# Country Exposure Information Report

## FFIEC 009a

### General Instructions

This report is a supplement to the Country Exposure Report (Form FFIEC 009) filed with the banking regulatory agencies for bank examination purposes. The purpose of the Country Exposure Information Report is to provide public disclosure of significant country exposures of U.S. banking institutions. Copies of the report are available to the public by accessing the following website <http://www.ffiec.gov/E16.htm>.

### Who Must Report

This report must be filed by every institution that submits Form FFIEC 009 and that has exposure meeting the reporting requirements for Form FFIEC 009a as defined in these instructions.

This supplemental disclosure report (Form FFIEC 009a) has two parts: Part A and Part B. Part A will be completed when exposure, as defined for Column 4, Part A, to a single country exceeds one percent of the banking institution's total assets or exceeds 20% of the banking institution's total capital, whichever is less. Part B will be used to report the names of the countries where the amount of exposure exceeds 0.75 percent but does not exceed 1 percent of the banking institution's total assets or is between 15 percent and 20 percent of the banking institution's total capital, whichever is less. The banking institution must only list the names of the countries and the aggregate amount of exposure for all countries listed under Part B. For the purposes of meeting this criteria, exposure is defined as the amount of total claims computed in accordance with the instructions to Column 4, Part A.

Total assets of reporting banks are those submitted on the Report of Condition to the federal bank supervisors as of the same date. For bank holding companies total assets are those submitted on the most recent Form FR Y-9.

Total capital is as defined in the agencies' guidelines on capital adequacy and consists of Tier 1 plus Tier 2 capital.

### Filing of Reports

The report is to be prepared quarterly, as of the end of March, June, September and December. All respondents should submit their completed report via the Federal Reserve System's Internet Electronic Submission (IESUB) system, within 45 days of the reporting date.

The Federal Reserve district banks will provide technical assistance to any respondent who needs guidance creating files for their 009a submission via IESUB. Any FFIEC 009a respondent who needs guidance is encouraged to visit the Federal Reserve System Web site <http://www.reportingandreserves.org/req.html> for additional information on IESUB. The Web site also includes a link that respondents may use to contact the Federal Reserve Bank of New York.

### Rounding

Round all amounts reported on this form to the nearest million dollars.

### Part A

#### Country

The countries listed in Part A should be those where exposure, as defined for Column 4, Part A, exceeds 1 percent of total assets or 20 percent of total capital, whichever is less. The names of the countries reported should be as they appear on Form FFIEC 009.
