## 11. Screening and Diagnostic Activities Supported Through the Use of Non-Federal Funds

If your program serves women through the use of non-federal funds - **and these women are not reported through the MDE submission** - please provide the following data based on this group. Women and diagnoses reported here should be mutually exclusive of those reported through the MDEs.

**11A. Screened = the woman was provided a screening procedure (mammogram, CBE, Pap) by the program**

	Breast	Cervical
Number of women screened through the use of non-federal funds	<input type="text" value="0"/>	<input type="text" value="0"/>

**11B. Served = the woman was referred to the program for diagnostic follow-up; screening procedure was done elsewhere**

	Breast	Cervical
Number of women served through the use of non-federal funds	<input type="text" value="0"/>	<input type="text" value="0"/>

**11C. Number of cancers diagnosed through the use of non-federal funds**

	Breast	Cervical
Number of in-situ breast cancers diagnosed in women through the use of non-federal funds	<input type="text" value="0"/>	
Number of invasive breast cancers diagnosed in women through the use of non-federal funds	<input type="text" value="0"/>	
Number of pre-cancerous (CIN2/CIN3/CIS) cervical lesions diagnosed in women served through the use of non-federal funds		<input type="text" value="0"/>
Number of invasive cervical cancers diagnosed in women served through the use of non-federal funds		<input type="text" value="0"/>

\* "Women screened" and "women served" are mutually exclusive from each other.
