Update

Random Digit Dialing (RDD) surveys were completed in October 2008 for the following FMR areas: New Orleans—Metairie—Kenner, LA MSA, Hattiesburg, MS MSA, and Pearl River County, MS. These RDDs were begun in August 2008 but were interrupted by Hurricane Ike and so not completed

until October 2008. The RDD survey for Hattiesburg, MS indicated a slight decline in rents in that metropolitan area, but the difference in rents was within the confidence interval of the survey result so no change in the FMR is indicated. Survey results for Pearl River show an increase in market rents over the published FY2009 FMR.

New Orleans was surveyed at the request of program sponsors in response to evidence that the New Orleans rental market and the Section 8 program were being adversely affected by the FMR bonus applied to the New Orleans FMR

in FY2006 to facilitate program operations after hurricanes Katrina and Rita. The New Orleans survey indicates that current market rents in New Orleans are lower than the FY2009 FMR published on September 29, 2008. This revision to the New Orleans FMR effectively eliminates the Katrina-related bonus in New Orleans. Because the rental market appears to be working again in New Orleans, return of the New Orleans FMR to its market level is warranted.

The FMR for the affected areas are updated as follows:

2009 Fair market rent	Number of bedrooms				
	0 BR \$	1 BR \$	2 BR \$	3 BR \$	4 BR \$
New Orleans—Metairie—Kenner, LA MSA	733	811	949	1219	1259
Pearl River, MS	539	540	647	790	1113

SUPPLEMENTARY INFORMATION:

I. Abstract

DOI is below parity with the Relevant Civilian Labor Force representation for many mission critical occupations. The Department's Strategic Human Capital management Plan identifies the job skills that will be needed in its current and future workforce. The job skills it will need are dispersed throughout its eight bureaus and include, among others, making visitors welcome to various facilities, such as parks and refuges, processing permits for a wide variety of uses of the public lands, collecting royalties for minerals extracted from the public lands, rounding-up and adopting-out wild horses and burros found in the west, protecting archeological and cultural resources of the public lands, and enforcing criminal laws of the United States. As a result of this broad spectrum of duties and services, the Department touches the lives of most Americans.

The people who deal with the Department bring with them a wide variety of backgrounds, cultures, and experiences. A diverse workforce enables the Department to provide a measure of understanding to its customers by relating to the diverse background of those customers. By including employees of all backgrounds, all DOI employees gain a measure of knowledge, background, experience, and comfort in serving all of the Department's customers.

In order to determine if there are barriers in our recruitment and selection processes, DOI must track the demographic groups that apply for its jobs. There is no other statistically valid method to make these determinations, and no source of this information other than directly from applicants. The data collected is not provided to selecting officials and plays no part in the merit staffing or the selection processes. The data collected will be used in summary form to determine trends covering the demographic make-up of applicant pools and job selections within a given occupation or organizational group. The records of those applicants not selected are destroyed in accordance with DOI's records management procedures.
