FEDERAL HOUSING FINANCE BOARD

Affordable Housing Program/Community Investment Cash Advance (AHP/CICA) Data Reporting Instructions

Table of Contents

GENERAL INSTRUCTIONS

Who Must Report

Each Federal Home Loan Bank (FHLBank) shall submit the following reports of the Affordable Housing Program (AHP) and Community Investment Cash Advance (CICA) program to the Federal Housing Finance Board (Finance Board) according to the submission date designated for each report.

1. Aggregate AHP information *quarterly* via the Federal Housing Finance Board's Call Report System (CRS). This report shall be submitted on or before twenty (20) calendar days after the preceding quarterly period ending (March 31; June 30; September 30; and December 31).

2. Aggregate CICA information *quarterly* via the Federal Housing Finance Board's Call Report System (CRS). This report shall be submitted on or before twenty (20) calendar days after the preceding quarterly period ending (March 31; June 30; September 30; and December 31).

3. Competitive Project Level information *semi-annually* via the Federal Housing Finance Board's AHP/CICA data submission (AHP/CICA). This report on or before:
    a. July 31 for the preceding six month period January 1 to June 30;
    b. January 31 for the preceding six month period July 1 to December 31.

4. Non-Competitive (Set-Aside) Household Level information *annually* via the Federal Housing Finance Board's AHP/CICA data submission (AHP/CICA). This report shall be submitted on or before January 31 for the prior calendar year's data.

5. CICA Member Level Project information *annually* via the Federal Housing Finance Board's AHP/CICA data submission (AHP/CICA). This report shall be submitted on or before January 31 for the prior calendar year's data.

Preparation of the Information

Each FHLBank is required to prepare and file information in accordance with these instructions. All information shall be prepared in a consistent manner. Each FHLBank's records shall be maintained in such a manner and scope so as to ensure that the information can be prepared and filed in accordance with these instructions and reflect a fair presentation of the FHLBank's results of AHP and CICA.

Questions and requests for interpretations of matters appearing in any part of these instructions should be addressed to the Finance Board. Regardless of whether a FHLBank requests an interpretation of a matter appearing in these instructions, when the

Finance Board's interpretation of the instructions differs from the FHLBank's interpretation, the Finance Board may require the FHLBank to prepare the information submission in accordance with the Finance Board's interpretation and to amend previously submitted reports.

Accuracy of the Information Submission

FHLB Senior Management and the FHLB Board of Directors attest to the accuracy of the information by submitting the information to the FHFB.

Submission of the Information

Information must be submitted via the Finance Board Standard in the prescribed formats detailed in these instructions, the CRS chapters of the Data Reporting Manual (DRM), and as augmented or updated in the DRM.

The current submission standard is the Finance Board's Extranet.

Amending Prior Submission

The Finance Board may require an FHLBank to amend prior submission information if the information contained significant errors, as determined by the Finance Board, in how the reporting FHLBank classified, categorized, or reported items in the submission.

When dealing with the recognition and measurement of events and transactions in a data submission, amended reporting may be required if the Finance Board determines that the information as previously submitted contain errors that are material for the reporting FHLBank.

Retention of Data Submission

In general, a FHLBank should maintain in its files a record of its completed data submission,including any amended reports, and the related work papers and supporting documentation for five (5) years after the report date.

Release of FHLBank Data Submission

All information reported will be available to each FHLBank. The Finance Board will use the information submitted to create aggregate reports available to the public and for other uses the Finance Board deems appropriate.

Miscellaneous General Instructions

Rounding
All dollar figures will be rounded to the nearest dollar. Percentage precision is to the fourth decimal place, unless noted otherwise.

Negative Entries
With the exception of the Competitive AHP data element "Cumulative Dollar Amount of Subsidy Modification", negative entries are not appropriate and shall not be reported.

Verification
All addition and subtraction should be double-checked before information is submitted. Totals and aggregate information should be cross-checked to corresponding items reported elsewhere (CRS, etc). Before any information is submitted, all amounts should be compared with the corresponding amounts in the previous submission. If there are any unusual changes from the previous submission, a brief explanation of the changes should be attached to the work papers. Each FHLBank should retain work papers and other records used in the preparation of these submissions.

Additionally, these instructions contain information regarding validations and edit checks. For data to be successfully accepted, the data must meet each validation and edit check. A single item failure results in the rejection of the entire submission. As such, data should also be cross-checked to ensure that each validation and edit check is met.

FINAL COLLECTION/SPECIFICATION INFORMATION

The Finance Board has historically collected AHP and CICA information via various venues including the AHP web. On April 26, 2005, the FHFB published Notice No. 2005-N-02 in the Federal Register as "Proposed Collection; Comment Requested". This notice detailed proposed changes to the information collection in the AHP and a proposed data specification for collecting AHP Competitive, Non-Competitive (Set-Aside), and Aggregate AHP information. Since the April 2005 notice was published, Finance Board staff have had extensive consultations with the FHLBanks regarding refinements of the changes announced in April 2005. Appendix A of this document provides a translation from the elements detailed in the Federal Register Proposed Collection Notice to the final data collection and specification. Elements are noted as REMOVED (proposed elements no longer required) or ADDED (new elements now required). For detailed data element definitions for the final elements, refer to "LINE ITEM INSTRUCTIONS FOR THE AHP DATA SUBMISSION".

INITIAL REPORTING PERIOD INFORMATION

Each FHLBank will continue to report AHP and CICA information to the Finance Board.

Aggregate AHP Reporting

Aggregate AHP reporting in CRS will commence in 2007. The FHLBanks will report first quarter 2007 information during April 2007. This quarterly reporting will continue until further notice.

Aggregate CICA Reporting

Aggregate CICA reporting in CRS will commence in 2007. The FHLBanks will report first quarter 2007 information during April 2007. This quarterly reporting will continue until further notice.

Competitive Project Level Reporting

Competitive Project Level reporting in AHP/CICA will commence in 2007. For the first reporting period, FHLBanks will report calendar year 2006 approved applications/projects and any previously unreported approved project progress/delta information.

Approved Application/Project Reporting

Applications/Projects approved by each FHLBank's board during calendar year 2006 will be reported during January 2007. After this initial reporting period, semi-annual

reporting detailed in the "Submission of Information" section of this document will begin.

Progress/Delta Reporting

Progress or deltas of board approved projects not previously reported during 2006 will be reported during January 2007. After this initial reporting period, semi-annual reporting detailed in the "Submission of Information" section of this document will begin.

Grandfathering Information

Projects approved in calendar years 2005 and prior years will not be required to report all elements defined in the new data collection. Instead, only a subset of these elements will be required. They are:

> FHLB District ID
> FHLB Project ID
> Report Begin Date
> Report End Date
>
> Sponsor Name
> Proposed Units
> Completed Units
> Direct Subsidy Awarded
> Cumulative Direct Subsidy Disbursed
> Advance Subsidy Awarded
> Cumulative Advance Subsidy Disbursed
> Amount of Subsidized Advance
>
> Completion Date
> Withdrawal Date
> Completed Home Owner Units LTE 50AMI
> Completed Rental Housing Units LTE 50AMI
> Project City
> Project State

This project information should be submitted as part of the Progress/Delta and Completion/Withdrawal file submissions. As grandfathered projects require reporting of only a subset of elements, nulls should be reported for the data elements not required.

Phase In Information

Projects approved by the board during calendar year 2006 are subject to deferred or "phase in" reporting of certain elements. The "phase in" period ends on June 30, 2007, meaning that all phase in elements on these 2006 projects must be reported no later than July 31, 2007.

For the initial reporting, which must be reported no later than January 31, 2007, nulls should be reported for those phase in elements that are not currently available but must be reported as noted below.

To collect the phase in elements, a one time only application submission file for all 2006 projects must be submitted in July 2007. The file must contain all 2006 projects that lacked complete reporting of phase in elements. Additionally, all elements (both phase in and previously reported) must be included in the file. The data reported will be validated and replace previously submitted 2006 project data.

Future Reporting Information

Projects approved by the board beginning in calendar year 2007 and beyond are subject to full reporting of all elements. This semi-annual reporting will continue until further notice.

Set-Aside Reporting

Calendar Year 2006 Reporting Information

Aggregate set-aside information for calendar year 2006 will continue to be collected by the Finance Board via separate worksheet.

Future Reporting Information

Calendar year 2007 set-aside household level information and beyond will be reported in AHP/CICA. This annual reporting will continue until further notice.

CICA Member Level Project Reporting

Calendar Year 2006 Reporting Information

Aggregate CICA information for calendar year 2006 will continue to be collected by the Finance Board via separate worksheet.

Future Reporting Information

Calendar year 2007 CICA member-level project information and beyond will be reported in AHP/CICA. This annual reporting will continue until further notice.

LINE ITEM INSTRUCTIONS FOR THE AHP DATA SUBMISSION

Appendix B of this document provides a complete mapping of Project Level Competitive Information.

Appendix C of this document provides a complete mapping of Household Level Set-Aside Information.

Project Level Competitive Data Elements, Definitions, and Attributes

Each FHLBank shall report only board approved projects and the on-going information related to those projects that transpired during the reporting period (except as noted otherwise in the definition, i.e. cumulative, etc). Unfunded alternates will no longer be initially reported to the Finance Board. At such point in time when an unfunded alternate becomes a board approved project, its information will then be required to be reported to the Finance Board.

Competitive Application/Project File Submission

Appendix D of this document provides a mapping of the Competitive Application/Project Submission file by Ordinal Position.

Competitive Progress/Delta File Submission

Appendix E of this document provides a mapping of the Competitive Progress/Delta Submission file by Ordinal Position.

Competitive Completion/Withdrawal File Submission

Appendix F of this document provides a mapping of the Competitive Completion/Withdrawal Submission file by Ordinal Position.

Competitive Recapture/Retention File Submission

Appendix G of this document provides a mapping of the Competitive Recapture/Retention Submission file by Ordinal Position.

Household Level Set-Aside Data Elements, Definitions, and Attributes

Each FHLBank shall report each household that received a set-aside grant disbursement during the reporting period. Also, each FHLBank shall report on-going information that transpired during the reporting period related to those households.

Set-Aside Disbursement File Submission

Appendix H of this document provides a mapping of the Disbursement Submission file by Ordinal Position.

Set-Aside Recapture/Retention File Submission

Appendix I of this document provides a mapping of the Set-Aside Recapture/Retention Submission file by Ordinal Position.

Aggregate AHP Information

Refer to CRS Chapters of the DRM.
Appendix J of this document provides a complete mapping of Aggregate AHP Information.

LINE ITEM INSTRUCTIONS FOR THE CICA DATA SUBMISSION

Appendix K of this document provides a complete mapping of Member Level CICA Project Information.

Member Level CICA Data Elements, Definitions, and Attributes

Each FHLBank shall report approved member applications that have received an initial disbursement during the reporting period.

CICA Disbursement File Submission

Appendix L of this document provides a mapping of the CICA Disbursement Submission file by Ordinal Position.

Aggregate CICA Information

Refer to CRS Chapters of the DRM.
Appendix M of this document provides a complete mapping of Aggregate CICA Information.

APPENDIX A. HISTORIC MAPPING

Appendix A of this document provides a translation from the elements detailed in the Federal Register Proposed Collection Notice to the final data collection and specification. This master list cross references the following information:

Status represents the element's status in the new database as it relates to previous actual or proposed reporting (i.e. converted, added, deleted, etc)
Notice Number represents the Federal Register Proposed Data Element List Number
Notice Name represents the Federal Register Proposed Data Element List Name
Final Name represents the final data collection name
Reporting Location represents where the information is reported (i.e. CRS or AHP/CICA)

APPENDIX B. COMPETITIVE MAPPING

Appendix B of this document provides a complete mapping of Project Level Competitive Information. This master list cross references the following information:

Status represents the element's status in the new database as it relates to previous actual or proposed reporting (i.e. converted, added, deleted, etc)
Notice Number represents the Federal Register Proposed Data Element List Number
Notice Name represents the Federal Register Proposed Data Element List Name
Final Name represents the final data collection name
Definition represents the final element definition and includes examples as needed
AHP Web Screen Name represents the AHP Web application screen name
Previous Column Name represents the old AHP database column name
Previous Column Attribute represents the old AHP database column attribute
Previous Submission File represents the old AHP submission file name
Previous Ordinal Position represents the old AHP submission file position number
Column Name represents the new AHP/CICA database column name
Column Attribute represents the new AHP/CICA database column attribute
Format Rules represents the new AHP/CICA database column format rules
Ordinal Position Competitive TYPE File represents the new AHP/CICA submission file position number where TYPE is the type of submission file (Application/Project, Complete, Delta/Progress, and Post Completion/Recapture/Retention)
Edit Checks represents the new AHP/CICA edit check(s) that must be met before the data will be accepted
Grandfathered represents whether the new AHP/CICA element is not required for on-going projects approved by the board in calendar years 2005 and prior (i.e. Y or N)
Phase In represents whether the new AHP/CICA element's reporting can be deferred until June 30, 2007 for projects approved by the board in calendar year 2006. Phase In elements can be reported initially but will not be required to be reported until the phase in period ends on June 30, 2007 (i.e. Y or N).

Added	NDE13		If the project has been modified, indicate how it has been modified: Note - Can enter more than one (1) Number of Units (2) Targeting (3) Amount of Subsidy (4) Services & Activites (5) Other	If the project has been modified pursuant to the AHP regulation since its approval date, enter the reason(s) for the project modification(s). You may enter more than one reason for the project modification. Indicate a "Yes" if the project has been modified because (1) the number of units available have changed from what was reported at the time the application was approved; (2) the approved income targeting of units has changed; (3) the approved subsidy amount has changed; (4) the services and activities as approved in the application have changed; and (5) other project characteristics not listed above have changed the scoring.				
Added	NDE16		Cumulative Dollar Amount of Subsidy Modification	Report the cumulative dollar amount of the subsidy modification since the project's approval date. This data field is the difference between the project's approved subsidy amount at application and the project's current approved subsidy amount. The cumulative dollar amount of subsidy modification could be a negative or positive number. For example, at application the project is approved for a direct subsidy of $300,000, at progress the dollar amount of subsidy has decreased to $200,000. The difference between the direct subsidy amount at application and the current approved direct subsidy amount is a negative $100,000. Report a negative $100,000 for this data field.				
Added	NDE14		Number of Cumulative Extensions	Report the number of cumulative extensions approved for the project since its approval date. This data field is the sum of extensions approved during the reporting period plus all previous approved extensions.

APPENDIX C. SET-ASIDE MAPPING

Appendix C of this document provides a complete mapping of Household Level Set-Aside Information. This master list cross references the following information:

Status represents the element's status in the new database as it relates to previous actual or proposed reporting (i.e. converted, added, deleted, etc)
Notice Number represents the Federal Register Proposed Data Element List Number
Notice Name represents the Federal Register Proposed Data Element List Name
Final Name represents the final data collection name
Definition represents the final element definition and includes examples as needed
Column Name represents the new AHP/CICA database column name
Column Attribute represents the new AHP/CICA database column attribute
Format Rules represents the new AHP/CICA database column format rules
Ordinal Position Set-Aside TYPE File represents the new AHP/CICA submission file position number where TYPE is the type of submission file (Disbursement and Post Completion/Recapture/Retention)
Edit Checks represents the new AHP/CICA edit check(s) that must be met before the data will be accepted

APPENDIX G. COMPETITIVE RECAPTURE/RETENTION/POST COMPLETION FILE SUBMISSION

This master list cross references the following information:

Ordinal Position Competitive Post Completion File represents the new AHP/CICA submission file position number
Notice Number represents the Federal Register Proposed Data Element List Number
Final Name represents the final data collection name
Column Name represents the new AHP/CICA database column name
Column Attribute represents the new AHP/CICA database column attribute
Format Rules represents the new AHP/CICA database column format rules
Edit Checks represents the new AHP/CICA edit check(s) that must be met before the data will be accepted
Grandfathered represents whether the new AHP/CICA element is not required for on-going projects approved by the board in calendar years 2005 and prior (i.e. Y or N)
Phase In represents whether the new AHP/CICA element's reporting can be deferred until June 30, 2007 for projects approved by the board in calendar year 2006. Phase In elements can be reported initially but will not be required to be reported until the phase in period ends on June 30, 2007 (i.e. Y or N).

APPENDIX J. AGGREGATE AHP MAPPING

Appendix J of this document provides a complete mapping of Aggregate AHP
Information. This master list cross references the following information:

Status represents the element's status in the new database as it relates to previous actual
or proposed reporting (i.e. converted, added, deleted, etc)
Notice Number represents the Federal Register Proposed Data Element List Number
Notice Name represents the Federal Register Proposed Data Element List Name
CRS Description represents the final data collection name
Definition represents the final element definition and includes examples as needed
CRS Column Name represents the new CRS database column name

Status	Notice Number	Notice Name	CRS Description	Definition	CRS Column Name
		Aggregated FHLBank Data: Competititve and Non-Competititve Programs	**Aggregated FHLBank Data: Competititve and Non-Competititve Programs**		
	97	Number of competitive program applications received by the FHLBank	Competitive program - Number of applications received	Report the total number of Competitive program applications received by the FHLBank during the reporting period.	AHP1500
	98	Number of competitive program applications awarded AHP commitments	Competitive program - Number of applications approved for award	Report the total number of Competitive program applications that have been approved for an award by the FHLBank's Board of Directors during the reporting period. This data element includes primary projects, and any approved competitive applications that are no longer alternates.	AHP1600
Removed	99	Dollar amount of required annual AHP allocation	Required Annual AHP Statutory Contribution		
Removed	100	Dollar amount of AHP funds carried forward	Dollar Amount of AHP Funds Carried Forward		
Removed	101	Dollar amount of AHPaccelerated funds	Amount of AHP Funds Accelerated		
	102	Dollar amount of AHP de-obligated funds	Funds de-obligated	Report the dollar amount of funds that have been de-obligated from both the competitive and set-aside programs during the reporting period. De-obligated funds are defined as funds that were committed to a competitive project, household, or member that are returned to the Banks' AHP fund because of withdrawals, cancellations or modifications.	AHP2100
	103	Dollar amount of AHP recaptured funds	Funds recaptured and repaid	Report the dollar amount of AHP funds from both the competitive and set-aside programs that have been recaptured or re-paid during the reporting period. Recaptured funds are funds that have been disbursed to the project and then returned to the FHLBank as a result of non-compliance, per section 951.12 of the AHP regulation. Repayments are funds returned to the FHLBank due to the sale or refinancing of the unit or project prior to the end of the retention period.	AHP2200
	104	Total dollar amount of AHP funds obligated	Competitive program - Amount awarded	Report the dollar amount of funds awarded competitive projects during the reporting period. This data field is a gross amount, and includes primary projects as well as approved competitive applications that are no longer alternates.	AHP1700
Removed	105	Total dollar amount of AHP funds disbursed	Total Dollar Amount of AHP Funds Disbursed		
	106	Total dollar amount of AHP competitive funds allocated	Competitive program - Statutory Allocation	Report the dollar amount of the AHP 10% Statutory Contribution, allocated to the competitive program during the reporting period.	AHP1200
	107	Total dollar amount of AHP competitive program funds disbursed	Competitive funds disbursed	Report the gross dollar amount of competitive program funds disbursed for competitive projects during the reporting period. Include competitive program disbursements from all program years. Do not net out recaptured or repaid funds.	AHP1800
	108	Total dollar amount of AHP non-competitive program (homeownership set-aside) funds allocated	Set-aside - Statutory Allocation	Report the dollar amount of the AHP 10% Statutory Contribution, allocated to the set-aside program during the reporting period.	AHP1300
	109	Total dollar amount of AHP non-competitive homeownership funds disbursed	Set-aside funds disbursed	Report the gross dollar amount of set-aside program funds disbursed for the reporting period. Include set-aside program disbursements from all program years. Do no net out repaid funds.	AHP1900
Added	NDE		Other AHP funding adjustments	Report other adjustments to AHP funds not captured in the above items (including member reservations for the set-aside program and subsidy modifications).	AHP2300

APPENDIX K. CICA MAPPING

Appendix K of this document provides a complete mapping of Member Level CICA Information. This master list cross references the following information:

APPENDIX N. GLOSSARY

A.M.I. is defined as Area Median Income.

Accessible Design of Units is defined as units that are designed and accessible to and usable by people with disabilities particularly those individuals who use wheelchairs.

HOEPA is defined as the Home Ownership and Equity Protection Act of 1994 (HOEPA). For purposes of the AHP set-aside program data collection and reporting, the term "HOEPA-covered loan" or "HOEPA loan" generally refers only to mortgages covered by §226.32 of Regulation Z that meet HOEPA's rate or fee-based triggers.

A loan is covered by the law if it meets the following tests: 1) for a first-lien loan, that is, the original mortgage on the property, the annual percentage rate (APR) exceeds by more than eight percentage points the rates on Treasury securities of comparable maturity; 2) for a second-lien loan, that is, a second mortgage, the APR exceeds by more than 10 percentage points the rates in Treasury securities of comparable maturity; or 3) the total fees and points payable by the consumer at or before closing exceed the larger of $528 or eight percent of the total loan amount. (The $528 figure is for 2006. This amount is adjusted annually by the Federal Reserve Board, based on changes in the Consumer Price Index.) Credit insurance premiums for insurance written in connection with credit transaction are counted as fees.

Mixed Use is defined as a project that includes both residential housing units and commercial space that generates income. For example, a project that contains residential housing units and non-housing space that generates revenue (such as retail or office space leased to another entity).

Service Enriched Housing is defined as housing which incorporates economic empowerment features (as defined in the AHP regulation) and may also include on-site quality of life social services, programs or activities.

Single Family is defined as a structure with one to four dwelling units.

Single Room Occupancy (SRO) Housing is defined as a residential property that includes multiple single room dwelling units. Each unit is designed for occupancy by a single individual. The unit need not, but may, contain food preparation or sanitary facilities, or both.
