To the extent possible, biographical information, to include employee name, date(s) of employment, biometric, and other data must be collected and used to verify employment for the processing and adjudication of refugee, asylum, special immigrant visa, and other immigration claims and applications.
- 2.** The information from this collection will be used by the Department of State's Bureaus of Population, Refugees and Migration and Consular Affairs, as well as the Department of Homeland Security to process and adjudicate refugee, asylum, special immigrant visa, and other immigration claims and applications.
