

User Feedback Survey: Groundfish SAFE Economic Status Report

AFSC invites all users of the Groundfish SAFE Economic Status Report to provide comments and feedback on the Report. AFSC's Economic and Social Sciences Research Program staff have begun an initiative to revise the SAFE Economic Status Reports for the Bering Sea/Aleutian Islands (BSAI) Crab and Groundfish, to incorporate additional analytical content and synthesis, improve online accessibility of public data in electronic formats, and otherwise improve the utility of the reports to users. We welcome any and all comments and suggestions for improvements in the analysis and presentation of information and data contained in the report, and the accessibility of data files and other online resources provided on the report website, <http://www.afsc.noaa.gov/REFM/Socioeconomics/documents.php>.

Paperwork Reduction Act Information: In accordance with Executive Order 12862, the National Performance Review, and good management practices, NOAA offices seek to determine whether their customers are satisfied with the services and/or products they are receiving and whether they have suggestions as to how the services/products may be improved or made more useful. The information will be used to improve NOAA's products and services. Responses to this survey are completely voluntary. No confidentiality can be provided for responses, but you need not supply your name or address. Public reporting burden for this collection of information is estimated to average 15 minutes per response. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Dr. Brian Garber-Yonts: brian.garber-yonts@noaa.gov.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
