Form Approved OMB No. 0920-XXXX Expiration Date: XX/XX/XXXX

Question Bank

Public reporting burden of this collection of information is estimated to average 30 – 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX)

INSTRUCTIONS TO USERS

Introduction

The Division for Heart Disease and Stroke Prevention (DHDSP) has developed a coordinated, integrated, and focused evaluation plan to assess its current efforts in reducing the burden of heart disease and stroke. The evaluation plan is guided by three evaluation questions:

- Is the Division engaged in the most appropriate activities (Relevance)?
- Are these activities well implemented (Quality)?
- Is the work of the Division having the intended effect (Impact)?

In order to aid in the implementation of its Evaluation Plan, the DHDSP has received a generic OMB clearance, "Improving the Quality and Delivery of CDC's Heart Disease and Stroke Prevention Programs" to conduct a series of information collections based on the following reference set of questions that address relevance, quality and impact of DHDSP trainings, technical assistance, and guidance. Respondents will be the DHDSP's partners in state and local government, partner organizations in the private sector including public health organizations, nonprofit organizations, and professional organizations, as well as academic institutions.

Requirements for Use of the Generic Clearance

Each prospective user of the generic OMB clearance "Improving the Quality and Delivery of CDC's Heart Disease and Stroke Prevention Programs" must agree to follow these guidelines and instructions.

- 1. For each proposed data collection, the user must complete a "Data Collection Request Form". All proposed data collections will be reviewed by the DHDSP project contact as well as the NCCDPHP OMB contact. The DHDSP contact will ensure that the proposed data collection is consistent with the DHDSP evaluation plans and goals, as outlined in 0920-XXXX. In addition, the NCCDPHP OMB contact will review each proposed data collection to ensure that it conforms to OMB regulatory requirements. You may **NOT** begin data collection until you have written approval from these individuals.
- 2. Questions for data collection must be exclusively drawn **verbatim** from the Question Bank pre-approved by OMB.
- 3. Data collection instruments must be pilot tested and the time burden on pilot test respondents must be recorded. Surveys must be limited to **30 minutes** and interviews and focus groups must be limited to **one hour**.

Further information on how to use the Generic Clearance can be found in the "Generic Clearance Users Guide" (See Attachment 9).

How to Select Questions from the Question Bank

Questions for data collection must be exclusively drawn from the Question Bank preapproved by OMB. The Question Bank is arranged into six sections:

- Screening Questions: This section includes questions that are used to determine
 if the respondent is eligible to participate in a survey, focus group, or interview.
 These questions are asked before beginning a survey, focus group, or interview,
 for example, to make sure a respondent has used the CDC product or service that
 is the topic of the data collection.
- Relevance Questions: This section contains questions designed to assess the
 extent to which DHDSP's training, technical assistance, and other guidance
 products are perceived as relevant and to assess needs for additional products and
 services.
- Quality Questions: This section contains questions designed to assess the
 perceived quality of DHDSP's training, technical assistance, and other guidance
 products.
- **Impact Questions**: This section contains questions designed to assess the effectiveness and impact of DHDSP activities
- **Follow-Up Questions**: This section contains questions which invite the respondent to further explain an answer. In a focus group setting, follow-up questions are used as probes to gain a fuller understanding of a respondent's initial answer.
- **Demographics Questions:** This section includes descriptive questions such as work experience, job role, education level, and funding status. When included in an instrument, these questions should be placed near the end, as they can be perceived as sensitive by some respondents.

Further information about the types of questions found in each section is contained in the introductory text to each of the six major sections of the question bank. In addition, the relevance, quality, and impact sections all contain additional explanations about the types of questions contained within each of their sub-domains.

It is important that ALL questions you choose to include in your instrument are drawn verbatim from the question bank.

How to Fill in the Brackets Contained in Questions

Many questions contain **brackets** which need to be completed with name of the product, the type of technical assistance, or the name of the training of interest. For example, Was the [name of product, type of technical assistance, name of training/workshop] appropriate for the skills you have?

If the survey was asking about the DHDSP Cost Calculator, the question blanks would need to be filled in to word the question as follows:

Was the **DHDSP Cost Calculator** appropriate for the skills you have?

How to Format Questions

Within each sub-section of the Question Bank (indicated by capital letters), questions are divided into blocks. The first block are questions that are worded in a closed ended, or "yes/no," format. For example,

Does the DHDSP Cost Calculator address a specific problem or need?

- 1. Yes
- 2. No
- 3. Don't know/Not sure

As it is worded, the response options to this question are "yes" and "no" and "don't know/not sure." However, this type of question can be transformed into two alternate formats, depending on your needs. First, they can be transformed into a scale format. This can be done by adding the phrase "To what extent" in front of the question. For example,

To what extent does the DHDSP Cost Calculator address a specific problem or need?

- 1. Does not address a need at all
- 2. Barely addresses a need
- 3. Somewhat addresses a need
- 4. Fully addresses a need
- 5. Don't know/Not sure

On the left side of the page there is a column that indicates whether you may add the phrase "to what extent". You may only add "to what extent" to questions with an "X" in the "OK to add 'To what extent" column. The question must be kept verbatim and only the phrase "to what extent" may be added at the beginning.

You do have flexibility in selecting the response options. The response options in the above example include any number between 1 and 5; however, you can use a different range of numbers. The most common types of scales include a 4 point scale (as shown above with four "scaled" responses and an additional response for "don't know/not sure"), a 5 point scale, and a 10 point scale.

If you are looking to get more in-depth information, you can also choose to add on a follow-up question after some of the questions. For example,

Does the DHDSP Cost Calculator address a specific problem or need? Please explain.

The "please explain" is a follow-up question, taken from the "follow up question" section of the Question Bank (Section 5). On the left side of the page there is a column that indicates whether you may add a follow-up question. You may only add a follow-up question to questions with an "X" in the "OK to add Follow-Up" column. The question must be kept verbatim and you may only use follow-up questions that are included in section 5 of the question bank.

Follow up questions are often more time consuming for respondents to answer. Therefore, the number of open-ended questions you include in any instrument should be limited.

Pre-Testing the Instrument

Example instruments can be found in Attachments 6, 7, and 8 of this OMB Generic Clearance Packet. When putting together instruments, it is important to keep in mind the burden hours placed on respondents. **Surveys must be limited to 30 minutes** and **interviews and focus groups must be limited to one hour**, including time dedicated to reading instructions. To give you a sense of the proper length of instruments,

- Attachment 6, an example web-based survey, asks respondents who have accessed evaluation technical assistance in the last six months to answer 20 closed-ended and 9 open-ended questions. This survey takes about 30 minutes to complete.
- Attachment 7, an example interview script, asks respondents 5 closed-ended and 21 open-ended questions. This interview takes about 1 hour to complete
- Attachment 8, an example focus group guide, asks focus group participants to discuss 9 open-ended questions. This focus group lasts about 1 hour.

Once an instrument is developed, it is important to pilot test it with either a few members of the target population (i.e. State epidemiologists) or, if such a group cannot be accessed, individuals in the DHDSP who work closely with the target population (i.e. epidemiologists in the DHDSP). Pilot testing is important for two reasons 1) to ensure compliance with time limitations, as described above, and 2) to make sure the instrument is understandable and clear. Modifications should be made based on feedback received from the pilot test before distributing to the target population.

I. SCREENING QUESTIONS

This section includes questions that are used to determine if the respondent is eligible to participate in a survey, focus group, or interview.

- 1. Which of the following trainings have you participated in?
- 2. Did you attend the [name of training]?
- 3. Did you participate in the [name of training/workshop]?
- 4. Did you have a leadership role in the [name of training/workshop]?
- 5. Which plenary sessions did you attend during the [name of training]?
- 6. Which workshop(s) did you attend during the [name of training/session]?
- 7. Have you received any products (e.g., printed, web, or other) from the DHDSP?
- 8. Have you viewed [name of product] over the last [time frame]?
- 9. Have you seen [name of product]?
- 10. Have you used [name of product] over the last [time frame]?
- 11. Have you used [name of product]?
- 12. When did you last [use, access, attend] the [name of product, type of technical assistance, name of training/workshop]?
- 13. Did you participate in the development of [name of product]?
- 14. Did you participate in planning or implementing the [name of product, name of training/workshop]?
- 15. Did you author or co-author the [name of product]?
- 16. Which format of the [name of product] have you used most?
- 17. Which sections of the [name of product] have you used?
- 18. What DHDSP products have you used?
- 19. Are you aware of the [name of product]?
- 20. Have you read the [name of product]?
- 21. To your knowledge, who [sponsored/funded] the [name of product, name of training/ workshop]?
- 22. Have you [accessed/received] any [type of technical assistance] over the last [time frame]?
- 23. Have you [accessed/received] any [type of technical assistance] over the last [time frame] on how to use information from the [name of training/workshop, name of product]?

II. RELEVANCE

The DHDSP needs to know if it is engaged in the most appropriate activities, whether the training, technical assistance, and other guidance products and services that it currently offers are the proper ways to achieve its goals. Furthermore, the DHDSP needs to assess whether its services are perceived as relevant by its State and National partners. For the purpose of this evaluation, the following dimension of relevance will be explored: clear purpose, clear audience, solve a problem, novel, easy to access, timely, appropriate level, pertinent, transparency, and improvements.

A.	Clear purpose: DHDSP guidance should have a clear purpose and clearly
1	defined benefits it intends to promote. These intended benefits should align with
1	both the DHDSP and the NCCDPHP strategic plan and goals.

			1 10	Cital purpose. Did of guidance should have a cital purpose and citality
OK to add Follow-Up		OK to add "To what extent"		defined benefits it intends to promote. These intended benefits should align with both the DHDSP and the NCCDPHP strategic plan and goals.
	X	X	1.	[Is/Was] the purpose of the [name of product, name of training, type of technical
	X	X	2.	assistance] communicated clearly? [Is/Was] the purpose of the [name of product, name of training, type of technical assistance] communicated accurately?
	X	X	3.	_
	X	X	4.	
	X	X	5.	[Does/Did] your use of the [name of product, name of training/workshop] align with its intended purpose?
	X	X	6.	Did you use the [name of product] for another purpose?
	X	X	7.	[Is/Was] the [name of product, name of training/workshop] beneficial for your
	X	X	8.	purposes? [Are/Were] the benefits of the [name of product, name of training/workshop] clearly
	X	X	9.	defined? [Were/Are] you confused about the purpose of the [name of product, name of
	X	X		training/workshop, type of technical assistance]?
	X	X	10	. Is it clear why the DHDSP is involved in providing the [name of product, name of training/workshop, type of technical assistance]?
	X	X	11	. Has the purpose of the [name of product, name of training/workshop, type of technical assistance] change over time? Is this change positive or negative?
	X	X	12	. Do the benefits of the [name of product, name of training/workshop] align with DHDSP's priority areas, as outlined in the FOA?
	X	X	13	. Do the benefits of the [name of product, name of training/workshop] align with the [name of DHDSP's priority area]?
	X	X	14	. Do the benefits of the [name of product, name of training/workshop] align with the DHDSP strategic plan and its goals?
	X	X	15	. Do the benefits of the [name of product, name of training/workshop] align with the DHDSP's goal to [name of DHDSP goal]?
	X	X	16	Do the benefits of the [name of product, name of training/workshop] align with CDC goals?
	Λ	Λ	17	Do the benefits of the [name of product, name of training/workshop] align with Healthy People goals?

III. QUALITY

The DHDSP needs to know if the activities that it is engaged in are being well implemented, whether its training, technical assistance, and other guidance products and services are perceived by the States and partners as being of high quality. For the purpose of this evaluation, the following dimensions of quality will be explored: understandable, credible, accurate, consistent, feasible, pleasant, meet expectations.

o add w-Up	OK to add "To what extent"		
			iderstandable : DHDSP guidance should be easy to understand. Members of the audience should be able to use and apply the information they receive.
X	X	_	Did you understand the information presented [in/during] the [type of technical assistance, name of training/workshop, name of product]?

IV. IMPACT

The DHDSP needs to know if the activities that it is engaged in are having their intended effect. PART emphasizes that "the most significant aspect of program effectiveness is *impact* - the outcome of the program, which otherwise would not have occurred without the program intervention." PART emphasizes the importance of examining what difference a program makes as well as how or why that program is effective (www.whitehouse.gov). For the purpose of this evaluation, the following dimension of impact will be explored: potential impact, use, reach, benefits, and gaps.

OK to Follow		OK to "To v exten		
			dissen	tential impact: DHDSP guidance should be prioritized, developed and ninated to create a positive public health impact. The DHDSP will assess whether dance has the potential to create such an impact.

E. Gaps: DHDSP guidance should seek to address gaps in knowledge, services and identified needs of States and partners. These needs may include elements relevant to enhancing capacity, job performance and their organization's heart disease and stroke prevention efforts. The DHDSP will examine gaps in the services it currently offers as well as potential enhancements to existing guidance and resources.

- 1. Has [name of product, name of training/workshop, type of technical assistance] helped [you/your organization] addressed a gap in knowledge, services, and/or needs related to heart disease and stroke prevention?
- 2. How has [name of product, name of training/workshop, type of technical assistance] helped [you/your organization] address a gap in knowledge, services, and needs related to heart disease and stroke prevention?
- 3. What needs do [you/your organization] have that the DHDP has not addressed?
- 4. What services or guidance can the DHDSP provide to enhance your organization's heart disease and stroke prevention efforts?
- 5. What services or guidance can the DHDSP provide to enhance your capacity to [insert public health competency]?
- 6. How can the DHDSP be of further support to [you/your organization]?
- 7. What do you still need to know in order to enhance your organization's heart disease and stroke prevention efforts?
- 8. What additional data do you need to enhance your organization's heart disease and stroke prevention efforts?

	X	X		Have the rates of heart disease and stroke among disparate groups changed based on any guidance by DHDSP?

V. FOLLOW-UP QUESTIONS

This section contains questions which invite the respondent to further explain an answer. In a focus group setting, follow-up questions are used as probes to gain a fuller understanding of a respondent's initial answer.

- 1. How?
- 2. How not?
- 3. In what way(s)?
- 4. What do you mean?
- 5. Please explain.
- 6. Please give an example
- 7. Please describe.
- 8. Can you please give an example?
- 9. Can you say more about that?
- 10. Why?
- 11. Why not?
- 12. If yes, please describe.
- 13. To whom?
- 14. Anything else?
- 15. What else?
- 16. Anyone else?
- 17. How could it be improved?
- 18. How could it be strengthened?
- 19. Why do you say that?
- 20. What makes you say that?
- 21. Was this positive or negative?
- 22. What went well?
- 23. What went less well?
- 24. Did it meet that need?
- 25. Can you say more?

VI. DEMOGRAPHIC

This section includes descriptive questions such as work experience, job role, education level, and funding status.

- 1. In what type of agency do you work?
- 2. Are you an employee, contractor?
- 3. What is your job?
 - a. HDSP Program Coordinator/Manager
 - b. Epidemiologist
 - c. Evaluator
 - d. Health educator
 - e. Other, please specify
 - f. [Other job descriptions]
- 4. Please indicate the categories that most accurately describes what you do on your job
 - a. Manage program
 - b. Conduct evaluation
 - c. Analyze health information or data
 - d. Provide educational information to the general public
 - e. [Other job functions]
- 5. Are you working full time with the [HDSP program/agency]?
- 6. What percent of time do you work with the [HDSP program/agency]?
- 7. What is the primary organization with which you are affiliated?
- 8. How many years of experience do you have in your current [job/position/agency]?
- 9. How long have you been working in public health?
- 10. What is your educational level?
- 11. What is the concentration area of your degree?
- 12. Are [you/your state program] currently funded by the DHDSP?
- 13. What [type/level] of funding do you currently receive from the DHDSP?
- 14. Before this year, have you received funding from the DHDSP?
- 15. How many years have you been funded by the DHDSP?
- 16. Please indicate how long [you/your organization] have received [type of funding]?
- 17. Besides financial resources, what other kinds of resources has CDC provided to [you/your organization]?
- 18. What [type/level] of funding do you currently receive from sources other than DHDSP?
- 19. In the past [type frame], what kinds of funding [or other resources] have you received for heart disease and stroke prevention from sources other than DHDSP? Please list the organization name, type of resources received, amount of funding, and period of the grant or award.
- 20. Please describe the working relationship you have had with DHDSP over the last 12 months.
 - a. Is the relationship during the past year different than previous years?
 - b. If yes, how?
- 21. What is the [geographic/demographic] make-up of the population you serve?

- 22. What is your priority population served?23. Where are you located (rural/urban/suburban, name of state, county, city)?24. How many clients do you propose to reach?25. What is [you/your organization's] role in the [name of training/workshop, name of collaborative effort]?
