Item 10(a) must include the total state funds (appropriated or from other sources) for need-based (undergraduate and graduate) awards and must at a minimum equal the federal 2009 basic allotment for the 2009-2010 award year. Item 10(b) must include total state funds (appropriated or from other sources) for non-need-based (undergraduate and graduate) awards.
- The total of item 10(a) and (b) includes all state expenditures, (appropriated funds and funds from other sources) for grants and work-study jobs for students projected for the 2009-2010 award year (need-based and non-need-based awards, both to undergraduates and graduates), but does not include the LEAP and SLEAP federal share you anticipate.

For a state to receive the full amount it requests in item 8 for the LEAP Program, the total of item 10 must be at least as large as the sum of: (1) the state's base-year amount, (2) its award year 2009-2010 basic allotment, and (3) the amount of reallocation funds requested (if any).

Section D

Section 415C(b)(8) provides that state LEAP expenditures shall not be less than the average annual aggregate expenditures for the proceeding three award years or the average annual expenditures per full-time equivalent student for such years.

In this section show your state's LEAP expenditures used to match the federal LEAP allotment. Include only those state funds which the state uses to match the federal allotment and which are awarded in accordance with all the LEAP Program statutory and regulatory requirements. Do not include federal funds or other expenditures for state grants that are not considered part of your federal LEAP Program.

- Item 12** Use best available state LEAP figures (directly appropriated state funds only).
- Item 13** Use best available state LEAP figures for the projected (application) award year (directly appropriated state funds only).
- Items 14-16** If information is required for items 14 through 16, enter the total full-time equivalent enrollment of all institutions of higher education in the state that are eligible to participate in the state's LEAP Program.

Section E

This section is designated to enable the Secretary to review and approve your state's criteria for the selection of recipients under the LEAP and SLEAP programs on the basis of substantial financial need as provided by section 415C(b)(4). Use a separate sheet of paper, if you need additional space to explain your answers to the questions in this section or explain in attached printed materials. Mail this along with your Assurance and Signature page to our office.

- Item 17** The methodology used by your state to determine student financial need, if not the Federal Needs Analysis Methodology, must be explained in sufficient detail to allow the Secretary to determine its adequacy. Please attach a copy of all descriptive materials produced by your state regarding your need analysis methodology, including the application used by your students (other than the FAFSA).

If your answer to 17(e) is no, you must provide the reason(s) why the state wishes use a variant "independent student" definition in sufficient detail to allow the Secretary to determine whether its approvable. Also, provide a detailed description of your state's "independent student" definition. You must check "No" for item 17(e) if your state does not allow a financial aid administrator's professional judgement to document a student's independent status.

- Item 18** The criteria used for determining whether a student's need is substantial must be explained in sufficient detail to allow the Secretary to determine their adequacy. The following are examples of how a state may define substantial need:
- A minimum level of relative need as measured by the difference between a student's cost of attendance and the resources available to meet that cost.
 - A measure of a family's ability to pay for a student's educational expenses, such as a maximum expected family contribution.
 - A process of selecting recipients on the basis of a ranking of eligible applicants according to their financial need.

Section F

Section 415C(b)(5) requires that all public and nonprofit institutions in a state must be eligible to participate unless excluded by the state's constitution or a statute before October 1, 1978.

Item 19 SELF-EXPLANATORY.

Item 20 SELF-EXPLANATORY.

Section G

Item 21 Enter the name of the state program(s) that make up the LEAP Program in your state. Also, if participating in SLEAP, enter the name of the state program(s) that make up this component.

Item 22 Enter the maximum grant amount for the program(s) listed in item 21.

Section H

Item 23 Section 415E(f) requires states, for purposes of determining its share of the cost for SLEAP, to consider only those expenditures from nonfederal sources that exceed its total expenditures for need-based grants, scholarships, and work-study assistance for award year 1999-2000.

Item 24 The SLEAP Maintenance-of-Effort (MOE) for the 2009-2010 award year requires that a state's expenditures from non-federal funds for the SLEAP authorized postsecondary activities, in the aggregate or per student, in the 2008-2009 award year must not be less than its expenditures for those same authorized postsecondary activities, in the aggregate or per student, in the 2007-2008 award year.

(a) The data you enter for Item 24(a) must represent your 2007-2008 award year total non-federal expenditures for the three SLEAP authorized postsecondary activities. Further, the data you enter for Item 24(a) of this application must equal the data you provided in Part III, Section A Item 1 on the Performance Report for the 2007-2008 award year. If the data provided on the 2007-2008 Performance Report is incorrect, you must amend that report.

(b) The data you enter for Item 24(b) must represent your reasonable projected 2008-2009 award year total non-federal expenditures for the three SLEAP authorized postsecondary activities.

Compare your state's projected 2008-2009 award year total non-federal expenditures for the three SLEAP authorized postsecondary activities reported in Item 24(b) with your state's final 2007-2008 award year non-federal expenditures for the same SLEAP postsecondary activities reported in Item 24(a). The 2008-2009 award year figures, when finalized must equal or exceed the final data for the 2007-2008 award year for the same three authorized postsecondary activities. If not, you must complete Item 25.

Item 25 If information is required in this item for the SLEAP MOE, enter the total number of students who received assistance for the three SLEAP authorized postsecondary activities for the 2007-2008 award year in Item 25(a) and for the 2008-2009 award year in Item 25(b).

Item 26 The SLEAP Program for the 2009-2010 award year includes three authorized activities to assist states in providing financial assistance to eligible postsecondary students who demonstrate financial need. Under the SLEAP Program for the 2009-2010 award year a state may do the following:

- 1) LEAP Grant Awards Supplement: Supplement its LEAP Program by increasing LEAP Program grant award amounts for students, or by increasing the number of LEAP grant recipients. This grant supplement may consist of federal SLEAP funds or SLEAP matching funds, or both, and is accounted for and reported under SLEAP and not LEAP.
- 2) LEAP Community Service Work-Study Awards Supplement: Supplement its LEAP Program by increasing LEAP Program community service work-study award amounts for students, or by increasing the number of LEAP Program community service work-study recipients. Also, the 20% cap on using Federal LEAP funds for community service work-study awards does not apply to the SLEAP funds spent for this purpose. This community service work-study award supplement may consist of federal SLEAP funds or SLEAP matching funds, or both, and is accounted for and reported under SLEAP and not LEAP.
- 3) Merit and Academic Achievement, or Critical Careers Scholarships: Award scholarships to eligible students for merit and academic achievement, or for critical careers. Scholarships for merit and academic achievement can be awarded to eligible students pursuing any field of study. Critical career scholarships can be awarded to eligible students who desire to enter careers in information technology; mathematics, computer science, or engineering; teaching; or other fields determined by the state to be critical to the state's workforce needs.

That no student or parent shall be required by the state or any institution participating in the state's LEAP or SLEAP programs to pay a fee payable to an entity other than the state for the collection of any data needed to make a determination of a student's eligibility under the state's LEAP and SLEAP programs regardless of whether that data may be used for institutional purposes.

That LEAP and SLEAP recipients are selected on the basis of substantial financial need, determined annually according to criteria established by the state and approved by the Secretary.

That to the extent practicable, state LEAP and SLEAP program funds shall represent the same proportional distribution of the funds awarded to independent students in the LEAP and SLEAP programs as to the funds awarded to all students in the state program or programs of which the state's LEAP and SLEAP programs are a part.
