Report of Theft or Loss of Explosives  
ATF F 5400.6

A. JUSTIFICATION

1. Necessity of Information Collection

In response to the heightened level of domestically committed criminal or terrorist acts involving explosives, the Organized Crime Control Act of 1970 added Chapter 40 to Title 18 of the United States Code. Section 842 (k) of Chapter 40 makes it unlawful any person who has knowledge of the theft or loss of any explosive materials from his inventory, to fail to report such theft or loss to ATF or local law enforcement authorities within 24 hours of the discovery of the theft or loss. According to 27 CFR 55.30 (a) Any licensee or permittee who has knowledge of the theft or loss of any explosive materials from his stock shall, within 24 hours of discovery, report the theft or loss by telephoning 1-800-800-3855 (nationwide toll free number) and on ATF F 5400.5, Report of Theft or Loss of Explosives in accordance with the instructions on the form.

2. Needs and Uses

The purpose for the collection of this information is to give ATF notice of the theft or loss of explosive materials, and to furnish ATF with the pertinent facts surrounding such theft or loss. In addition, the information is used to confirm and verify prior notification of this theft or loss of explosive materials. The information will be used by ATF to aid in the administration of laws within its jurisdiction concerning the regulation of explosive materials and other related areas. The information requested on the form is the minimum necessary to enable ATF to initiate a criminal investigation of the incident. As of 1976, the information gathered from these forms has been entered into a computerized national clearinghouse for all such information regarding thefts, losses and recoveries of explosive materials. This program is known as PROJECT SEAR (STOLEN EXPLOSIVES AND RECOVERIES) under the ARSON AND EXPLOSIVES INCIDENT SYSTEM (AEXIS).

3. Use of Information Technology

Currently, the form is received by mail or fax. The form is available on the ATF website to download and print. ATF is currently in the process of making this a fillable form however, the smaller licensees that do not have access would continue to mail or fax the form.

4. Efforts to Identify Duplication

ATF uses a uniform subject classification system for forms to identify duplication and to ensure that any similar information already available cannot be used or modified for use for the purpose of this information collection.

5. Minimizing Burden on Small Businesses

The collection of information has no impact on small businesses.

6. Consequences of Not Conducting or Less Frequent Collection

The consequences of not conducting this information would result in critical information that would not be available for an investigation. 18 U.S.C. 842 (k) makes it unlawful for any person, who has knowledge of the theft or loss explosive materials from his stock, to fail to report such theft or loss within 24 hours of discovery. The penalty for violation of this section is a fine of not more \$1,000 or imprisonment for not more than one year, or both.

7. Special Circumstances

This information will be collected in a manner consistent with the guidelines in 5 CFR 1320.6.

8. Public Comments and Consultations

The ATF industry liaison consulted with the explosives industry during the creation of this form. A 60-day and 30-day Federal Register notice was published in order to solicit comments from the general public. No comments were received.

9. Provision of Payments or Gifts to Respondents

ATF will not provide any payment or gift of any type to respondents.

10. Assurance of Confidentiality

The information on the form is reviewed by ATF officials and kept in a secured location. The computerized national clearinghouse is a secured data base. Confidentiality is not assured.

11. Justification for Sensitive Questions

No questions of a sensitive nature are asked.

12. Estimate of Respondent's Burden

There are 300 respondents associated with this collection. Each respondent will respond one time. It is estimated that it takes 1 hour and 48 minutes to complete the form. This includes the time it takes to accomplish a physical inventory, to identify the stolen or lost explosives by type, date shift code, size, percentage and other particulars relating to the explosives, site and situation. The total annual burden is 540 hours,

13. Estimate of Cost Burden

It is estimated that half of the respondents mail the form and the other half fax the form to ATF. Due to the fact that the postage cost is less than one thousand dollars, number 14 on the 83-I will be reported as 0.

14. Cost to the Federal Government

Cost to the Federal Government is estimated to be \$1200 for printing and distribution to explosives licensees and permittees.

15. Reason for Change in Burden

The number of respondents has increased from 150 to 300. As a result of this increase the burden hours have increased from 270 to 540. This is an agency adjustment due to additional number of respondents.

16. Anticipated Publication Plan and Schedule

The results of this collection will not be published.

17. Display of Expiration Date

ATF does not request approval to not display the expiration date.

18. Exception to the Certification Statement

There are no exceptions to the certification statement.

B. STATISTICAL METHODS

This collection does not employ statistical methods.
