INSTRUCTIONS

(Monthly Vital Statistics Report)

Births/Deaths/Infant Deaths:

1. Report the number of certificates accepted for filing, received between two dates a month apart, without regard to date of occurrence. Note that this may mean:

- a. Including more than one month's shipment from a local office.
- b. Including prior years events along with this years.

If certificates from a prior data year are received, please total them separately by event and year.

2. Use the same cutoff dates from month to month even though the cutoff date for births may be different from the cutoff date for deaths.

3. Include all certificates for deaths under one year of age in reporting the number of death certificates for infants.

4. Do not include fetal deaths (stillborns) in the counts of births and deaths.

Marriages (or marriage licenses)

5. Include all marriages (or marriage licenses) reported to the state (or county, if applicable) office between the two dates indicated on the front of this form. Include events reported between two dates a month apart, without regard to date of occurrence (or issuance). Use the same cutoff dates from month to month.

Divorces and Annulments

6. Include only decrees of absolute divorce and annulments which are reported to the state office between the two dates indicated on the front of this form. Exclude decrees of separation and other limited decrees. Include events reported between two dates a month apart, without regard to date of occurrence. Use the same cutoff dates from month to month.
