

IMPACT telephone survey instrument

Introductory script

Hello! My name is [name] and I'm calling from the University of Washington. We are conducting an important study about how people use the free computers, websites, databases, Internet connections, and other electronic resources offered by your public library. This information will be used to evaluate and improve library services all over the country.

This research is sponsored by the Institute for Museum and Library Services, which is a department of the federal government that provides services to the nation's museums and libraries.

Your number was randomly selected for participation in our survey. You don't have to answer any questions you don't want to and your answers are completely anonymous.
On average, the survey takes about 10-20 minutes.
