Comments:						

OMB Number: 1218-0110
Expiration Date: 10/31/2011

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. OSHA requires that all State Onsite Consultants (Consultants) use the Revised Form 33 if they collect information in the course of their visit which would allow them to fill out a portion of the form. See Chapter 4, II. of the Consultation Policies and Procedures Manual (CPPM). When the Consultation Project Manager recommends an applicant for the OSHA Safety and Health Achievement Recognition Program (SHARP), which exempts the employer from an OSHA enforcement inspection as long as the applicant remains a SHARP site, managers must complete all the Revised Form 33 information. In accordance with 29 CFR 1908.6(h)(1) and (2), Consultants must preserve the confidentiality of information obtained as the result of a consultative visit which contains or might reveal a trade secret of the employer. It is estimated that Consultants average between 10 and 30 minutes to complete the form, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing the form. The Form serves as a comprehensive evaluation tool. The information obtained from the form is used to evaluate an employer's safety and health management system. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Office of the Chief Information Officer, U.S. Department of Labor, Room N-1301 200 Constitution Avenue, NW Washington, DC 20210.

Revised Form 33, October, 2000
