EXPORTER'S CERTIFICATION STATEMENT
"NON-CLINICAL RESEARCH USE ONLY CERTIFICATE"
for CBER

FIRM NAME

As the responsible official or designee of the company named above, I hereby certify to the United States Food and Drug Administration that these non-clinical research use product(s), material(s), or component(s) are to be used for non-clinical research use only. The product(s), material(s), or component(s) will not be used in the prevention, treatment, or diagnosis of human disease. These non-clinical research use only materials will be labeled in accordance with 21 CFR 809.10(c)(2)(i) or 21 CFR 312.160, as appropriate, and exported as they are presently being sold or offered for sale in the United States. I further certify that these non-clinical research use only materials will comply with the due diligence requirements in 21 CFR 312.160, where applicable.

EXPORT CERTIFICATION

Submission Requirements for Requesting Certificates for Exporting Products to Foreign Countries (for CBER)

Background

Firms exporting products from the U.S. are often asked by foreign customers or foreign governments to supply a certification relating to products subject to the Federal Food, Drug, and Cosmetic Act and other acts the Food and Drug Administration (FDA) administers. Under the FDA Export Reform and Enhancement Act of 1996 (the Act), FDA is authorized to issue certificates for drugs, animal drugs, and devices within 20 days of receipt of a request for such a certificate. A fee of up to $175 may be charged for each certificate issued. In addition to issuing export certificates for approved or licensed products, the FDA will also issue export certificates for unapproved products that meet the requirements of Sections 801(e) or 802 of the Act.

General Instructions:

- The **"Certificate to Foreign Government"** is for the export of products legally marketed in the United States. Certificate requests should include the information listed in **Supplementary Information – Certificate to Foreign Government Requests** *(PDF, Text)*. Please ensure that the Exporter's Certification Statement is signed by a responsible official of the exporting firm and is enclosed with the certificate request. Please ensure that the appropriate Exporter Certification Statements for Certificate to Foreign Government Requests for Human Cells, Tissues, and Cellular and Tissue-Based Products (procured prior to May 25, 2005, or on or after May 25, 2005) is signed by a responsible official of the exporting firm and is enclosed with the certificate request.

- The **"Certificate of Exportability"** is for the export of products not approved for marketing in the United States (unapproved products) that meet the requirements of Sections 801(e) or 802 of the Act. Certificate requests should include the information listed in **Supplementary Information - Certificate of Exportability Requests** *(PDF, Text)*. Please ensure that the Exporter's Certification Statement is signed by a responsible official of the exporting firm and is enclosed with the certificate request.

- The **"Certificate of a Pharmaceutical Product"** conforms to the format established by the World Health Organization(WHO) and is intended for use by the importing country when the product in question is under consideration for a product license that will authorize its importation and sale or for renewal, extension, amending or reviewing a license. WHO Certificate requests should include the information listed in **Supplementary Information – Certificate of a Pharmaceutical Product Requests** *(PDF, Text)*. Please ensure that the Exporter's Certification Statement is signed by a responsible official of the exporting firm and is enclosed with the certificate request.

- The **"Non-clinical Research Use Only Certificate** is for the export of a non-clinical research use only product, material, or component that is not intended for human use which may be marketed in, and legally exported from the United States under the Federal, Food, Drug and Cosemetic Act. Certificate requests should include the information listed in **Supplementary Information - Non-clinical Research Use Only Certificate Requests** *(PDF, Text)*. Please ensure that the Exporter's Certification Statement is signed by a responsible official of the exporting firm and is enclosed with the certificate request.

- Please type certificate requests or print clearly.

- In most cases, one product will be listed per certificate. However, products that were approved under the same PLA / BLA, NDA, PMA or 510(k) application or similar unapproved products may be listed on the same certificate based on the available space for a one page certificate. Certificate requests for listing multiple products will be evaluated on a case-by-case basis.

- If information is omitted in the application by the requester or if clarification is needed on the supplied information, the requester will be contacted via telephone or FAX. If the requester does not provide the necessary information within 48 hours, the request for certificates will be returned and will need to be resubmitted for FDA review.

- Questions may be directed to the Import/Export Team at 301-827-6201.

- Send the request and supporting documents to:

  Food and Drug Administration
  Center for Biologics Evaluation and Research
  Office of Compliance and Biologics Quality
  Division of Case Management
  1401 Rockville Pike, Attention: HFM-624
  Rockville, MD 20852-1448

  or via FAX at 301-594-0940

- On October 1, 1996, CBER was given the authority to charge $175 for the first two certificates and $85 for any subsequent certificates issued for the same product(s) in response to the same certificate request. Please do not submit a check with your request, as FDA will bill you quarterly for issued certificates.

- You may enclose a completed FEDEX form to expedite the return of Certificates.

Issuance of a "Certificate to Foreign Government", "Certificate of Exportability" or "Certificate of a Pharmaceutical Product" will not preclude regulatory action by FDA, if warranted, against products covered by the Certificate.

A "Certificate to Foreign Government", "Certificate of Exportability" or "Certificate of a Pharmaceutical Product" is issued by FDA solely for export purposes and may not be used for domestic advertising.

INSTRUCTIONS FOR REQUESTS FOR NON-CLINICAL RESEARCH USE ONLY CERTIFICATE

(for CDRH)

1. Complete the "Exporter's Certification Statement" and the "Supplementary Information Sheet." Please ensure that you sign the Exporter's Certification Statement on your firm's letterhead.

2. Using the attached example (**Attachment I**), prepare on plain white 8 ½" x 11" bond paper, the Non-Clinical Research Use Only Certificate (**print margin one inch, top margin two inches, 44 lines per page**). You may also submit this information on a CD or disk using Microsoft Word or compatible software.

3. If more than three products/materials to be included on the Certificate, provide a typed list of products/materials (**please provide complete products/materials description as it appears on the labeling)** on consecutively numbered 8 ½" x 11" sheets of paper (**Attachment J**). Do not submit catalogs or catalog pages.

4. Each request is limited to a total of 100 pages, including the Certificate. If your need exceeds the 100 page limit, you must request additional certificates. For example, if you request a certificate with 9 attachment pages (for a total of 10 pages), you may request up to 1 original and 9 subsequent certificates.

5. Enclose a self-addressed stamped envelope or FEDEX envelope large enough to accommodate the requested Certificate(s).

6. Send the request and supporting documents to:

   Food and Drug Administration
   Center for Devices and Radiological Health
   Office of Compliance
   Attention: HFZ-307
   2094 Gaither Road
   Rockville, MD 20850

7. Clearly mark on the outside of the envelope containing the request as a "Request for Certificates." If you have any questions, please call 240 276-0132 or email *exportcert@cdrh.fda.gov*.

8. CDRH has the authority to charge $175 for the first certificate and $15 for any subsequent certificates issued for the same product(s) in response to the same request. **Please do not submit a check with your request, as FDA bill quarterly.**

9. If information is omitted in the application by the requester or if clarification is needed on the supplied information, the requester will be contacted via email, telephone, or FAX. If the requester does not provide the necessary information within 48 hours, the request for certificates will be returned and will need to be resubmitted for FDA review.

10. Issuance of a "Certificate to Foreign Government" or "Certificate of Exportability" will not preclude regulatory action by FDA, if warranted, against products covered by the Certificate.

11. A "Certificate to Foreign Government" or "Certificate of Exportability" is issued by FDA solely for export purposes and may not be used for domestic advertising.

Certificate No.

NON-CLINICAL USE RESEARCH ONLY CERTIFICATE

In order to allow the importation of United States products into foreign countries, the U.S. Food and Drug Administration (FDA) certifies the following information concerning the product(s), materials(s), or component(s) to be exported listed below:

NAME OF PRODUCT(S)/MATERIAL(S) (GENERIC NAME IF APPLICABLE)

NAME OF MANUFACTURER, ADDRESS

The product(s), material(s), or component(s) described above and the plant(s) where it is produced are subject to the jurisdiction of the FDA under the Federal, Drug, and Cosmetic Act (FD&C Act). FDA does not routinely inspect non-clinical research use product(s), material(s), or component(s), since these products are not subject to current good manufacturing practice requirements.

FDA does certify that the above product(s), material(s), or component(s) may be marketed in, and legally exported from, the United States of America at this time.
