19. Certification for Paperwork Reduction Act Submissions

On behalf of the U.S. Department of Housing and Urban Development, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9.

Note: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320/8(b)(3) appears at the end of the instructions. The certification is to be made with reference to those regulatory provisions as set forth in the instructions.

The following is a summary of the topics, regarding the proposed collections of information that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It uses plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention periods for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of the information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, or mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that PHAs planned and allocated resources for the efficient and effective management and use of the information to collected (see note in item 19 of the instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of these provisions, identify the item below and explain the reason in item 18 of the Supporting Statement.

Supporting Statement for Paperwork Reduction Act Submissions

A. Justification:

1. Why is this information necessary?

Section 9 of the U.S. Housing Act of 1937, 42 U.S.C., 1437q, authorizes the Secretary of the Department of Housing and Urban Development (HUD) to make annual contributions to the Public housing agencies (PHAs) and implement the grant program under the Capital Fund Program (CFP) for capital improvements for the existing low-income projects and construction of public housing units. As the units get old, they need modernization in order to bring them up to the standard that would provide healthy living environments to the low-income residents. Therefore, the PHAs rely on HUD's annual CFP contribution to maintain the healthy standard living in the public housing developments.

On October 21, 1998, Congress enacted the Quality Housing and Work Responsibility Act of 1998 (P.L. 195-276, approved October 21, 1998) (referred to as the "Public Housing Reform Act"). The Public Housing Reform Act made sweeping changes to HUD's public and assisted housing programs. Among other changes, Section 519 of the Public Housing Reform Act amended Section 9 of the 1937 Act. Section 9, as amended, establishes a capital fund for making assistance available to the PHAs or modernization and new construction of public housing (referred to as the "Capital Fund Program"). HUD regulations implementing Section 9 are found in 25 CFR 968 and 24 CFR 941. Section 535 of the Public Housing Reform Act amended Section 24 of the 1937 Act.

Section 539 of the Public Housing Reform Act allows PHAs to own, operate, or assist in the development of mixed-finance Projects, i.e., projects developed using a mixture of other public or private funds with the above Capital Fund Program and Tax Credit funds ("Mixed-Finance"). Along with public housing unit development using public housing funds, Mixed-Finance transactions are used to develop housing under the Capital Fund Program. HUD regulations implementing Mixed-Finance are found in 24 CFR 941. In order to implement the Capital Fund Program and Mixed-Finance, HUD collects certain information from each PHA.

2. How is this information to be used?

This information is collected to ensure that guidelines for standardized modernization and development will provide a healthy living environment to low-income residents.

The following types of information are included in this collection:

Outline Specifications Regulation 24 CFR 941 require that the architects provide this information for a project development proposal. This information is used by the Department to ensure that the specifications for a public housing development project are in accordance with the Minimum Property Standards and local and State codes.

Contract for Development of A/E Services and CIAP A/E Services Regulation 24 CFR Section 85.36 requires a contractual agreement between PHAs, owners, and an architect/engineer for design and construction services. The contracts themselves do not require either party to submit any materials to HUD. PHAs (grantees) enter into contracts with HUD for design and construction services in the development of public housing. The contracts are agreements between the parties that specific services will be provided. Since this is a contractual agreement both parties sign it.

Periodic Estimate for Partial Payment and Related Schedules This information is collected under the authority of Section 6(a) of the U.S. Housing Act of 1937 and HUD regulations. PHAs are responsible for contract administration during project development. PHAs must ensure project development work is completed in accordance with state laws and HUD requirements. The contractor/subcontractor reports provide summaries of payments, change orders, and schedules of materials stored for the project

Public Housing Construction Report PHAs are responsible for contract administration during project development and the hiring of architects or other persons licensed under the State law to assist and to advise them. Contract administration includes the submission of necessary information to the PHA by that advisor to monitor the status of construction.

Request for Approval of Public Housing Development of Mixed-Finance Development PHAs must provide information to HUD before a proposal can be approved for development or mixed-finance development. Information on HUD-prescribed forms provides HUD with sufficient information to enable a determination that funds should or should not be reserved or a contractual commitment made. Regulations implemented in the U.S. Housing Act of 1937 as amended in Part 941 subpart F require PHAs to submit a full proposal and evidentiary material for a mixed-finance development.

Request for Approval of Capital Fund Financing Proposal PHAs must provide information to HUD before a proposal can be approved for modernization or mixed-finance modernization. Information on HUD-prescribed forms provides HUD with sufficient information to enable a determination that funds should or should not be reserved or a contractual commitment made. The Capital Fund Financing Program requires PHAs to submit a full proposal and evidentiary material for modernization involving Capital Fund Financing and mixed-finance modernization.

PHA Development Budget/Cost Statement, Actual Development Cost Certificate, Acquisition and Relocation Report HUD administrative requirements necessitate that PHAs maintain certain records or submit certain documents pertaining to the cost in the development of low-income housing. Sections 5 and 6(b)(2)(A)(4) of the US Housing Act are the statutory requirements for this collection.

Analysis of Proposed Main Construction Contract This information collection is under the authority of Section 6(a) of the U.S. Housing Act of 1937. Under the Annual Contributions Contract (ACC), PHAs must prepare and submit main construction contracts for projects being developed or proposed to be developed under the Low-Income Housing Program. Construction bids and budgets are submitted to HUD for review and approval prior to signing construction contracts. The information allows HUD and the PHAs to compare adjusted bid elements to the approved pre-bid estimate and to determine whether or not the amounts allocated to dwelling construction and equipment are within approval housing construction costs limits and whether or not the total development (TDC) is within the appropriate allowable limit.

HAs Annual Lead-Based Paint Activity Report Authorized under 42 USC 4821-4856 and 24CFR Part 35 & 965. Requires HAs to collect, maintain, and report information regarding lead-based paint testing and abatement activities.

Contract Administration – Public and Indian Housing Standard construction practices and HUD administrative and procurement requirements under 24 CFR Part 85.36(b) necessitate that PHAs and Indian Housing Authorities (IHAs) maintain certain records or submit certain documents in conjunction with the award or oversight of construction contracts for development of new low-income public housing developments or modernization of existing public housing developments.

Insurance Information Section 6(c)(4) requires that PHAs comply with HUD procedures and requirements to assure that sound management practices will be followed in the operation of a public housing development. HUD regulations state that PHAs must obtain certain types and amounts of property and casualty insurance to protect the funds, operations and property of each HA, as well as the Federal interest.

General Conditions of PHAs Construction Contracts The General Conditions provide PHAs, contractors and subcontractors performance and compliance requirements for project construction under the conventional bid method and modernization.

Modernization of Public Housing Section 119 of the US Housing Act of 1937 authorizes the Comprehensive Grant Program to govern the modernization needs of larger PHAs, subject to congressional approval of the allocation forms.

REVISION OF INFORMATION:

Request for Approval of Public Housing Development or Mixed-Finance Development PHAs must provide information to HUD before a proposal can be approved for development or mixed-finance development. Information on HUD-prescribed forms and proposed required documents provides HUD with sufficient information to enable a determination that funds should or should not be reserved or a contractual commitment made. Regulations implemented in the U.S. Housing Act of 1937 as amended in 24 CFR Part 941 subpart F require PHAs to submit a full proposal and evidentiary materials for a mixed-finance development.

Request for Approval of Capital Fund Financing Proposal The information collection items in this request approved under OMB Control No. 2577-0157, Public Housing Capital Fund Financing is being revised. The HUD-52848 is being deleted. The HUD-52842 was also deleted as it was made obsolete as a result of the Public Housing Reform Act, but had not been previously removed from the collection. The forms HUD-50070, HUD-50071, HUD-52834, HUD-52835, HUD-52836, and HUD-52837 were deleted. The burden hours for these forms are now included in information collection OMB No. 2577-0226. The forms were revised and added as part of the HUD-50075 series which collects information regarding a PHA's annual agency plan. Two new forms are being added to the collection, the HUD-52829 and the HUD-52830 which incorporate program changes as a result of publishing the CFFP rule.

All of the elements of the Capital Fund calculation and implementation are derived annually from the information PHAs provide in the following prescribed forms:

Form/Document	Title	Description
Unique Legal Document	Homeownership Addendum	Amends the grant agreement to add newly developed homeownership units and describes the development transaction.
HUD-50029	Homeownership Term Sheet	Used to summarize a homeownership proposal or develop a public housing or affordable housing project.

HUD-51915-A	Contract Provisions Required by Federal Law or Owner Contract with the U.S. Department of Housing and Urban Development	Contains the required provisions for A/E contracts.
HUD-51971-I, II	Offer of Sale of Real Property	Used to decide whether or not funds should be reserved or a contractual agreement made.
HUD-52396	Analysis of Proposed Main Construction Contract	Reports pro-bid, actual bid, final bid and proposed changes for various elements in a construction project.
HUD-52427	Actual Development Cost Certificate	Certifies what the actual bid, final bid and proposed changes for various elements in a construction projects.
HUD-52482	Guide Form of Turnkey Developer's Packet	Provides a potential turnkey developer with information necessary to make a proposal.
HUD-52483-A	Proposal for Public Housing Project	Used for developing a public housing project. Determines whether or not a contract should be established.
HUD-52484	Development Cost Budget/Cost Statement	Used to review and approve development funds.
HUD-52485	Demonstration of Financial Feasibility	Used to demonstrate financial feasibility of a project.
HUD-52651-A	Site, Design and Cost Report (PIH)	Summarizes site documents when a project involves 1-4 family projects.
HUD-52829	Physical Needs Assessment Form	Used by an HA to identify and prioritize work items to be funded with a Capital Fund Financing transaction.
HUD-52830	Portfolio Schedule Form	Used by an HA to project future capital funds.
HUD-52832	Modernization of Public Housing Under the Comprehensive Grant Program: Reporting Requirements	Describes all improvements necessary to bring the development to standards.
HUD-52833	Management Needs Assessment	Identifies all improvements needed to upgrade the management and operations of the PHA.
HUD-52845	Capital Fund Financing Program Model Term Sheet	Provides summary information type and structure of the CFFP transaction for which a PHA is requesting HUD approval

HUD-52846	Capital Fund Financing Program Periodic Payment Debt Service Schedule	Provides the amount of Debt payment, source of payment, portion of CFP funds and date of payment for a CFFP bond transaction
HUD-52847	Capital Fund Financing Program Monthly Debt Service Schedule	Provides the amount of debt payment, source of payment, portion of CFP funds and date of payment for a CFFP direct loan transaction. Two parts to this form: Part A: Annual Summary and Part B: Monthly Detail.
HUD-52849	Capital Fund Financing Program List of Participating PHAs	Provides a summary breakdown of financial information for each PHA participating in a CFFP pooled transaction
HUD-53001	Actual Modernization Cost Certificate	Report on actual Cost of a modernization program on its completion
HUD-53015	Turnkey Contract of Sale Parts 1&2	Contract between developer and housing authority to develop a turnkey public housing project
HUD-5370	General Conditions of the Construction Contract (PHAs)	Provides general conditions for construction contracts including work, construction and administrative requirements
HUD-5370-C	General Conditions, Non-Construction Contract	Provides general conditions for non-construction and maintenance contracts including conduct of work and administrative requirements
HUD-5370-EZ	General Conditions of the Small Construction Contract (PHAs)	Provides general conditions for small construction contracts including work, construction and administrative requirements (less than \$100,000)
HUD-5372	Contract Administration (PIH)	Charts the plan of construction progress and schedule of payments
HUD-5378	Public Housing Construction Report	Used to track construction progress.
HUD-5460	Insurance Information	Used to establish an insurable value of project at the time of construction.
Unique Legal Document proposed in the Rule	Mixed-Finance Amendment to the Annual Contributions Contract	Legal contract between HUD and the PHA. This document contains the terms and conditions of the Mixed-Finance transaction.
Unique Legal Document proposed in the Rule	Mixed-Finance Certifications and Assurances (Draft document/form)	Legal document that states the low-income rental and other restrictions on the use housing units within the Mixed-Finance development.
Unique Legal Document proposed in the Rule	Mixed-Finance Declaration of Restrictive Covenants	Title insurance policy issued on the Mixed-Finance development.
Unique Legal Document proposed in the Rule	Mixed-Finance Final Title Policy	Opinion by the attorney representing the PHA that Mixed-Finance development legal evidentiaries are correct and legally sufficient.
Unique Legal Document proposed in the Rule	Mixed-Finance Legal Opinion	Draft Certification by the PHA that HUD's statutory and regulatory requirements will be met in the production of the Mixed-Finance development.
Electronic Input	Public Housing Information Center Certification of Accuracy	Used to certify that all CFP Formula Grant related data in the Public Housing Information Center is accurate and up to date.

3. Describe whether, and to what extent, the collection of information is automated?

HUD electronically collects public housing finance, inventory and development data from the PHAs through its Public Housing Information Center, an automated data entry/database system. This data is reported under other collection numbers throughout HUD's Office of Public and Indian Housing. Some of this data is used by the Capital Fund Program to determine the amount of funding that each PHA should receive through annual formula grants. HUD is now requiring each PHA to certify to the accuracy and timeliness of the data that they submitted. This new certification is collected electronically.

An automated system, the Subsidy and Grant Information System, is currently under development. It will automate all financial forms. However, progress on the system is slow and may take a few years. In addition, new Capital Fund Program and Capital Fund Financing proposed rules are in Departmental Clearance. The Capital Fund rule will make major changes to the program. Until these rules become final, decisions cannot be made on which existing forms will be retained, changed or cancelled and on the specifics of information automation or. Therefore, realistically, automation is at least two years away.

4. Duplication of Information

This information is not being collected elsewhere. The information being collected is specific to current funding, therefore the information PHAs no been previously collected.

5. Does the collection of information impact small businesses or other small entities?

This collection of information does not significantly impact small businesses or entities.

6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently.

The Department would not be able to ensure that funds were distributed and used effectively if this collection was conducted less frequently. This collection ensures that participants act responsibly with the Program funds.

7. Explain any special circumstances

HUD-51001 and HUD-51002 are prepared more than 4 times because the payments to the contractors are usually on monthly basis. HUD-5378 is the construction report, which the architect or the inspecting personnel prepare after the inspection and these inspections are on a monthly basis.

8. Identify the date and page number of the Federal Register notice soliciting comments on the information.

A notice of proposed information collection for the Public Housing Capital Fund was published in the Federal Register on September 4, 2008, page 51644 to solicit public comment. No comments were received.

9. Explain any payments or gifts to respondents, other than remuneration of contractors or grantees.

No payments or gifts to respondents are provided.

10. Describe any assurance of confidentiality provided to respondents.

The information provided is not of a confidential nature.

11. Justify any questions of a sensitive nature, such as sexual, religious beliefs, and other matters that are commonly considered private.

The information collected does not contain questions of a sensitive nature.

12. Annual Reporting Burden

The annual reporting burden hours are based on the experience and estimated amount of time that takes to report the requested information. For non-Mixed-Finance development, the number of respondents is based on the fact that there are 3,100 housing authorities nation-wide and all of these housing authorities receive funds from, and are subject to the requirements of, the Capital Fund program. In some cases the number of respondents is less than 3,100. These respondent numbers are based on HUD’s historic number of public housing or Mixed-Finance development projects that begin annually. All respondents are sub-sets of the 3,100 PHAs, except for approximately 5 homeownership and 5 mixed-finance projects per year, which are implemented by units of local government under a relatively small, annual set-aside of HOPE VI appropriated funds.

13. Additional Cost to Respondents

There are no additional costs to respondents other than what is reported in Item 12.

14. Annualized cost to the Federal Government

The estimated annualized cost to the Federal Government is based on the hourly rate of \$47, the 2008 General Pay Scale for a GS 14 Step 1, which represents the staff of HUD's Office of Public Housing Investments (OPHI). This office primarily administers the Capital Fund Program, and both administers and implements the Capital Fund Financing Program, and Mixed-Finance transactions for the Capital Fund, Capital Fund Financing, and HOPE VI Programs. OPHI has approximately 40 full-time employees that work on these programs. 40 x \$47 x 2080 hours per year, equals \$3,910,400.

There is no additional cost to the Government related to processing less complex Capital Fund public housing development, since such processing is included as part of standard Field Office staff work.

15. Explain any program changes or adjustments.

Adjustments:

1. The prior PRA submission, which conglomerated several older programs into the Capital Fund Program, 2577-0157, partially omitted existing mixed-finance and homeownership collections. The burden is adjusted for Documents #1, 2, and 35-39, above, by +1,643 hours, and +\$181,620.
2. The prior PRA submission also under reported the burden of complex Capital Fund Financing Program transaction forms. It included only the time to fill in the forms and did not include preparatory time. The per hour cost was set at \$25, the wage for less complex work and has been raised to \$47, the level for more complex work. Documents #24 through 27, above, had been reported at 144 hours and \$3,563. They are now reported at 825 hours and \$37,775. The burden is adjusted by +681 hours and \$34,212.
3. The per hour costs have been increased since the last PRA submission to account for wage increases. Filing was estimated at \$13 and is now estimated at \$14 per hour. Non-complex Program Analyst wages have been increased from \$26 to \$28 per hour, and the wages for complex transactions have been changed from \$44 to \$47 per hour. This wage adjustment increased the collection cost by \$640,315.
4. The prior PRA submission incorrectly reported the hours for the HUD-53001 (was 0.2 hrs per response and should be 2 hrs), HUD-52484 (was 5 hrs per response and should be 10 hrs). The burden is adjusted by +16,220 hours, and +\$352,240.

Revisions:

1. The forms HUD-52842 and the HUD-52848 were deleted due to changes in program requirements. The HUD-52842 was made obsolete with QWHRA (see Sect. A 1. para. 2). The HUD-52848 is no longer required. This reduces the total burden -15,525 hours and -\$388,125.
2. The forms HUD-50071, HUD-52834, HUD-52835, HUD-52836, and HUD-52837 were deleted. The burden hours for these forms are now included in information collection OMB No. 2577-0226. The forms were revised and added as part of the HUD-50075 series which collects information regarding a PHA's annual agency plan. This reduces the total burden -36,155 hours and -\$860,250.
3. Two new forms HUD-52829 and HUD-52830 (documents #20 and #21, above) have been added which provide additional information on the physical needs of a PHA submitting a Capital Fund Financing transaction and any changes to the PHAs portfolio which could affect future capital funds and ability to repay debt service. This increases the total burden by +1,400 hours and +\$65,800.
4. A new electronic Document, #40, requires the PHAs to certify to the accuracy and timeliness of all Capital Fund Program related Public Housing Information Center data that is related to HUD's determination of the PHAs' Capital Fund annual formula grants. This increases the total burden by +6,200 hours and \$173,600. However, PHAs will no longer be required to validate two 1999 data elements, the 1999 Unit Count and 199 Aggregate Bedroom Count, through the Development Details webpage for each development in a PHA's inventory.
5. Documents #4 and 6, which had been cancelled and not reported in the previous PRA submission, are being reinstated. These documents increase the total burden by +5,240 hours and \$100,100..

16. If the information will be published, outline plans for tabulation and publication.

The results of this information collection will not be published.

17. OMB Expiration Date

HUD is not seeking approval to avoid displaying the OMB expiration date.

- 18. Certification of Paperwork Reduction Act Submission** There is no exception to Item # 19 "Certification of Paperwork Reduction Act Submission."
