Voluntary Private Sector Accreditation and Certification Preparedness Program

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice; request for recommendations.

SUMMARY: In the “Implementing the Recommendations of the 9/11 Commission Act of 2007” (the 9/11 Act), Congress authorized the Department of Homeland Security (DHS) to establish a voluntary private sector preparedness accreditation and certification program. This program, now known as “PS-Prep,” will assess whether a private sector entity complies with one or more voluntary preparedness standards adopted by DHS, through a system of accreditation and certification set up by DHS in close coordination with the private sector.

PS-Prep will raise the level of private sector preparedness through a number of means, including (i) Establishing a system for DHS to adopt private sector preparedness standards; (ii) encouraging creation of those standards; (iii) developing a method for a private sector entity to obtain a certification of conformity with a particular DHS-adopted private sector standard, and encouraging such certification; and (iv) making preparedness standards adopted by DHS more widely available.

This Notice discusses essential elements of the program, describes the consultation that has taken place and will take place with the private sector, and seeks additional recommendations in a number of areas, including the private sector preparedness standards that DHS should adopt, both initially and over time.

DATES: *Comment period:* Anyone may submit comments on this guidance at any time, and comments will be considered as they are received. We

would appreciate any recommendations for adoption of currently-existing private sector preparedness standards by January 23, 2009, though, as made clear below, we will accept submissions of private sector preparedness standards for adoption as well as comments on this notice at any time.

Public Meetings: DHS intends to hold two public meetings in Washington, DC to provide a forum for public comment on the subject of private sector preparedness standards, one in January and another in February, 2009. Meeting details and registration information will be published in the **Federal Register** and posted at <http://www.fema.gov/privatesectorpreparedness>.

I. Background

A. Preparedness in the Wake of 9/11

Private-sector preparedness is not a luxury; it is a cost of doing business in the post-9/11 world. It is ignored at a tremendous potential cost in lives, money, and national security.

This conclusion was reached by the National Commission on Terrorist Attacks Upon the United States—the 9/11 Commission—in making a specific finding about private sector preparedness. During the course of its inquiry, the Commission found that the private sector was not prepared for the aftermath of the 9/11 attacks, and that, despite 9/11, the private sector remained largely unprepared at the time of its final report. The 9/11 Commission Report: Final Report of the National Commission on Terrorist Attacks Upon the United States at 398 (2004) (9/11 Commission Report). The 9/11 Commission’s central recommendation in this area was that the Department of Homeland Security (DHS) promote private sector preparedness standards that establish a common set of criteria and terminology for preparedness, disaster management, emergency
