant to 49 U.S.C. 10707(d) as a tool in rail rate proceedings to calculate the variable costs associated with providing rail service in accordance with 49 U.S.C. 10707(d). The Board also uses URCS to analyze the information in the annual railroad industry waybill sample, see 49 CFR 1244, and in railroad abandonment proceedings to determine off-branch costs in accordance with 49 CFR 1152.32(n). In addition, many other Federal agencies, including the Department of Transportation and the Association of American Railroads, use Form STB-54 for information regarding the number of cars loaded and terminated on the railroad.

All information collected through this report is available to the public.

Paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed.

The display of a currently valid OMB control number for this collection is required by 1

7.

ncy of the reporting  
system (URCS), which is  
J.S.C. 11161 and is used  
g a particular service in  
ation that it obtains through  
ment proceedings to measure  
al agencies and industry  
ailroads (AAR), depend on  
he reporting carrier's line.

h they are destroyed

law.
