

HRSA Patient Navigator Demonstration Program Framework

Evaluation Questions	Information Required	Baseline Indicators/ Benchmarks	Data Sources	Data Collection Methods	Data Analysis Methods
1. Who is the target population of navigation?	<ul style="list-style-type: none"> ◆ Age ◆ Gender ◆ Race ◆ Ethnicity ◆ Primary language ◆ Education ◆ Income (mean, median) ◆ Insurance 		Site-specific to each grantee. The grantee decides their audience and data sources.	Site Specific	Descriptive statistics
2. What are the socio-demographic characteristics of navigated patients? Do they match the demographics of the target population?	<u>Patient-level:</u> <ul style="list-style-type: none"> ◆ Age ◆ Gender ◆ Ethnicity Race ◆ Primary language ◆ Education level ◆ HH Income ◆ HH size ◆ Insurance ◆ Pharmacy Assistance 	60% navigated patients are from target population	Patient intake form	Patient intake form	Descriptive statistics
3. What is the incidence and prevalence of diseases (covered by Grantees) in target population (catchment area population)?	<ul style="list-style-type: none"> ◆ Disease types ◆ Disease incidence ◆ Disease prevalence ◆ Disease screening rates in catchment area 			Site Specific	Descriptive statistics
4. What conditions are targeted by the patient navigation program?	<ul style="list-style-type: none"> ◆ Diseases or condition type(s) ◆ Abnormal screens ◆ Disease stage ◆ Point of entry (Point along care continuum where patient is navigated) 		Site specific – the site determines this based on need Medical records reviewed by site	Medical record review by PN	Descriptive statistics
5. What barriers to quality health care are experienced by navigated patients?	Structural Barriers (patient) & System Barriers: <ul style="list-style-type: none"> ◆ Transportation ◆ Housing ◆ Social/Practical Support ◆ Language/Interpreter 		Patient intake form	Patient intake form	Descriptive statistics

HRSA Patient Navigator Demonstration Program Framework

Evaluation Questions	Information Required	Baseline Indicators/ Benchmarks	Data Sources	Data Collection Methods	Data Analysis Methods
	<ul style="list-style-type: none"> ◆ Literacy ◆ Childcare Issues ◆ Adult Care ◆ Location of Health Care Facility ◆ Insurance, uninsured, underinsured, high co-pays ◆ Financial problems ◆ Employment Issues ◆ Communication concerns with medical personnel ◆ Fear ◆ Medical and mental health comorbidity ◆ Patient disability ◆ Out of town/country ◆ Perceptions/beliefs about tests/treatment ◆ System problems with scheduling care ◆ Attitudes towards providers No Barrier Identified ◆ System proactive navigation needed ◆ Other <p>Community barriers</p>				
6. What are socio-demographic of PNs?	<ul style="list-style-type: none"> ◆ Age ◆ Gender ◆ Race ◆ Ethnicity ◆ Education 		PN	PN	Descriptive statistics
7. How are PNs recruited?	<ul style="list-style-type: none"> ◆ PN job postings/advertisements ◆ # PN applicant interviews 			Quarterly Report	
8. What are work characteristics and qualifications of hired PNs?	<ul style="list-style-type: none"> ◆ # PNs hired ◆ Type (lay/professional) 	100% PN jobs are filled by end of Year 1	Grantee director/coordi	Quarterly Report	Descriptive statistics
