

Partnership Agreement

The EPA Green Power Partnership encourages the voluntary use of green power to reduce the risk of climate change. Partners benefit from the use of green power, while supporting the development of new, renewable energy in the United States.

With this agreement, _____ **joins EPA's Green Power Partnership and commits to:**
(Name of organization or entity)

- Buy green power that meets or exceeds Partnership requirements within six months of signing this Partnership Agreement.
- Report on green power purchasing activities annually.
- Use the Green Power Partner mark in a manner that is consistent with Partner mark use guidelines, available at www.epa.gov/greenpower/partner_corner.

In return, EPA commits to:

- Provide public recognition.
- Provide procurement and communications assistance, as requested by Partner.
- Provide a brief description of the Partner's green power commitment on the Green Power Partnership Web site.

General Terms:

- Either party can terminate this agreement at any time without prior notification or penalties and with no further obligation. EPA will not comment publicly regarding the withdrawal of Partners.
- Partner agrees that the activities it undertakes connected with this voluntary agreement are not intended to provide services to the federal government and that the Partner will not seek compensation from a federal agency.
- Partner agrees that it will not claim or imply that its participation in the Green Power Partnership constitutes EPA approval or endorsement of anything other than its participation in the program and will not make statements or imply that EPA endorses the purchase or sale of the Partner's products and services or the views of the Partner's organization.
- EPA may post information about the Partner's purchase publicly, but will honor all requests to keep the Partner's purchasing data and/or electricity use confidential.
- EPA may use the Partner's logo in selected marketing materials. This added benefit is available only to Partners that have joined the Green Power Partnership and have completed a green power purchase for all their U.S. facilities.
- EPA may periodically revise program benchmark levels or other eligibility requirements.
