This survey is used to provide a measure of the quantity of seed produced in Washington. Your voluntary response is appreciated. All individual reports are kept confidential and used only to prepare State totals. Thank you for your cooperation.

*Please make corrections to name, address, and zip code, if necessary.*

**FIELD SEED HANDLERS:** Report quantity of 2007 seed cleaned, regardless of ownership, by your plant(s). Include seed that has been partly cleaned on farms where cleaning operations are confined to the farmer's own production. However, exclude from your report any cleaned or partly cleaned seed that you received from some other cleaner. Please report the average price growers received for clean seed **BEFORE** paying cleaning charges. For seed grown in other states, report the price if different than the Washington price.
