### **Triad Invitation:**

Thank you for answering all of my questions. As I mentioned earlier, we are conducting a study on behalf of the CDC to review [home safety/generator safety] information that is being developed. In order to hear people's opinions first-hand, we are conducting informal, small group discussions to be held on [DATES AND TIMES TBD]. The discussion will last about 2 hours and will be both interesting and informative. No one will attempt to sell you anything and no one will call you later as a result of your participation. To reimburse you for any personal expenses, you will receive \$75 at the time of the session. This is an important research effort and we hope that you will be part of it. We can only invite a few individuals to take part, and if it's okay, we would like to audio tape the discussion. Can we schedule your attendance?

### **Closing for Ineligible Participants:**

I'm sorry. You are not eligible to be in this study. There are many possible reasons why people are not eligible for the study. These reasons were decided earlier by the researchers. We value your interest in this research study. Thank you for being willing to help us.
