The Building Strong Families Evaluation

Fifteen Month Follow-Up Survey

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection will be entered after clearance. The time required to complete this information collection is estimated to average 45 minutes per respondent, including the time to review instructions, gather the data needed, and complete and review the information collected.

QUESTIONNAIRE FORMAT EXPLANATION

The purpose of this page is to illustrate the layout of questions in this instrument and help the reader to interpret the formatting and instructions, so they can follow the flow of the questions. This format was designed for ease of use by those who will be programming the computer-aided telephone interviewing (CATI) survey instrument. If this questionnaire was administered in a paper and pencil version, the formatting would be changed; however, the skip logic would remain the same.

Line 2: This box indicates if a previously answered question affects whether this question is asked or which part of the question is asked, and if so, the specific responses to the earlier question that trigger this question or a specific part of it.

Question number is displayed in the shaded area.

FS42.2
IF FS42=most of the time (2), some of the time (3), OR none of the time (4)
he if CMALE; she if CFEMALE

Indicates that the question stem should only be asked if question FS42 was answered 2 or 3.

(IF FS42 =2 or 3) When [he/she] is not living with you,

This code tells the programmer or interviewer to insert the name of the focal child.

(W/w)ho does [CHILD] live with?

(My name is [NAME] and I'm calling from Mathematica Policy Research, Inc., a research company in Princeton, New Jersey.) I'm calling you about the Building Strong Families study you joined a year and a half ago.

You may have a received a letter recently to let you know that we would be calling you?

When you joined the study, you and [FATHER NAME/MOTHER NAME] each completed a short questionnaire. At that time, we told you that we would be contacting each of you again to learn how you are doing.

The interview will take about 45 minutes and you will receive \$25 for completing the interview. Everything that you tell me is completely confidential. Because we want to get your opinion, it is important that you answer the questions independently without participation from others. Of course, you can share with others your experiences answering the questions after we have completed the interview.

This interview may be taped so my supervisor can monitor the interview and make sure that the questions are asked correctly.

Is now a good time to start?
