Estimated Number of Respondents: Consumer surveys: Qualitative testing, 225; Quantitative testing, 1,200; and Institution or Stakeholder surveys: Qualitative survey, 20; Quantitative survey, 250.

General Description of Report: This information collection is authorized pursuant to the: Home Mortgage Act, Section 806 (12 U.S.C. 2804(a)); Community Reinvestment Act, Section 806 (12 U.S.C. 2905); Competitive Equality Banking Act, Section 1204 (12 U.S.C. 3806) (adjustable rate mortgage caps); Expedited Funds Availability Act, Section 609 (12 U.S.C. 4008); Truth in Saving Act, Section 269 (12 U.S.C. 4308); Federal Trade Commission Act, Section 18(f) (15 U.S.C. 57a(f)); Truth in Lending Act, Section 105 (15 U.S.C. 1604); Mortgage Disclosure

Improvement Act, Sections 2501 through 2503 of the Housing and Economic Recovery Act of 2008 (15 U.S.C. 1638(b)(2)) (early disclosures for home refinance loans and home equity loans) Higher Education Opportunity Act of 2008, Section 1021(a) (15 U.S.C. 1638(e)(5)) (private student loan disclosures) Fair Credit Reporting Act, Section 621 (15 U.S.C. 1681s(e)); Equal Credit Opportunity Act, Section 703 (15 U.S.C. 1691b(a)); Electronic Funds Transfer Act, Section 904 (15 U.S.C. 1693b); and Gramm-Leach-Bliley Act, Section 504 (15 U.S.C. 6804). Respondent participation in the survey is voluntary. If the Federal Reserve contracts with an outside firm that retains the respondent identifying data and, pursuant to a contractual agreement, that data cannot be reported to the Federal Reserve, then the respondent identifying data cannot be considered an agency record and would not be subject to disclosure under the Freedom of Information Act (FOIA). However, if there is no contractual agreement between the Federal Reserve and an outside firm regarding the reporting of respondent identifying data, or if the Federal Reserve conducted the survey itself, the information could be considered an agency record subject to subsection (b)(6) of the FOIA. The confidentiality of the information obtained from financial institutions and other stakeholders will be determined on a case-by-case basis when the specific questions to be asked on each particular survey are formulated, but before respondents are contacted. Depending upon the survey questions, confidential treatment could be warranted under subsection (b)(4) of the FOIA. 5 U.S.C. § 552(b)(4) and (6).

Abstract: The FR 1380 is used to gather qualitative and quantitative information directly from consumers (consumer studies), and also to gather qualitative and quantitative information from financial institutions offering consumer financial products and services and from other stakeholders, such as brokers, appraisers, settlement agents, software vendors, and consumer groups (stakeholder studies). This information collection is specifically targeted to the development of consumer regulations. The consumer studies gather information about individual consumers' knowledge of, and attitudes toward, consumer disclosures used by financial institutions in compliance with Federal Reserve regulations. The consumer studies may also enable the Federal Reserve to develop and test consumer education resources. The stakeholder

studies gather information from the institutions offering financial products and services and other third parties regarding products, disclosure, marketing, advertising, and sales practices.

Proposal to approve under OMB delegated authority the implementation of the following report:

Report Title: Microeconomic Survey.

Agency Form Number: FR 3051.

OMB Control Number: 7100-0321.

Frequency: Annually and monthly, as needed.

Reporters: Individuals, households, and financial and non-financial businesses.

Estimated Annual Reporting Hours: Annual, 6,000 hours; Monthly, 18,000 hours.

Estimated Average Hours per

Response: Annual, 30 minutes;

Monthly, 60 minutes.

Estimated Number of Respondents: Annual, 6,000; Monthly, 3,000.

General Description of Report: This information collection is voluntary (12 U.S.C. 225A and 263). Generally, when the survey or study is conducted by an outside firm, names or other such directly identifying characteristics would not be reported to the Federal Reserve. In circumstances where identifying information is provided to the Federal Reserve, such information could possibly be protected from Freedom of Information Act disclosure by FOIA exemptions 4 and 6 (5 U.S.C. 552(b)(4) and (6)).

The Federal Reserve Board's Microeconomic Surveys section in the Division of Research and Statistics is an official statistical unit, as defined under the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2002 (44 U.S.C. 3501). When information is collected by a private contractor under the oversight of that section, there are stringent requirements for protecting the data and respondents may be given a legally binding pledge of confidentiality. The pledge would disallow any use of the data for a non-statistical purpose.¹ When the Federal Reserve collects data directly (that is, without the use of a private data collection company or other such agent), respondents may also be offered such a pledge if the data are intended for a statistical purpose.

Abstract: The Federal Reserve would use this event-driven survey to obtain information specifically tailored to the

¹ "Non-statistical" is defined precisely in CIPSEA. Loosely, an information collection undertaken for a non-statistical purpose would be one intended to support a regulatory action or other action specifically targeted to the entity on which data were collected.

Federal Reserve's supervisory, regulatory, operational, and other responsibilities. The Federal Reserve proposes to conduct the FR 3051 up to 13 times per year (including one survey on an annual basis and another on a monthly basis). The frequency and content of the questions would depend on changing economic, regulatory, or legislative developments.

Board of Governors of the Federal Reserve System, March 24, 2009.

Jennifer J. Johnson,

Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

Notice of Intent To Prepare an Environmental Impact Statement for the Reconfiguration and Expansion of the San Luis I Land Port of Entry

AGENCY: Public Buildings Service, General Services Administration.

ACTION: Notice of intent with request for comments.

SUMMARY: The General Services Administration (GSA) announces its intent to prepare an Environmental Impact Statement (EIS) under the National Environmental Policy Act (NEPA) of 1969 to assess the potential impacts of reconfiguration and expansion of the San Luis I Land Port of Entry (LPOE) in San Luis, Arizona.

The proposed action is for GSA to reconfigure the existing downtown San Luis LPOE and expand it to improve its functionality, capacity, and security. The San Luis I LPOE was built in 1984 and is operated by the U.S. Department of Homeland Security (DHS)/U.S. Customs and Border Protection (CBP). The facility currently handles all traffic modes, including commercial vehicles, buses, privately operated vehicles (POVs), and pedestrians. However, the existing facility is inadequate relative to CBP's security standards and is incapable of adequately handling current and projected traffic volumes. GSA therefore is proposing to reconfigure and expand the existing San Luis I LPOE so that it may continue to serve POV's, buses and pedestrians. GSA is currently constructing San Luis II LPOE that will become the commercial port of entry for Yuma County, which it expects to complete in late 2009 at which time the commercial operations at San Luis I will cease.

GSA proposes to expand the current port by utilizing the vacated commercial space and acquiring approximately one
