New OMB Control Number: 2126-0033.

Type of Request: Revision of a currently-approved information collection.

Respondents: Class I Motor Carriers of Property.

Estimated Number of Respondents: 120.

Estimated Time per Response: 1.8 hours (27 minutes per quarter).

Expiration Date: June 30, 2009.

Estimated Total Annual Burden: 216 hours [120 respondents × 1.8 hours to complete forms = 216].

Background: The Annual Report of Class I and Class II Motor Carriers of Property (Form M) and the Quarterly Report of Class I Motor Carriers of Property (Form QFR) are reporting requirements for all for-hire motor carriers. See 49 U.S.C. § 14123, and implementing FMCSA regulations at 49 CFR part 369. The Secretary of Transportation (Secretary) has exercised his discretion under section 14123 to also require Class I property carriers (including dual-property carriers), Class I household goods carriers and Class I passenger carriers to file quarterly reports. Motor carriers (including interstate and intrastate) subject to the Federal Motor Carrier Safety Regulations are classified on the basis of their gross carrier operating revenues.¹

Under the F&OS program, FMCSA collects from Class I and Class II property carriers balance sheet and income statement data along with information on safety needs, tonnage, mileage, employees, transportation equipment, and other related data. FMCSA may also ask carriers to respond to surveys concerning their operations. The data and information collected would be made publicly available and used by FMCSA to determine a motor carrier's compliance with the F&OS program requirements prescribed at chapter III of title 49 CFR part 369.

The regulations were formerly administered by the Interstate Commerce Commission and later transferred to the Secretary on January 1, 1996, by section 103 of the ICC Termination Act of 1995 (Pub. L. 104-88, 109 Stat. 803 (Dec. 29, 1995)), now

¹ For purposes of the F&OS program, carriers are classified into the following three groups: (1) Class I carriers are those having annual carrier operating revenues (including interstate and intrastate) of \$10 million or more after applying the revenue deflator formula as set forth in Note A of 49 CFR 369.2; (2) Class II carriers are those having annual carrier operating revenues (including interstate and intrastate) of at least \$3 million, but less than \$10 million after applying the revenue deflator formula as set forth in 49 CFR 369.2; and (3) Class III carriers are those having annual carrier operating revenues (including interstate and intrastate) of less than \$3 million after applying the revenue deflator formula as set forth in Note A of 49 CFR § 369.2.

codified at 49 U.S.C. 14123. On September 30, 1998, the Secretary delegated and transferred the authority to administer the F&OS program to the former Bureau of Transportation Statistics (BTS), now part of the Research and Innovative Technology Administration (RITA), to former chapter XI, subchapter B of 49 CFR part 1420 (63 FR 52192).

On September 29, 2004, the Secretary transferred the responsibility for the F&OS program from BTS to FMCSA in the belief that the program was more aligned with FMCSA's mission and its other motor carrier responsibilities (69 FR 51009). On August 10, 2006, the Secretary published a final rule (71 FR 45740) that transferred and redesignated certain motor carrier financial and statistical reporting regulations of BTS, that were formerly located at chapter XI, subchapter B of title 49 CFR part 1420, to FMCSA under chapter III of title 49 CFR part 369.

On April 8, 2009, FMCSA published a **Federal Register** notice on this same topic and provided 60 days for public comment (74 FR 16037). The Agency received no comments to the docket in response to this notice.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.
