INSTRUCTIONS and DEFINITIONS

Broiler-type: Report chicks hatched for placement as commercial broilers for meat production, plus chicks hatched for Broiler-Type hatching egg supply flocks.

Egg-type: Report chicks hatched to supply replacement layers for market egg production, and chicks hatched for Egg-Type hatching egg supply flocks. Include males destroyed.

Eggs in Incubators: Report total eggs in incubators and hatchers on the first of each month, classified between Broiler-Type and Egg-type. Normally all eggs set in incubators in the previous 20 days will remain in incubators/hatchers on the first of the month.

Chicks Hatched: Report total hatched during month, classified between Broiler-Type and Egg-Type. Include all chicks which were destroyed in the total chicks hatched.

Disposition Of Chicks Hatched: Report placements and actual or expected sales of chicks hatched. The total of chicks reported in Items 4a, 4b, and 4c should equal the number of chicks hatched (item 1).

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB number. The valid OMB number is 0535-0004. The time required to complete this information collection is estimated to average 25 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
