Not interested in specific sections

5. If you were interested in specific pages or health topics, please list them below:

[open-ended, insert text box here]

6. What is/are the primary reason(s) you use the data book? (check all that apply)

Advocacy

Work-related use

Personal use

School

To learn about a specific topic

To find reference material for a specific topic

General interest

Other:

7. Please indicate how strongly you agree/disagree with the following statements related to *Women's Health USA 2009*:

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
I find the data book easy to navigate.					
I find the layout of the data book very useful.					
It is most valuable to me to have new information on different "hot" topics in the data book each year.					
I am usually able to find the information I need in the data book.					
Overall, the topics presented in the data book are of interest to me and others in my field.					
It is most valuable to me to have the most recent data available on the same health topics in the data book from year-to-year.					
This data book would be more useful to me if it presented more information on fewer topics.					
This data book is usually the first place I check for statistics on health-related topics.					
This data book helps to fill a gap in easily accessible data on health-related topics affecting women.					

8. What suggestions do you have for improving future versions of *Women's Health USA*?
