Dear <<Salutation>> <<LastName>>

You have been identified as someone who has received care within the MOVE! Weight Management Program at one or more VA healthcare facilities. The Veterans Health Administration (VHA) wants to make the VA your first choice for all your health care needs, and we need your help. The VHA has partnered with Synovate, a well-known survey firm, to conduct an important research study about your experiences with the MOVE! Program.

Within two weeks you will be getting a survey about your experiences with the MOVE! Program at the VA. This survey is voluntary. You are not required to respond to it and your answers will not affect your eligibility for VA benefits. However, we do hope you will choose to complete the survey because the answers that you give will help us improve the MOVE! Program.

We look forward to hearing from you soon, and thank you in advance for your time!

Sincerely,

MOVE! Weight Management Program Survey Team
