2009 Lab Values Pretest Instructions

The instructions below will be provided to all respondents for the pretest.

For item 14, Laboratory Values, please follow these instructions:

Within the last 12 months, of the sampled visit, record the most recent value of the laboratory tests listed in item 14 and the date they were drawn. If there are no lab results for any of the laboratory tests listed in item 14 in the medical record or all are more than 12 months prior to the date of the sampled visit, mark one of the following boxes on the form:

- All laboratory results are more than 12 months prior to sampled visit.
- No laboratory tests were ordered.

If only some values are present, mark the “missing” box in column (e) for the missing test.
