Revision of 20 Walnut Forms and 3 Raisin Forms

This change of worksheet addresses revisions (minor housekeeping and clarification) made to 22 walnut forms and 2 raisin forms. All of these forms are currently approved under OMB No. 0581-0178, Vegetable and Specialty Crops. None of the revisions will affect the burden currently approved under OMB No. 0581-0178.

Walnut Forms:

In an effort to comply with regulations published in the Federal Register on March 27, 2007 (Recommended Decision); July 13, 2007 (Secretary's Decision); and March 3, 2008 (Final Rule), which amended the Federal marketing order for walnuts, the California Walnut Board made slight revisions to their Walnut Grower's Petitions for District 1, District 2, and At Large positions relating to the Board nominations, as well as several other walnut forms.

Minor housekeeping changes were made as a result of the amendments, and are addressed in this Justification for Change. The Board name was changed from the "Walnut Board of California", to the "California Walnut Board." In addition, the Board's address, telephone and fax numbers, has also been updated, and is reflected on the revised (3) forms. Other changes to these forms relate to corresponding changes that were made through amendment of the marketing order, such as the re-numeration of applicable regulation citations described on pages 1 and 2 of these forms.

These revisions will not affect the burden currently approved under OMB No. 0581-0178, Vegetable and Specialty Crops.

Revision of 3 Raisin Forms

To assist the Raisin Administrative Committee (RAC) in getting consistent information for compliance purposes from handlers regarding shipment dates, as well as packer reference information, the RAC and USDA representatives determined that two forms, RAC-100, “Export Program Application/Deposit” and RAC-100C, “Export Program Application for Cash Back” need clarification. These changes, which will not impact the burden currently approved for these forms under OMB No. 0581-0178, Vegetable and Specialty Crops, are described below:

Forms RAC-100, “Export Program Application/Deposit” and RAC-100C, “Export Program Application for Cash Back” are being revised by adding “RAC 21 Month & Report Number” after the “Intended Shipment Date” or “Shipment Date.” Under “Packer Reference No.,” the following language is being added “USDA Certificate Number or Memo Report of Inspection Number.”

The instruction page for Form RAC-100C is also being revised as follows:

- 1) The “Shipment Date” instructions are being modified by adding “(RAC 21 month and report number).”
- 2) The “Packer Reference No.” instructions are being modified by adding “(USDA Certificate Number or Memo Report of Inspection Number).”

Form RAC-71, “RAC Storage Bin Agreement” is being revised by adding a paragraph (Item 9 on the first page), which clarifies that packers will not charge the RAC any fees for RAC bin storage at the packer’s facility and also agrees to assist or allow RAC to pickup bins without any loading fees or other charges. The addition of this paragraph will not increase the burden. The RAC will need to start using the form this crop year. Handlers typically sign the agreement in June/July prior to the crop year which begins on August 1, 2009. Handlers must complete this agreement to participate in the Bin Rental Agreement.
