Coalition Survey Pretest

This survey explores your understanding and views about bone health as well as your perceptions about the needs of your team in the coming year. You will note that we use the term "team" to address your site's coalition throughout the survey. Please read each question carefully and provide your honest feedback. The survey results will be used by the Office on Women's Health and Hager Sharp to tailor technical and training services to the needs of you and your team through the duration of the pilot project. We look forward to your feedback and suggestions. The survey should take between 15-20 minutes to complete. Thank you in advance for your time.
