Information about Social Security's Online Policies

The privacy of our customers has always been of utmost importance to the Social Security Administration. Our first regulation, published in 1937, was written and published to ensure your privacy. Our concern for your privacy is no different in the electronic age.

- [Details of Social Security's Online Privacy Policy](#)
- [Details of Social Security's Online Security Policy](#)
- [The Privacy Act and The Freedom of Information Act](#)

Paperwork Reduction Act

This information collection meets the clearance requirements of 44 U.S.C. § 3507, as amended by section 2 of the Paperwork Reduction Act of 1995. You do not need to answer these questions unless we display a valid Office of Management and Budget (OMB) control number. The OMB control number for Electronic Records Express is 0960-0753, expiration date ___/___ . We estimate that it will take about 10 minutes to read the instructions, gather the necessary facts, and answer the questions. You may send comments on our time estimate above to: SSA, 6401 Security Blvd, Baltimore, MD 21235-6401. **Send only comments on our time estimate to this address.**

Our Internet Privacy Policy

The privacy of our customers has always been of utmost importance to the Social Security Administration. In fact, our first regulation (see http://www.socialsecurity.gov/OP_Home/cfr20/401/401-0000.htm) was written to ensure your privacy. As a Federal agency, the Privacy Act of 1974 (5 U.S.C. 552a) requires us to protect the information we collect from you. (See <http://www.socialsecurity.gov/privacyact.htm>). **The privacy policy outlined below applies to the data we collect from you over the Internet.**

This is our notice to you about why we collect your personal information, how we use it, and who we share it with; what your choices are for how we use your information; how to get access to your information; and how we protect the information we collect and maintain.

Why We Collect Your Personal Information

- We collect personal data to administer the Social Security program. We do not use the information for any other internal secondary purpose.
- You don't have to give us personal information to visit our website.
- If you do give us your personal information, we treat it very carefully.
- We collect personal information about you (e.g., name, email address, Social Security number or other unique identifier) only if you specifically and knowingly give it to us.

How We Will Use Your Personal Information

- We do not sell the information we collect at this site, or any information we collect.
- The personal information you give us at this site will be used only in connection with the administration of the Social Security Program and for other purposes as described in this document or at the point the information is collected.
- For statistical purposes, we also collect non-personal information about you (see http://www.socialsecurity.gov/web_stats.html). Sometimes we analyze this data to determine customer interest in different parts of our website. The information we share is in a format that does not personally identify anyone.

Who We Will Share Your Personal Information With

We may disclose information you give us (e.g., to Railroad Retirement Board, Department of Veteran's Affairs) if authorized or required by Federal law, such as the Privacy Act or the Social Security Act.

Your Choice About Who We Share Your Personal Information With

If Federal laws (e.g., Privacy Act, Social Security Act) do not allow us to share information, we must get your written authorization before we can discuss your information with anyone else.

Your Access to the Information We Collect About You

You may have access to any of the information we collect about you at this site. We'll correct any errors you may find. If you need to get or fix information about you, see SSA regulation subsections 401.40 and 401.65 (http://www.socialsecurity.gov/OP_Home/cfr20/401/401-0000.htm).

How We Protect the Security of the Information We Collect

- The Internet was originally designed as an open system with no built in security; however, we are required to protect the information we collect and maintain about you and will not use the Internet to do business with you unless we can do so in a secure manner. We will take reasonable precautions to maintain the security, confidentiality and integrity of the information we collect at this site.
- SSA sometimes uses contractors to perform various website and database functions. When we do, we make sure that the agreement language with the contractor ensures the security, confidentiality and integrity of any personal information the contractor may have access to in the course of contract performance.

Our concern about sending personal information via email

- Electronic mail is not secure. Therefore, we suggest that you don't send personal information to us via email. We will only send you general information via email.
- Electronic mail messages that meet the definition of records in the Federal Records Act (44 U.S.C. 3101 et seq.) are covered under the same disposition schedule as all other Federal records. This means that emails you send us will be preserved and maintained for varying periods of time if those emails meet the definition of Federal records. Electronic messages that are not records are deleted when no longer needed.

Our use of "cookies" and how it affects your visit to our website

- What is a "cookie"? A cookie is a small piece of text that is sent to your computer along with a webpage when you visit a website. Your computer will give the information in the cookie only to the computer that sent it, and no other website can request it. There are three types of cookies--persistent, third party, and session. We never used persistent or third party cookies, but sometimes we use session cookies.
- We use session cookies only in some places where you can transact business. We store the cookie on your computer only during your visit, and we'll tell you in advance when we do. The session cookie keeps you from losing information you've entered for a business transaction with us if, during your visit, you leave our website and return.
- Once you turn off your computer or stop using the Internet, the cookie is erased.

If you visit other websites

Our website contains links to international agencies, private organizations, and some commercial entities. These websites are not within our control and may not follow the same privacy, security or accessibility policies. Once you link to another site you are subject to the policies of that site. However, all Federal websites are subject to the same Federal privacy, security or accessibility mandates as ours.

Details of Social Security's Online Security Policy

The screenshot shows a web browser window displaying the Social Security Online Business Services Online page. The page has a red header with the text "Social Security Online" and "Business Services Online". Below the header is a navigation bar with links for "Home", "Questions?", and "Contact Us", and a search box with a "GO" button. The main content area features the Social Security Administration logo and the title "BSO Security Policy". The text explains that the Internet is an open system and there is no absolute guarantee of security. It lists three safeguards: encryption, SSL support, and no sharing of information with third parties. A phone number (1-888-772-2970) is provided for users who are not comfortable with the risks. The footer includes the USA.gov logo, links for "Privacy Policy", "Website Policies & Other Important Information", and "Site Map", and a note that the page was last reviewed or modified on Wednesday, Apr 01, 2009. A "Need Larger Text?" link is also present. The browser's address bar shows "Internet".

 **BSO Security Policy**

Details of SSA's Security Policy

The Internet is an open system and there is no absolute guarantee that the personal information you enter to request verification will not be intercepted by others and decrypted. Although this possibility is remote, it does exist. We have included the safeguards described below to reduce the risks:

- SSA is taking all reasonable and appropriate measures, including encryption, to ensure that personal information is disclosed only to you.
- So your Internet communications can remain confidential, you must use a Web browser which supports the Secure Sockets Layer (SSL) security protocol. Your Web browser probably already supports SSL.
- Social Security will not give, sell or transfer any personal information to a third party.

If you are not comfortable with these risks, please call **1-888-772-2970** to speak to a specially trained technician about your concerns. For TDD/TTY call 1-800-325-0778.

The Privacy Act and The Freedom of Information Act

The Privacy Act

The Privacy Act of 1974, as amended at 5 U.S.C. 552a, protects records that can be retrieved from a system of records by personal identifiers such as a name, social security number, or other identifying number or symbol. (A system of records is any grouping of information about an individual under the control of a Federal agency from which information is retrievable by personal identifiers).

An individual is entitled to access to his or her records and to request correction of these records by stating the reasons for such actions with supporting justification showing how the record is untimely, incomplete, inaccurate or irrelevant. The Privacy Act prohibits disclosure of these records without written individual consent unless one of the twelve disclosure exceptions enumerated in the Act applies. These records are held in Privacy Act systems of records. A notice of any such system is published in the Federal Register. These notices identify the legal authority for collecting and storing the records, individuals about whom records will be collected, what kinds of information will be collected, and how the records will be used (See <http://www.socialsecurity.gov/foia/bluebook/bluebook.htm>).

The Privacy Act binds only Federal Executive Branch agencies, and covers only a system of records in the possession and control of Federal agencies. Inquiries concerning the Privacy Act should be directed to (410) 965-1727.

The Freedom of Information Act

The Freedom of Information Act (FOIA), as amended at 5 U.S.C.552, is a disclosure statute that requires Federal Executive Branch agencies to make records available to the public.

The intent of the FOIA is to prevent agencies from having "secret law" and to make the government accountable to the public for its actions. FOIA requires agencies to publish in the Federal Register statements of its organizations, functions, rules, procedures, general policy, and any changes, and how to get information. In addition, agencies must index and make available for public inspection and copying statements of policy, manuals and instructions, and final opinions and orders in cases, as well as the indexes.

FOIA applies to all records created or received by the agency and in its possession or under its control. Agencies must make records available to the public on request, unless they fall within one of the nine statutory exemptions. (See http://www.socialsecurity.gov/foia/html/foia_guide.htm).

Home Screen

The ERE Home page serves as a “landing” page, which includes links to all of the functions available in this application. The function links on this page are dynamically displayed based on user roles and services the user has been registered to access. The “Payment Request Services” section has been added to support the new fiscal payment processing functionality.

As an enhancement, an underline has been added to the “Frequently Asked Questions” and the “User Instructions” in the blue header bar to show that they are actually links and not just text. “User Instructions” and “FAQ’s” links have also been added to the grey section on the left side of the page.

If the user logged in has an administrator type role, they can create ERE accounts for individuals and select the functions the individuals are authorized to use by selecting the “Account Maintenance” link in the grey section on the left side of the page.

Note: This Home page view is that of a user with an “Administrator” role, who by default has access to all functions.

Access Electronic Requests Screen

DDS sites can send evidence and consultative exam requests to ERE registered providers electronically via the ERE website. The Access Electronic Requests screen lists all of a provider's open evidence and payment requests that are waiting for action by the provider.

To support enhancements and fiscal payment processing, the following changes have been made to this screen:

- Display of names in the list has been changed from *First Name Last Name* to *Last Name, First Name*
- Appt Time, Location, and Payment columns have been added
- "Over 90 Days" and "Open Payments" buttons have been added to allow additional filtering options of what requests are displayed in the list

Prepare Payment Request Screens

As part of the new fiscal payment processing functionality, "Billing Admin" staff will be given the ability to prepare payment requests for evidence and CE providers. The providers will then be able to review and submit these payment requests to the DDS. The following screens are all new and will be shown when the Billing Admin is preparing a payment request for a non-electronic request, which means they will have to enter the DDS request information and they will not be presented with a payment data entry screen.

Note: If the Billing Admin was preparing a payment request for an electronic request, they would access the request from the provider's Electronic Requests lists.

Review / Submit Prepared Requests

Review Prepared Requests

This page shows everything that has been prepared for you by your staff. None of these items have been or will be submitted to the requesting office until you review and explicitly submit each one. Select the Review link next to each payment request to review the report's details and take action upon it.

You may select the heading of each column to sort the displayed information by that column in ascending and descending order.

These items will be removed from this list once you have successfully submitted it or 30 days from the date of preparation, regardless of whether you have taken action on it.

Response to Non-Electronic Medical Evidence Request Screen

As an enhancement to allow evidence providers to select a doc type for their response to a non-electronic request, a drop down box has been added to the DDS request information screen, which will include specific doc type codes.
