Definition of Action Classes

No revision required

An excellent plan: no revision is required, but minor changes to the project plan may be suggested.

Minor revision required

The project plan is feasible as written, and requires only minor clarification or revision to increase quality to a higher level.

Moderate revision required

The project plan is basically feasible, but requires changes or revision to the work on one or more objectives, perhaps involving alteration of the experimental approaches, in order to increase quality to a higher level, and may need some rewriting for greater clarity.

Major revision required

There are significant flaws in the experimental design and/or approach or a lack of clarity which hampers understanding. Significant revision is needed.

Not feasible

The project plan, as presented, has major flaws or deficiencies, and cannot be simply revised. Deficiencies exist in approach, experimental design, presentation, or expertise which make it unlikely to succeed.

PUBLIC BURDEN STATEMENT: According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0518-0028. The time required to complete this information collection is estimated to average 2 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
