TRAINING AND EMPLOYMENT GUIDANCE LETTER NO.

TO: ALL STATE WORKFORCE AGENCIES
ALL STATE WORKFORCE ADMINISTRATORS
ALL STATE WORKFORCE LIAISONS

FROM: DOUGLAS F. SMALL
Deputy Assistant Secretary

SUBJECT: Workforce Investment Act and Wagner-Peyser Act Performance
Accountability Reporting for the American Recovery and
Reinvestment Act of 2009

1. Purpose. This purpose of this guidance is twofold. First, it provides guidelines for reporting performance accountability information for programs receiving additional funds under the American Recovery and Reinvestment Act of 2009 (Recovery Act). These programs include the Workforce Investment Act (WIA) Adult and Dislocated Worker programs, the WIA Youth program, including summer youth employment, National Emergency Grants, and the Wagner-Peyser Act Employment Service, including the Reemployment Services grants.

Guidance on performance accountability will be issued separately for the following programs receiving resources under the Recovery Act: the Senior Community Service and Employment Program (SCSEP); YouthBuild; Indian and Native American Youth grants; Competitive Grants in High Growth and Emerging Industry Sectors; and Trade Adjustment Assistance.

Second, this guidance also announces changes to the reporting requirements for the Workforce Investment Act Standardized Record Data (WIASRD), which is submitted by states on all individuals served with WIA funds who exit program or One-Stop system services.

3. Background. The Recovery Act is intended to preserve and create jobs, promote the nation’s economic recovery, and assist those most affected by the recession. With the additional workforce funding provided in the Recovery Act, and the increased employment and training services such funding will support, the workforce system will play a vital role in America’s economic recovery by assisting workers who are facing unprecedented challenges to retool their skills and reestablish themselves in viable career pathways.

It is the intent of Congress that Recovery Act funds for employment and training be spent *concurrently* with regular formula funds to greatly increase the capacity of the workforce system to serve workers in need. Recovery Act funding should not be used to replace state or local funding currently dedicated to workforce development and summer jobs. The Employment and Training Administration (ETA) expects states and local areas to fully utilize the additional workforce funding to substantially increase the number

of customers served, provide more in-depth services, as needed, and to substantially increase the number and proportion of those customers who receive training, especially training in emerging and high demand occupations and industries.

If the workforce system is to meet both the letter and the spirit of the law and fulfill its critical role in the U.S. economic recovery, all levels of the workforce system must implement the Recovery Act expeditiously and effectively, with full transparency and accountability at all levels. The Recovery Act contains many provisions stressing transparency in the use of the funding provided by the Act, including the creation of a new website, www.recovery.gov. This emphasis on transparency, along with national interest in the effect of the Recovery Act on our nation's economy, will translate into increased attention to the workforce system's implementation of the Recovery Act. The performance accountability provisions will be an important source of information to ensure transparency and accountability for use of Recovery Act funds.

To that end, this guidance outlines the specific performance accountability provisions related to the Recovery Act for the WIA title IB programs, National Emergency Grants, and Wagner-Peyser Act programs. The reporting requirements are designed to keep the additional reporting burden to a minimum, while ensuring that ETA collects the necessary data to report timely information to stakeholders about the use of the Recovery Act funds. Accountability guidelines for the Recovery Act emphasize data quality, streamlining data collection, and collection of information that demonstrates measurable program outputs and outcomes. Consistent with the law, ETA will make the reported information publicly available on www.recovery.gov.

This guidance addresses performance accountability reporting, which is different from the reporting requirements in Section 1512 of the Recovery Act. Section 1512 sets forth a statutory requirement to make certain information from the grant recipients available on www.recovery.gov 10 days after the end of the calendar quarter, including the number of jobs created and the number of jobs saved as a result of the Recovery Act resources. The workforce system does not currently collect such information and ETA has no plans to collect this information about workforce system participants. ETA will use the information to be collected in supplemental reports (see next section on Performance Reporting Requirements) as a proxy to describe the effect of the Recovery Act funds, using information such as the number of participants served and the number of individuals in training as indicators. There will be separate guidance forthcoming on specific reporting requirements for Recovery Act funds recipients required by Section 1512 of the Recovery Act.

ETA has recognized the need to obtain more robust, “real time” information on program participants and services. Currently, states submit the WIASRD to ETA on an annual basis, and records include information on characteristics, services, and outcomes of individuals who have exited the WIA title IB programs and/or National Emergency Grants. The outcomes are reported about 18 to 24 months after the person exits the programs, depending on the timeframes of the exit as well as the reporting timelines.

For WIA Title IB programs, looking at the Program Year 2007 outcomes, the average length of training for WIA Adults was about 30 weeks and for WIA Dislocated Workers about 40 weeks. In TEGGL 14-08, “Guidance for Implementation of the Workforce Investment Act and Wagner-Peyser Act Funding in the American Recovery and Reinvestment Act of 2009 and State Planning Requirements for Program Year 2009,” there is an increased emphasis on the provision of longer term training services. Due to the anticipated longer stay in the program, combined with the time periods specified in the definitions of the performance outcome measures and the lags in Unemployment Insurance wage records, it is likely that there will be no outcome information available on Recovery Act-funded participants until 2011 at the earliest under the current reporting requirements for WIA and Wagner-Peyser Act programs.

The following sections outline ETA’s solution to obtain more timely information on participant characteristics and services received to determine the effect of Recovery Act resources.

4. Performance Reporting Requirements. The Recovery Act funds are to supplement the existing regularly-funded WIA and Wagner-Peyser Act program resources. Training and Employment Guidance Letter 14-08 elaborates on the importance of integrating the two funding sources to achieve the desired outcomes of the programs, i.e., to increase employment and training services that will assist workers to connect with the labor market. Therefore, for reporting purposes, participants in all programs except WIA Youth, Reemployment Services, and National Emergency Grants (grantees will be notified in the grant award letter if the National Emergency Grant was funded with Recovery Act resources), will be considered as participants in the regular formula programs and must be included in all current performance reporting requirements for the respective programs. Special requirements for the WIA Youth, Reemployment Services, and National Emergency Grants are set forth below in the Supplemental Monthly Reports section.

Current Reports

- ***WIA Title 1B programs and National Emergency Grants***
For WIA programs, including Adult, Dislocated Worker, and Youth

programs, and National Emergency Grants, states will continue to submit required quarterly and annual reports, and include participants whose services are financed with regular WIA formula funds *and/or* Recovery Act funds (see section below on Supplemental Monthly Reports, WIA Youth, for the exception on Recovery Act-funded youth services, and Supplemental Monthly Reports, National Emergency Grants, for the exception on Recovery Act-funded National Emergency Grants).

- States currently submit a Quarterly Report (ETA 9090—OMB Control No. 1205-0420) (submitted 45 days after the end of the calendar quarter) with the following information:
 - Aggregate participant counts by program (WIA Adults, Dislocated Workers, Youth, and National Emergency Grants);
 - Aggregate training counts (for WIA Adults and Dislocated Workers only); and
 - Aggregate counts of outcomes against performance measures (reports on exiters and depending on measure, reports on individuals who exited anywhere from 15 to 22 months prior to the reporting date).
- States also submit a WIA Annual Report (ETA 9091—OMB Control No. 1205-0420) on their performance outcomes (National Emergency Grants participants are not included in this report).
- States also submit an individual record (WIASRD--OMB Control No. 1205-0420) on program exiters that includes individual characteristics/demographics, services received, and outcomes achieved.
- ***Wagner-Peyser Act programs (Employment Service (ES) Grants and Reemployment Services Grants)***

For the Wagner-Peyser Act programs, states will continue to submit required quarterly aggregate reports, and include participants whose services are financed with regular Wagner-Peyser Act formula funds *and/or* Recovery Act funds.

States submit quarterly aggregate reports required under the Labor Exchange Reporting System (ETA 9002 and VETS 200 series—OMB Control No. 1205-0240) 45 days after the end of the calendar quarter, on participant characteristics, services received and exiter outcomes. States will include in these reports all participants whose services are financed with regular Wagner-Peyser Act formula funds and Recovery Act funds for both Employment Service and Reemployment Services grants. No individual participant information is reported to ETA.

Supplemental Monthly Reports

Consistent with the principles of transparency and accountability, ETA recognized the need to collect participant and performance information more frequently than quarterly to inform policymakers and the public about the progress of the Recovery Act's implementation and, coupled with regular formula funds, about the labor market outcomes it leverages for job seekers.

Information currently reported quarterly for WIA programs does not provide any detail on the services accessed by participants. Additionally, this information is not submitted in time to comply with the requirement to make information available on www.recovery.gov 10 days after the end of the calendar quarter. Similarly, the Wagner-Peyser Act reports are submitted 45 days after the end of the calendar quarter, and by relying on the quarterly reports alone, information about progress would be lagged and would not meet the Recovery Act's statutory time requirement for reporting information about the effects of the Recovery Act.

To record the impact of the Recovery Act resources, more current information on participants and the services received is essential. Therefore, to obtain a more robust look at participants and services provided with the additional Recovery Act resources, ETA has developed new, required supplemental reports. Under these new supplemental reports, states are required to submit information that states already collect; however, states are required to submit the supplemental reports monthly. Again, this information will be used as a proxy for certain data elements required by Section 1512 of the Recovery Act.

For all supplemental reports, data elements are taken from existing reporting requirements, with two exceptions (one for Wagner-Peyser Reemployment Services and one for WIA Youth Recovery Act services). This will keep the reporting burden on states to a minimum.

For the WIA Adults and Dislocated Workers programs, and the Wagner-Peyser Employment Service, states will report counts of people whose services were financed by either the regular formula funds and/or the Recovery Act funds in these supplemental reports.

The specific identification of WIA Adults, Dislocated Workers, and Wagner-Peyser Employment Service individuals served with Recovery Act funds only versus 'regular' formula funds is a challenge since there are no differentiating eligibility requirements specified in the Act. It is further complicated by the fact that Recovery Act funds must be spent concurrently with ongoing funding streams for these programs specified in the Recovery Act. Therefore, because characteristics and eligibility are identical and because services may well be paid for with both regular and Recovery Act

funds it is not possible for states and local service providers to distinguish who is a “Recovery Act” participant in any meaningful way.

Required supplemental monthly reports will contain the following information:

- **For WIA Adults**, states will report aggregate counts of all participants, including those whose services are funded with regular WIA Adult formula funds and Recovery Act funds. States will report aggregate counts on those participants who are low-income, those receiving Temporary Assistance to Needy Families and other public assistance, the number of UI claimants, Veterans, and individuals with disabilities, numbers in training and type of training, and numbers receiving supportive services. Reporting this participant information reflects the Congressional intent about the use of the Recovery Act resources to serve low-income individuals and provide training services and the support necessary to stay in training.
- **For WIA Dislocated Workers**, states will report aggregate counts of all participants, including those whose services are funded with regular WIA Dislocated Worker formula funds and Recovery Act funds. States will report the number of UI claimants, Veterans, and individuals with disabilities, numbers in training and type of training, and numbers receiving supportive services.
- **For National Emergency Grants** funded with Recovery Act resources only, states will report aggregate counts of participants, including the number of UI claimants, Veterans, and individuals with disabilities, numbers in training and type of training, and numbers receiving supportive services.

No new data element collection is proposed for the WIA Adult and Dislocated Worker programs and National Emergency Grants. The data elements contained in the supplemental monthly report are part of the current data collection requirements for the WIA individual record (WIASRD). This information has been reported to ETA on an annual basis on exiters once the individual has exited the program or the One-Stop system. States will now submit an aggregate extract of that information to ETA on participants, on a monthly basis. See Attachment A for the layout of the specific information to be collected for these programs.

- **For WIA Youth**, reporting will be different. States will be required to distinguish youth served with Recovery Act funds from youth served with regular WIA funds and report “Recovery Act” youth separately in a supplemental monthly youth report. In this supplemental report,

states will report aggregate counts of all Recovery Act youth participants, including the characteristics of participants, the numbers of participants in summer employment, services received, attainment of a work readiness skill, which is required in the Recovery Act, and completion of summer youth employment.

Three factors in the Recovery Act make it necessary to create a separate reporting mechanism for the WIA Youth portion of the Recovery Act funding:

1. An emphasis on using funds for summer employment (currently not collected in the WIA quarterly or annual report and only collected as an activity for exiters in the WIASRD);
2. A change in eligibility increasing the age limit to 24; and
3. The application of the work readiness performance indicator as the only measure used to assess the effectiveness of Recovery-Act funded summer employment.

All youth served with any Recovery Act funds are to be reported on the supplemental monthly report. If Recovery Act youth are only served between May 1 and September 30 (the “summer” period) and participate in summer employment, the only performance indicator required for these youth is the work readiness indicator. These youth are only reported in the supplemental youth report and not reported in the regular WIA Youth reports (WIASRD, quarterly, or annual reports) regardless of service mix.

If a youth served with Recovery Act funds does not participate in summer employment or is served before May 1 or beyond September 30, he/she would also be included in the regular WIA reports (WIASRD, annual report, quarterly report) and be subject to the full set of WIA Youth measures or youth common measures for those states that have a waiver to report outcomes for common measures only. (States may apply for a waiver that would allow states to use the work readiness indicator as the only indicator of performance for 18 to 24 years old youth who participate in a Recovery-Act funded work experience only beyond the summer months.)

Any youth who is served by both Recovery Act funds and regular WIA Youth funds is required to be reported in this supplemental monthly report and in the regular WIA Youth reports.

See Attachment B for additional details on the information to be collected on WIA Youth Recovery Act services.

- **For the Wagner-Peyser Act Employment Service and Reemployment Services Grants**, states will be required to submit supplemental reports of aggregate counts of all participants whose services are financed with regular Wagner-Peyser Act formula funds *and* Recovery Act funds (i.e., Employment Service and Reemployment Services).

States will report on the number of participants served, number of UI claimants served, number of Veterans served, and the type of services received. This information is currently reported in the existing Wagner-Peyser quarterly report (ETA 9002A).

Collectively, this monthly report will provide a complete picture of Wagner-Peyser Act services (e.g., ETA 9002 report = participants funded by: ES formula grants + supplemental Recovery Act ES + supplemental Recovery Act Reemployment Services). Omitting participants served by any of these funding streams in the ETA 9002 report will constitute an incomplete submission. The sum of three monthly reports during a given quarter should closely approximate the information provided in the quarterly report. (ETA understands that the combination of three monthly reports may contain some additional participants due to a participant receiving services in more than one month.)

One additional layer to the supplemental report will create a distinction between staff-assisted services versus those that are provided virtually (i.e., services self-accessed through the Internet, either in a One-Stop resource room or through any other remote location). Currently, states do report the number of “staff-assisted services” in the ETA 9002 quarterly report, and states may include counts on the number of persons who access services “virtually”. However, the current reporting requirements do not delineate between what modality was used to provide the services. See Attachment C for additional details on the information to be collected for the Wagner-Peyser Act program.

- **For the Wagner-Peyser Reemployment Services Grants**, states will report on the same data elements that are collected for the Wagner-Peyser Act Employment Service report, with one additional data element: *referral to training, including WIA-funded training*. A similar data element is used in the ETA Form 9048 (OMB Control No. 1205-0353) for Worker Profiling and Reemployment Services; however, it is not included in the ETA 9002 report. Since Reemployment Services Grants do not provide for training, this new data element will be crucial to see how often the system refers individuals to those programs that offer training interventions.

For the Reemployment Services Grants, states will identify Recovery Act-funded participants. All UI claimants who were identified for and received Reemployment Services Grants-funded staff-assisted services should be classified as Recovery Act-funded participants. As described in TEGl 14-08, ETA encourages states to provide more in-depth and intensive staff-assisted services to these individuals.

Two factors make it necessary to create a separate report for the Reemployment Services portion of the Recovery Act: (1) The Recovery Act makes a clear distinction between general Wagner-Peyser Act funds and Reemployment Services funds to support targeted services to Unemployment Insurance claimants. Oversight bodies, including Congress, have indicated the need to better understand the impact of the \$250 million dedicated to UI claimants; and (2) the Wagner-Peyser Act Employment Service serves over 14 million individuals each year. If Reemployment Services participants are not reported separately from the regular Wagner-Peyser Act reporting, ETA would not have the ability to analyze and track positive effects of the new Reemployment Services funds. Separate identification and reporting of these participants ensures that ETA can demonstrate accountability for resources expended by these grants.

IMPORTANT NOTE: Reemployment Services participants who are reported in the Reemployment Services monthly Recovery Act Report will also be included in the ES monthly Recovery Act Report (described further in the preceding bullet point).

See Attachment C for additional details on the information to be collected for the Reemployment Services Grants.

5. How Recovery Act Participants will be Identified. For the WIA Adult and Dislocated Worker programs, performance accountability information that reflects both regular formula-funded and Recovery Act-funded participant activities must be reported in the aggregate on the supplemental monthly report. *There is no distinction between these participants.*

However, ETA has modified the WIASRD layout to allow states to indicate which participants did receive services funded in part or in whole by Recovery Act funds. This type of identification will be helpful to identify outcomes achieved by these participants when they have completed the program services.

- For the WIA Adult, Dislocated Worker, and Youth programs, and National Emergency Grants, states will use WIASRD field number 326 to indicate participants who received services financially assisted in part or in whole by the Recovery Act. The one exception is if an individual participates in the Summer Youth Employment only (see below). The Data Reporting and Validation Software (DRVS) will be modified to allow states to identify exiters whose services were funded by the Recovery Act. States must complete WIASRD field 326 for WIA Adult, Dislocated Worker, Youth, and National Emergency Grant

participants as follows:

- Record 1 if the participant received services financially assisted from any other WIA or non-WIA program not listed above [programs in which a participant may have been co-enrolled] that provided the individual with services.
- Record 2 if the participant received services financially assisted in whole or in part by funds from the American Recovery and Reinvestment Act.
- Record 3 if the participant received services financially assisted from any other WIA or non-WIA program not listed above AND received services financially assisted in whole or in part by funds from the Recovery Act.
- Record 0 or leave "blank" if the participant did not receive any services under any of the conditions described above or it is not known.

Individual records for all participants in Recovery Act-funded National Emergency Grants must have WIASRD field 326 completed as well as one of the NEG identifier fields (i.e., 313 (a), (b), or (c)).

- For the WIA Youth Recovery Act-funded activities, states will include on the supplemental, monthly report only participants served with Recovery Act funds. If such youth are only served between May 1 and September 30 (the “summer” period) and participate in summer employment only, they will not be reported in the regular WIA Youth reports (WIASRD, quarterly, or annual reports) regardless of service mix.
- For the Wagner-Peyser Act program, both regular formula and Recovery Act-funded participants (ES and Reemployment Services participants) will be included in the aggregate on the monthly report. There is no distinction between the participants for this program.
- For Reemployment Services Grants, states will report on Recovery Act-funded participants only on the monthly reporting forms. A participant whose services are funded by Recovery Act Reemployment Services Grants is a UI claimant who was identified for and received Reemployment Services Grants-funded staff-assisted services. As described in TEGL 14-08, ETA encourages states to provide more in-depth and intensive staff-assisted services to these individuals.

6. Frequency for Reporting. States will continue to submit the current reports (described in Section 4 above) on a quarterly basis, 45 days after the end of the calendar quarter. States will continue to submit the WIA Annual Report on October 1. States will submit the WIASRD for Program

Year 2008 on October 15; however, there will be a change in future submission of the WIASRD (See Section 10).

States will submit the supplemental Adult and Dislocated Worker programs and National Emergency Grants report, the WIA Youth Recovery Act report, and the Wagner-Peyser Act reports monthly (on the 15th of the month for the previous month), beginning on July 15, for the month of June. The first Recovery Act Youth report also will include any activity for participants served with Recovery Act funds prior to June, since the summer period begins May 1. (Note: If the 15th of the month falls on a weekend, the report will be due the following Monday.)

Monthly reporting provides more timely, “real time” information, and will enable the public to see the results of investments made on a timely basis. Additionally, monthly reporting will afford ETA the ability to analyze the levels of active program participation and gain insight into the activities that states will offer to participants, particularly in the first year of the Recovery Act when there will be fewer outcomes available to show impact. Such information on outcomes will only be available once the individual has exited the program.

Further, the deadline for posting on www.recovery.gov is 10 days after the end of the quarter, e.g., July 10. Under current reporting requirements, ETA would have to post information submitted by the states on May 14, for the quarter ending March 31, 2009, since the next quarter’s report is not due until August 14. By collecting monthly information, ETA will be able to post at least two months’ worth of information within the deadline for timely posting.

7. Performance Outcomes.

WIA Adult and Dislocated Worker Programs. The performance measures for WIA Adult and Dislocated Worker programs and National Emergency Grants will continue to be those measures specified in section 136 of WIA. All participants in the WIA Adult and Dislocated Worker programs and the Recovery Act-funded National Emergency Grants will be included in the regular WIA reports (quarterly report, WIASRD, annual report (National Emergency Grants are not included in the annual report)), and the outcomes for the WIA performance measures will be included in these reports.

Wagner-Peyser Act Program. Similarly, the performance measures for the Wagner-Peyser Act will continue to be those measures specified in TEGL 17-05. All participants in the Wagner-Peyser Act program, including those whose services are funded in part or in whole by regular formula and/or Recovery Act funds will be included in the regular quarterly reports (ETA Form 9002A through E), and the performance outcomes against the Wagner-Peyser performance measures will be included in these reports.

WIA Youth. If youth are only served between May 1 and September 30 (the “summer” period) and participate in summer employment only, the performance indicator required for these youth is the work readiness indicator. These youth will not be reported in the regular WIA Youth reports (WIASRD, quarterly, or annual reports) regardless of service mix.

If a youth served with Recovery Act funds does not participate in summer employment or is served before May 1 or beyond September 30, he/she would also be included in the regular WIA reports and be subject to the full set of WIA Youth measures or youth common measures for those states that have a waiver to report common performance measure outcomes only. For WIA Youth Recovery Act-funded services, the only exception is for youth 22 to 24 years old. Since these youth fall outside of the regular WIA Youth eligibility because of age, they would not be included in the regular WIA Youth reports.

ETA encourages states and/or local areas who serve 22 to 24 years old youth with Recovery Act funds beyond the summer to co-enroll them in a WIA Adult and/or Dislocated Worker program when appropriate. If such youth are co-enrolled in the WIA Adult Program, they would be reported through the WIA Adult performance measures. If such youth are co-enrolled in the WIA Dislocated Worker program, they would be reported through the WIA Dislocated Worker performance measures.

8. Performance Goals. States will continue to report progress against the already established negotiated performance goals for the WIA title IB and Wagner-Peyser Act programs. These funds are meant to supplement the regular formula-funded programs; therefore, separate goals are not necessary. There will not be separate performance goals negotiated for programs that utilize Recovery Act funds, and there will not be separate performance goals for the youth work readiness indicator.

When setting work readiness goals, Local Workforce Investment Areas (LWIAs) should follow the definition for a work readiness skill goal as specified in TEG17-05, Attachment B Definition of Key Terms found at http://wdr.doleta.gov/directives/attach/TEGL17-05_AttachB.pdf. The key part of the definition is the need for LWIAs to determine whether a youth has achieved a measureable increase in work readiness skills. States and/or local areas should establish a methodology for determining work readiness skills upon beginning and completing the summer experience in order to determine whether a measurable increase has occurred. Although LWIAs are not required to use a specific assessment instrument to determine pre- and post-work readiness skills, LWIAs can choose from a variety of assessment tools including worksite supervisor evaluations, work readiness

skill checklists administered by program staff, portfolio assessments, and any other relevant forms of assessing work readiness skills.

In consideration of the customer characteristics, and service mix provided with regular formula funds and Recovery Act funds, states may request renegotiation of established levels of performance. States should review the guidelines set forth in TEG 11-01 and contact the ETA Regional Administrator.

9. Mechanism for Reporting. ETA will create a web-based system for states to enter the current month and program-to-date totals for each report. Information for the monthly reports is to be submitted at www.eta-reports.doleta.gov. States will be assigned a password/PIN to access the web-based reporting system. States will have from the 1st of the month through the 25th of the month to enter/update information for the previous month. Technical assistance will be available to address any questions that states may have.

10. Change in Reporting Requirements for the WIASRD. To obtain more robust, “real time” information on individual characteristics and services and to determine the effect of the Recovery Act resources, states will be required to submit the WIA individual records (WIASRD) on all participants in the WIA title 1B programs, and in National Emergency Grants, on a quarterly basis, beginning with the 3rd quarter of Program Year 2009, which ends on March 31, 2010. The first deadline for the required quarterly submission will be May 15, 2010. This start date gives states sufficient time to adjust their management information systems.

Such an approach aligns with ETA’s proposal to implement a more streamlined and integrated performance reporting system. This participant and performance reporting strategy will provide greater information on levels of program participation, and provide more information about the characteristics of the participants served, and the types of services provided. Through this proposed strategy, more detailed information on individuals will be available while they are participating in the programs than is currently available through the existing quarterly reports.

There is significant value added by obtaining quarterly individual records from state workforce agencies. First, quarterly submissions would provide more timely participant information to respond to the oversight needs of Governors, state and local boards, Congress, Federal stakeholders, and the general public. Current requirements that the WIASRD be submitted annually restrict ETA’s ability to do timely analysis and program assessment. With the change in reporting requirements, ETA will benefit from more timely analysis, and states will also receive a return on their

investment by having access to more regular updates on nationwide participation information as well as employment and training trends. Quarterly individual data will provide a much clearer picture of how the workforce system is responding to changing state and local economic and labor market conditions.

No new data elements will be added to the collection.

11. Action Requested. States are requested to distribute this information to the appropriate state and local staff.

12. Paperwork Reduction Act (PRA) Statement. The annualized public reporting burden for the collection of information described in this TEGL is estimated to average approximately 768 hours per state for the monthly reports and 10,614 hours per state for the quarterly WIASRD including time for gathering and maintaining the data. This TEGL contains two proposed revisions in the collection of information: 1) states will submit more frequent (monthly) reports on data currently collected quarterly or annually, and 2) states will submit WIA individual records more frequently (quarterly) and on participants and exiters.

According to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The Department is planning to submit an Information Collection Request (ICR) to OMB requesting a new OMB Control Number. The Department notes that a Federal agency cannot conduct or sponsor a collection of information unless it is approved by OMB under the PRA, and displays a currently valid OMB control number, and the public is not required to respond to a collection of information unless it displays a currently valid OMB control number (see 44 U.S.C. Section 3507). Also, notwithstanding any other provisions of law, no person shall be subject to penalty for failing to comply with a collection of information if the collection of information does not display a currently valid OMB control number (see 44 U.S.C. Section 3512). The Department will notify states of OMB's decision upon review of the Department's ICR, including any changes that may result from this review process.

13. Inquiries. Questions concerning this guidance should be directed to the appropriate regional office or to the Office of Performance and Technology, at ETAperforms@dol.gov.

Monthly Reporting Requirements for the WIA Youth Recovery Act Services

State grantees will begin reporting on a monthly basis on current activities for the WIA Youth Recovery Act services for the month of June, with the first supplemental report due on July 15. The definitions and specifications for the data elements included in the form (included below) are based on the current WIA performance reporting system. The reporting requirements strive to keep the additional reporting burden for the state and local level to a minimum, while ensuring that states report sufficient information that shows stakeholders the impact of the Recovery Act.

Description of Performance Indicators

1) Work Readiness Attainment Rate

- Defined as the percentage of participants in summer employment who attain a Work Readiness Skill Goal
- Numerator, denominator, and rate are reported
- Participants have until the end of their summer work experience to attain the goal. (All applicable participants should be reported in this measure in the report ending September 30.)
- When setting work readiness goals, Local Workforce Investment Areas (LWIAs) should follow the definition for a work readiness skill goal as specified in
TEGL 17-05, Attachment B Definition of Key Terms found at http://wdr.doleta.gov/directives/attach/TEGL17-05_AttachB.pdf. The key part of the definition is the need for LWIAs to determine whether a youth has achieved a measureable increase in work readiness skills. States and/or local areas should establish a methodology for determining work readiness skills upon beginning and completing the summer experience in order to determine whether a measurable increase has occurred. Although LWIAs are not required to use a specific assessment instrument to determine pre- and post-work readiness skills, LWIAs can choose from a variety of assessment tools including worksite supervisor evaluations, work readiness skill checklists administered by program staff, portfolio assessments, and any other relevant forms of assessing work readiness skills.
- The same instrument(s) must be utilized for post-testing that is used for pre-testing.

2) Summer Employment Completion Rate

- The rate is the number of youth who complete their summer employment activity (numerator) divided by the number of youth who participate in summer employment (denominator).
- Summer employment work experiences should have predetermined start and end dates. (For example, many programs run six or eight week summer employment opportunities.) This indicator is intended to measure the percentage of participants who complete their entire summer work experience without dropping out prior to the planned end date.

Additional Clarification on Reporting

Who should be included on the monthly supplemental Recovery Act reports, and who should be included on the regular WIA Youth reports (WIASRD, annual report, and quarterly report)?

- All youth served with any Recovery Act funds are to be reported on the supplemental, monthly report.
- Any youth who is served by both Recovery Act funds and regular WIA Youth funds is required to be reported in the supplemental monthly report and in the regular WIA Youth reports (WIASRD, annual report, quarterly report).
- Any youth who is only served between May 1 and September 30 (the “summer” period) and participates in summer employment only should only be included on the supplemental monthly report.
- Youth, aged 22 to 24 years old, are an exception. Please see explanation below.

Which performance measures are required for youth in Recovery-Act funded activities and non-Recovery-Act funded activities?

- If youth are only served between May 1 and September 30 (the “summer” period) and participate in summer employment, the only performance indicator required for these youth is the work readiness indicator. These youth would not be reported in the regular WIA Youth reports (WIASRD, quarterly, or annual reports) regardless of service mix.
- If a youth served with Recovery Act funds does not participate in summer employment or is served before May 1 or beyond September 30, he/she would also be included in the regular WIA reports (WIASRD, annual report, quarterly report) and be subject to the full set of WIA Youth measures or youth common measures for those states that have a waiver to report common performance measure outcomes only.
- States may apply for a waiver that would allow states to use the work readiness indicator as the only indicator of performance for 18 to 24 years old youth who participate in a work experience only beyond the summer months.

How should states report on youth, aged 22 to 24 years old, who fall outside the age eligibility for the regular WIA Youth eligibility?

- Since youth, aged 22 to 24 years old, fall outside the age eligibility for the regular WIA Youth eligibility, they should not be included in the regular WIA Youth reports regardless of service mix or the timeframe in which they receive services. ETA encourages states and/or local areas who serve 22 to 24 years old youth beyond the summer period to co-enroll them in a WIA Adult and/or Dislocated Worker program when appropriate. If such youth are co-enrolled in the WIA Adult Program, they would be reported through the WIA Adult performance measures. If such youth are co-enrolled in the WIA Dislocated Worker program, they would be reported through the WIA Dislocated Worker performance measures.

What is the definition of “summer employment” for reporting purposes?

- As defined in TEGL 14-08, “summer employment” may include any set of allowable WIA Youth services that occur during the above referenced summer months as long as it includes a work experience component.

What is the definition of “work experience” for reporting purposes?

- Work experience is defined under WIA regulations at 20 CFR 664.460.
