				<u> </u>

Each of the text boxes on this screen is a rollover object. Display the information shown below when the mouse is rolled over the rollover object.

#### Cost

No matter which NFIRS 5.0 implementation and configuration option you choose (e.g., Federal Client Tool or third-party software), there is a cost involved in implementing the system.

#### Time

It takes time to plan for and implement NFIRS 5.0. It takes time to train people to use the system. It takes time to enter data into the system. It takes time to transmit transaction files up the chain of command to the national database.

#### **Difficulty**

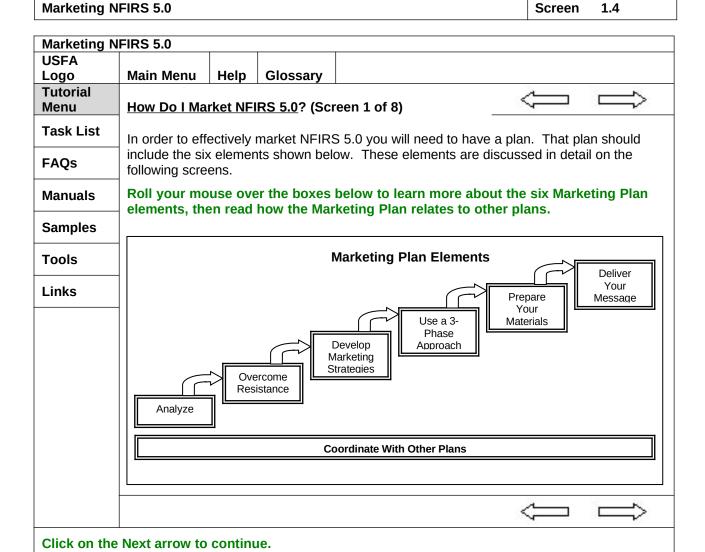

NFIRS 5.0 is a complex piece of software and the NFIRS program manager will need assistance from computer professionals to install, administer, and maintain the system. NFIRS 5.0 is a new piece of software and many people find it hard to learn to use new software.

#### Training

Everyone in the chain of command will need to be trained in the use of the tool (e.g., system administrators, administrative staff members, management staff members, data entry operators). Training takes time and costs money.

#### Need

Some organizations already record data using paper forms or other software tools and they will resist changing to NFIRS 5.0. Other organizations just don't see a need for collecting the type of data collected by NFIRS 5.0.

## **Graphic Notes:**

Develop graphic to represent the six Marketing Plan elements with boxes labeled Analyze, Overcome Resistance, Develop Marketing Strategies, Use a 3-Phase Approach, Prepare Your Materials, and Deliver Your Message with arrows between the boxes. Add box labeled Coordinate With Other Plans below other boxes extending across the entire flow of the 6 boxes above.

## **Programming Notes:**

## **Analyze**

Analyze your organization's current status.

## **Overcome Resistance**

Determine how you will overcome resistance or objections to NFIRS 5.0.

#### **Develop Marketing Strategies**

Identify the different target audiences in your organization and develop a marketing approach for each one.

## Marketing NFIRS 5.0 Screen 1.4a

## Use a 3-Phase Approach

Use a three-phase approach with each target audience: Create Awareness, Gain Acceptance, and Take Action.

## **Prepare Your Materials**

Prepare a variety of marketing materials.

## **Deliver Your Message**

Deliver your marketing message to groups or individuals.

## **Coordinate With Other Plans**

It is critical that your Marketing Plan be developed in conjunction with the other plans you are developing for NFIRS 5.0 implementation:

- Management Plan
- Training Plan
- Support Plan
- Data Use Plan

Marketing NFIRS 5.0	Screen	1.5
·		

USFA	FIRS 5.0								
Logo	Main Menu	Help	Glossary						
Tutorial Menu	How Do I Ma	rket NFI	RS 5.0? (Sc	reen 2 of 8)					
Task List	Analyze								
FAQs	Before you begin to market NFIRS 5.0, you should find out as much as you can about the current status of your organization.								
Manuals	Your research will help you plan effectively, answer questions, and overcome objections.								
Samples	You may want to conduct research in the following areas:  Contact information								
Tools	Computer resources								
Links	Internet acce	ess	<u> </u>						
	Software alre	eady be	ing used						
	Potential obj	ections							
	Roll your mo	use ove	er the boxes	above to learn more about these research areas.					

Each text box on this screen is a rollover object. Display the information shown below when the mouse is rolled over the rollover object:

#### **Contact information**

Obtain and input contact data into a county or department contact database so you have contact information for all current or potential NFIRS participants.

#### Computer resources

Before you begin to market NFIRS 5.0, you need to know what computer resources your organization has or is planning to acquire in the near future. NFIRS 5.0 will be easier to market if the computer resources are already in place. If computer resources are not available, you will need to develop a plan to acquire and install the necessary computers and software.

#### **Internet access**

Internet access makes it easy to send transaction files up the chain of command. It also makes communication up and down the chain of command easier. If Internet access is not widely available in your organization and there is no plan to expand Internet access, you must plan accordingly. You must also be prepared to explain how NFIRS 5.0 can be implemented in your organization without access to the Internet at all levels.

#### Software already being used

Before you make any decisions about how you will implement NFIRS 5.0 in your organization, you need to know what other software (e.g., fire administration, EMS, fire incident reporting) is already in use. If an NFIRS 5.0 certified third-party tool is being used by some parts of your organization, your marketing job will be more successful if you adopt the same tool for the entire organization if possible.

Marketing NFIRS 5.0	Screen	1.5a
---------------------	--------	------

## **Potential objections**

You should contact individuals throughout your organization to discuss hardware, software, and fire incident reporting. You are likely to uncover potential objections to the system. You may uncover objections to software in general or specifically to NFIRS 5.0. Cost may be a major issue. It's better to know in advance what objections people may have to NFIRS 5.0. If you prepare in advance, you can respond to those objections when you deliver your NFIRS 5.0 marketing presentation.

Marketing NFIRS 5.0 Screen 1.6

Task List	Overcome Re	esistano	е					
FAQs	_	Once you have identified potential areas of resistance or objections, determine how you can overcome them.						
Manuals	Your plans might include the following actions:							
Samples	Presenting compelling information							
Tools	Providing "fi	eebies'						
Links	Obtaining gr	ant moi	ney					
	Roll your mo	use ove	r the boxes	above to learn more about these-research areas.				
				$\iff$				
Click on the	Next arrow to	continu	ie.					

Each text box on this screen is a rollover object. Display the information shown below when the mouse is rolled over the rollover object:

## Presenting compelling information

When marketing NFIRS 5.0 you will want to include quotes from case studies describing the benefits of NFIRS 5.0. You should select case studies that relate to your organization as closely as possible and have them readily available whenever you present information about NFIRS 5.0.

## Providing "freebies"

Some organizations have marketed NFIRS 5.0 by providing free computers or other equipment to organizations in exchange for a 2- or 3-year commitment to NFIRS 5.0. Others take advantage of bulk purchasing arrangements to cut the cost of equipment and software for subordinate organizations. You should look for any incentive you can find to encourage acceptance and implementation of NFIRS 5.0.

#### Obtaining grant money

A number of potential grant sources exist and these should be investigated early in the planning stage. You may be able to get your NFIRS 5.0 budget accepted if you have access to grant money to help defray part of the cost of the system.

Marketing NFIRS 5.0	Screen	1.7

Marketing N	IFIRS 5.0					
USFA Logo	Main Menu	Help	Glossary

Task List	Develop Mari	keting S	trategies			
FAQs	NFIRS 5.0 mu or audiences i			lifferent way to each of the separate and distinct groups		
Manuals	Each group has different needs, will raise different objections, and should be approached					
Samples	with a different marketing message. The groups you need to plan to market NFIRS 5.0 to are:					
Tools	Decisionmakers					
Links	Large counties and large fire departments					
	Small counties and fire departments					
	Roll your mouse over the boxes above to learn more about these groups.					
				$\Leftrightarrow$		
Click on the	Next arrow to	continu	ie.			

Each text box on this screen is a rollover object. Display the information shown below when the mouse is rolled over the rollover object:

#### **Decisionmakers**

The decisionmakers are the individuals in your organization who hold the purse strings. They are the ones who must see enough benefit from NFIRS 5.0 to fund it. You might approach them with a sample annual report from a State using NFIRS 5.0 so they can clearly see the quality and quantity of the data collected. You might also describe how NFIRS 5.0 has been used to respond to the media and for community education programs.

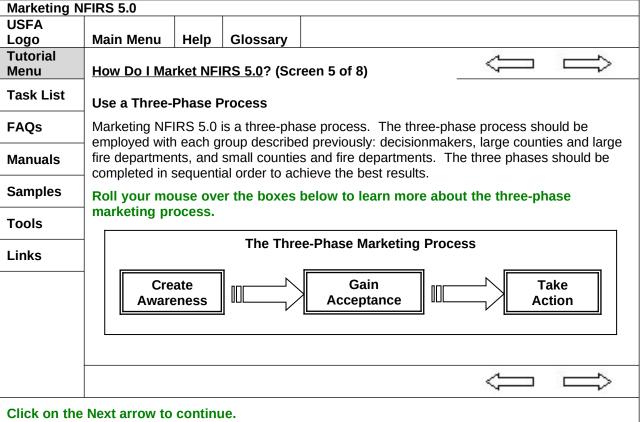

## Large counties and large fire departments

Large counties and large fire departments may already have computer systems and may already be collecting data. They may need to be sold on the benefits of NFIRS over an existing system. You might approach them with a discussion of NFIRS data collection and data consistency and explain how these features will help them deal with budget justification, media inquiries, and community education programs.

## Small counties and small fire departments

Small counties and small fire departments may feel that NFIRS 5.0 is too technical, too complicated, or too difficult for them to accept. You may need to stress that NFIRS 5.0 runs in a Windows environment and is easier to learn and use than previous versions. In addition, small organizations frequently need to collect data about the participation of personnel and the use of equipment at every fire incident. You might approach them with a demonstration of the Personnel module so they can see the value of the information it collects for them.

Marketing NFIRS 5.0	Screen	1.8

#### **Graphic Notes:**

Develop graphic to represent the three-phase marketing process with boxes labeled Create Awareness, Gain Acceptance, and Take Action with arrows between the boxes.

## **Programming Notes:**

Each box in this graphic is a rollover object. Display the information shown below when the mouse is rolled over the rollover object:

#### **Create Awareness**

The first step in the marketing of NFIRS 5.0 is the education of the people in your organization about NFIRS 5.0. They need to know what it is and what it does. They may have had experience with previous versions of NFIRS or they may have heard negative things about it. Your awareness program should stress the positive aspects and benefits of the current system.

#### **Gain Acceptance**

As you build awareness of NFIRS 5.0 you will encounter objections to implementing it. In selling the system you must overcome those objections and gain acceptance of the system. The people in your organization will need to be persuaded that the time, money, and effort involved will be worthwhile. You will need make sure that system users at all levels know how they will benefit from NFIRS 5.0.

## **Take Action**

After you have created awareness and gained acceptance of the system, the only way the system can be implemented is through direct action. That action may be:

- The entry of incident data into the system.
- The passage of a budget to fund implementation of the system.
- The installation and configuration of the hardware and software necessary to run the system.

## **Analyze Your Organization's Current Status**

- □ Do an upfront analysis of your organization (e.g., State, county, or department) to help you market NFIRS 5.0 effectively.
  - Does your organization currently have a computer system?
  - □ Does that system meet the NFIRS 5.0 minimum requirements? (Refer to the NFIRS 5.0 Design Documentation, January 2001 in the Manuals section of the Toolkit.)
  - Does your organization's computer system have Internet access at the present time?
    - ☐ If you don't currently have Internet access, is Internet access planned for the future? When?
    - □ What will it take to implement NFIRS 5.0 in your organization?
      - What computer resources are needed?
      - □ What financial resources are needed?
      - What personnel resources are needed?
- Do an upfront analysis of the subordinate organizations to which you will need to "sell" the concept of NFIRS. (NOTE: If you are a State coordinator, you need to analyze the counties and departments. If you are a county or department coordinator, you need to analyze the fire stations within your county or department.)
- Develop a county or department contact database so that you have contact information for all potential NFIRS participating units. (Refer to the <u>Sample Contact Database</u> in the Samples section of the Toolkit.) The database should give you the capability to:
  - ☐ Track current and potential participating units (e.g., counties, departments, firehouses).
  - ☐ Track points of contact at participating units (e.g., names, street addresses, email addresses, phone numbers, FAX numbers).
  - ☐ Track information about participating units (e.g., square mile area protected, population served, number of calls, software used).

#### **Develop a Management Plan**

□ Determine how you will manage NFIRS 5.0 and write a detailed management plan. This includes selecting the hardware and software you will use and how it will be supported. (Refer to the <u>Managing</u> section of the Toolkit for details.)

#### **Back to Top**

## **Marketing NFIRS 5.0**

Screen

2.0d

#### **Develop a Training Plan**

Determine how you will train NFIRS 5.0 users and write a detailed training plan. (Refer to the <u>Training</u> section of the Toolkit for details.)

#### **Back to Top**

#### **Develop a Support Plan**

□ Determine how you will support NFIRS 5.0 and write a detailed support plan. (Refer to the Support section of the Toolkit for details.)

#### **Back to Top**

#### **Develop a Data Use Plan**

■ Determine how you will use NFIRS 5.0 data to benefit your organization and write a detailed data use plan. (Refer to the <u>Using NFIRS Data</u> section of the Toolkit for details.)

#### **Back to Top**

## **Develop Your Marketing Strategies**

## 1. Market NFIRS to Decisionmakers

□ Determine how you will market NFIRS 5.0 to the decision makers in your organization in order to get the system approved and funded.

## **Back to Top**

#### **Create Awareness of NFIRS**

- □ Identify the decisionmakers who need to know about NFIRS in order to approve the system and the budget expenditures necessary to implement the system.
- Create and deliver a general NFIRS 5.0 features and benefits presentation(s). (Refer to <u>Tips for Creating Effective Visuals</u> and <u>Do's and Don'ts of Effective Presentations</u> in the Tools section and the <u>Links to Pages With Information About Designing and Delivering Presentations</u> section of the Links section of the Toolkit.)

- Attend/present NFIRS information at conferences and seminars attended by county and department representatives. (Refer to <u>Do's and Don'ts of Effective Presentations</u> in the Tools section of the Toolkit, the <u>National</u> <u>Fire Incident Reporting System Program Management Course, Student Manual</u> in the Manuals section of the Toolkit, and the <u>Links to Pages With Information About Designing and Delivering Presentations</u> section of the Links section of the Toolkit.)
  - □ Highlight features that impact the decisionmaker's organization.
  - □ Highlight benefits that affect the decisionmaker's organization. Make sure to tell them how they will benefit from NFIRS 5.0. (Refer to <u>Uses of NFIRS</u>: <u>The Many Uses of the National Fire Incident Reporting System</u> in the Manuals section of the Toolkit and the <u>Benefits of NFIRS 5.0 Video Clips 1, 2, and 3</u> in the Samples section of the Toolkit.
  - Provide examples of data collected by NFIRS and how such data have helped other organizations to justify budgets, quantify department activities, track trends, and solve problems. (Refer to <u>Fire in</u> <u>Minnesota</u> in the Links section of the Toolkit.)
  - □ Illustrate your presentation with stories from other organizations detailing how NFIRS 5.0 data have helped them. (Refer to the <u>Case Studies</u> in the Samples section of the Toolkit.)
    - Describe your organization's current use of hardware and software and plans for upgrade and/or acquisition in the future.
    - ☐ Include information on your subordinate organizations' use of hardware and software.
    - □ Describe your organization's current use of the Internet and how that relates to NFIRS implementation.
    - ☐ Include information on your subordinate organizations' use of the Internet and plans for the future relating to the Internet.

#### **Back to Top**

## **Gain Acceptance of NFIRS**

□ Have one-on-one meetings with decisionmakers following the initial presentation. Find out if they have objections to NFIRS 5.0 and uncover their specific objections.

## **Back to Top**

NFIRS budget.

2.	<b>Market NFIRS</b>	to Large	Counties a	ınd/or	Fire De	partments
----	---------------------	----------	------------	--------	---------	-----------

□ Determine how you will market NFIRS 5.0 to the large counties and/or departments in your organization.

#### **Back to Top**

#### **Create Awareness of NFIRS**

- Prepare materials that highlight NFIRS 5.0 features and benefits to large organizations. (Refer to <u>Tips for Creating Effective Presentations</u> in the Tools section of the Toolkit and the <u>Links to Pages With Information About</u> <u>Developing Marketing Materials</u> section in the Links section of the Toolkit.)
  - Audiovisual presentations
  - Brochures
  - Newsletters
  - Web site
- Attend/present NFIRS information at conferences and seminars attended by county and department representatives. (Refer to <a href="Do">Do"s</a> and <a href="Do">Do"ts</a> of <a href="Effective Presentations">Effective Presentations</a> in the Tools section of the Toolkit, the <a href="National Fire Incident Reporting System Program Management Course">National Fire Incident Reporting System Program Management Course</a>, Student <a href="Manual">Manual</a> in the Manuals section of the Toolkit, and the <a href="Links to Pages With Information About Designing and Delivering Presentations">Links</a> section of the Toolkit.)
  - Deliver group presentations.
  - □ Arrange one-on-one meetings.
  - Distribute printed materials.
- □ Identify areas of resistance or objections to NFIRS 5.0.

## **Back to Top**

#### **Gain Acceptance of NFIRS**

☐ Meet individually with large county and/or department representatives to address resistance or objections to NFIRS 5.0.

	exa wh Na To	If them "What's in it for them." Be as specific as you can be. Use amples of how NFIRS data have benefited large organizations enever possible. (Refer to <u>Uses of NFIRS: The Many Uses of the tional Fire Incident Reporting System</u> in the Manuals section of the olkit, the <u>Benefits of NFIRS 5.0 Video Clips 1, 2, and 3</u> in the Samples ection, and the <u>Case Studies</u> in the Samples section of the Toolkit.)
		Data can be used to justify budgets.
		Data can be used to respond to media inquiries.
		Data can be used to plan the location of new facilities.
		Data can be used to assemble public education programs.
		Data can be used to identify trends, both positive and negative.
		Data can be used to justify purchase of new equipment.
		Data can be used to track personnel and apparatus use.
		NFIRS 5.0 is another way to do what they already do in some other way (e.g., they may use paper forms or a different computer application).
		Large metropolitan departments can send representative to biannual NFIRS conference at no cost to the department. Great opportunity to network with other NFIRS coordinators and to get updated NFIRS information and training.
۵		dress specific areas of resistance or objections uncovered while you re building awareness of the system.
		Answer all questions.
		Respond to individual, specific objections with a positive detailed solution.
	De	scribe your management plan for NFIRS.
	De	scribe your training program for NFIRS users.
	De	scribe your support plan for NFIRS users.

Samples			different stra	ategy for large and small					
Tools	organiza		all organiza	tion collect data using NFIRS?					
Links			me cost obj	-					
		Some of my subordinate organizations used previous versions of NFIRS and didn't like it. What can I tell them?							
	Why do I nee strategy for I organization	arge and	I small res sm con lary org exp	Large organizations often have different areas of resistance and objections to NFIRS from those voiced by small organizations. Large organizations may have computers already and may be concerned about training a large number of people in the use of a new system. Small organizations may not have anyone in the organization with experience using a computer and may be concerned with the impact of computer use on the organization.					
	Back to Top								
	Why should organization using NFIRS	collect	data and to e	small department not collecting data may face nexation by a larger department because it has nothing document its value to the community. NFIRS 5.0 ables the small department to collect the data necessary prove its value.					
	Back to Top								
	How can I ov objections?	rercome	cos org dis inc	ere are several responses you can use to overcome st objections. As part of your analysis of your ganization you can decide to provide "freebies" or counted computer hardware and software as an entive and to lower the cost. (Refer to Overcoming jections in the Tools section of the Toolkit for additional ggestions.)
