

SUPPORTING STATEMENT

A. Justification:

1. The Commission is submitting this information collection to the Office of Management and Budget as an extension to obtain the full three year clearance. There are no changes to the reporting, recordkeeping and/or third party disclosure requirements.

Part 101 rule sections require various information to be reported to the Commission; coordinated with third parties; posting requirements; notification requirements to the public; and recordkeeping requirements maintained by the respondent to determine the technical, legal and other qualifications of applications to operate a station in the public and private operational fixed services. See the Appendix at the end of this Supporting Statement to see the individual rule sections and their associated requirements and burden calculations.

The information is used to determine whether the public interest, convenience, and necessity are being served as required by 47 U.S.C. § 309. The Commission staff also use this information to ensure that applicants and licensees comply with ownership and transfer restrictions imposed by 47 U.S.C. § 310.

As noted on OMB Form 83-I, this information collection does not affect individuals or households; thus, there are no impacts under the Privacy Act.

Statutory authority for this collection is contained in 47 U.S.C. §§ 151, 154(i), 301, 303(f), 303(g), 303(r), 307, 308, 309, 310, and 316.

2. Part 101 rule sections require respondents to report or disclose information to the Commission or third parties, respectively, and to maintain records. These requirements are necessary for the Commission staff to carry out its duties to determine technical, legal and other qualifications of applicants to operate and remain licensed to operate a station(s) in the common carrier and/or private fixed microwave services. In addition, the information is used to determine whether the public interest, convenience, and necessity are being served as required by 47 U.S.C. § 309 and to ensure that applicants and licensees comply with ownership and transfer restrictions imposed by 47 U.S.C. § 310. Without this information, the Commission would not be able to carry out its statutory responsibilities.
3. The Commission's rules provide for electronic filing and it is the Commission's goal to eliminate, to the greatest extent possible, the filing of paper applications.
4. No similar data is available elsewhere.

5. In conformance with the Paperwork Reduction Act of 1995, the Commission is making an effort to minimize the burden on all respondents, regardless of size. The Commission has limited the information requirements to that absolutely necessary for evaluating and processing applications and to deter against possible abuses.
6. The information collected is generally required when the applicant seeks Commission approval for new or modified facilities, or for an assignment or transfer of control. Therefore, the frequency of the filing is generally determined by the applicant. Renewal applications must be filed once every ten years.
7. Current data collection is consistent with 5 CFR § 1320.6.
8. A 60-day notice was published in the Federal Register on January 16, 2009 (74 FR 3035). No comments were received as a result of the notice. A reference to the notice is included in the submission to OMB.
9. There are no payments or gifts to respondents.
10. No questions of a confidential nature are asked.
11. There are no questions of a sensitive nature.
12. See the Appendix at the end of this Supporting Statement for each individual rule section covered under this OMB control number along with their requirements imposed on the public along with a breakdown of their burden calculations:

Recordkeeping. The annual recordkeeping requirement burden in Part 101 is approximately 27,953 hours (the sum of record keeping requirements detailed in the Appendix for rule sections 101.135, 101.217 and 101.817 only.)

A total of approximately 9,500 unique licensees hold a total of approximately 89,500 licenses issued under Part 101, which equates to approximately 0.311 hours per license.

Reporting. Approximately 324 respondents will file 349 responses per year with a total reporting burden of 334 hours (the sum of the reporting requirements detailed in the Appendix for rule sections 101.31, 101.51, 101.55, 101.209, 101.301, 101.305, 101.309, 101.407, 101.411 and 101.413). We estimate that generally 25% of the respondents will contract out the burden of reporting; the remaining 75% of respondents will employ internal staff to respond. The average burden hours for those respondents contracting out and those using internal staff for the various reporting requirements are detailed in the Appendix.

Third Party Disclosure. The annual third party disclosure burden in Part 101 is approximately 6,955 hours (the sum of the third party disclosure requirements

detailed in the Appendix for rule sections 101.103, 101.215, and 101.519). We estimate that generally 25% of the respondents will contract out the burden of reporting; the remaining 75% of respondents will employ internal staff to respond. Except for the burden for section 101.103 for which approximately 75% of the respondents will contract the burden of reporting to a commercial coordinator; and the remaining 25% would employ internal staff to respond. The average burden hours for those respondents contracting out and those using internal staff for the various reporting requirements are detailed in the Appendix.

TOTAL ANNUAL BURDEN HOURS = 27,953 hours + 334 hours + 6,955 hours = 35,242 hours

13. The following represents the Commission's estimate of the annual burden to respondents, record keepers or third party respondents resulting from the collection of information:

(a) Total capital and start-up cost component (annualized over its useful life): \$0.

(b) Total operation and maintenance and purchase of services component: \$553,000. We assume that the respondents using consultants would use an attorney or engineer (\$200/hour) to consult and prepare information. Generally, the estimated costs are calculated by multiplying the estimated number of responses for which the applicant will use an attorney or engineer, times the estimated burden hours for that requirement, times the cost of \$200/hour. The reporting and recordkeeping cost estimate for each reporting, recordkeeping, and/or third party disclosure requirement is detailed in the Appendix.

TOTAL ANNUAL COSTS = (\$200/hour x 2,765 average hours per response x annual responses) = \$553,000.

14. The cost to the Federal government processing costs are as follows:

Attorney approximately \$65.62/hour x 1 hour x 349 filings =	\$22,901.38
Engineer approximately \$65.62/hour x 1 hour x 349 filings =	<u>\$22,901.38</u>
Total:	\$45,802.76

15. The Commission is reporting a decrease in the total annual hours requested by 1,343 hours. This adjustment reflects revised estimates based on updated licensing data. There is also a significant increase in the number of responses due to a recalculation of each requirement listed in the Appendix to this Supporting Statement. Finally, we are adjusting the annual cost burden by +\$79,000 due to the increase in the estimated responses.

16. The data will not be published for statistical use.

17. We do not seek approval to not display the expiration date for OMB approval of the information collection. The Commission publishes a list of all-OMB approved information collections in 47 CFR 0.408.
18. There was one exception to the certification statement in Item 19 of the OMB 83i. When the Commission published the 60 day notice, we reported an inaccurate estimate for the number of responses for this information collection. With the publication of the 30 day notice, we are reporting more accurate estimates.

B. Collections of Information Employing Statistical Methods:

No statistical methods are employed.

APPENDIX

Key

- † Burden hours estimate for the approx. 25% of respondents who hire consultants (but still incur some in-house time per response)
- ‡ Cost estimate for the approx. 25% of respondents who hire consultants (annual responses done by consultants @ \$200/hr. taking approx. the same amount of time per response as estimated for respondents completing the responses in-house)
- †† Burden hours estimate for the approx. 75% of respondents who complete the response in-house without hiring consultants = no external cost.
- () Estimates that are in fractions are rounded to the next higher number if over .5. Rounded numbers are shown in parentheses.
