

Justification for a Nonsubstantive Change
OMB Control Number 0693-0031
Generic Request for Customer Satisfaction Related Data Collections

This request for a Nonsubstantive Change for this Generic Collection, is needed since the Information Collection Request (ICR) uploaded during the renewal submission used the entire amount (3,500 hours) of the Burden Hours requested for this ICR. This will allow a separate information collection (IC) to be submitted for each of the collections under this generic ICR.
