Attachment 2: Higher Education R&D Survey full questionnaire (PDF)

NATIONAL SCIENCE FOUNDATION

ARLINGTON, VA 22230

HIGHER EDUCATION RESEARCH AND DEVELOPMENT SURVEY FY 2009

INTRODUCTION

This survey collects data on research and development (R&D) activities at higher education institutions. Previously this collection was known as the Survey of Research and Development Expenditures at Universities and Colleges. The revised name reflects the survey's expanded focus on measures of R&D activities in addition to expenditures. All questions refer to R&D activities and expenditures within your institution's 2009 fiscal year.

See page 2 for "What's New" in the survey. General survey definitions and instructions are provided on page 3.

YOUR SURVEY PARTICIPATION

Your participation in this survey provides important information on the national level of research activity. NSF is authorized to collect this information under the National Science Foundation Act of 1950, as amended. Your institution's response is entirely voluntary; your failure to provide some or all of the information will in no way adversely affect your institution.

QUESTIONS?

Ronda Britt National Science Foundation rbritt@nsf.gov (703) 292-7765 Mary Hagedorn Westat maryhagedorn@nsfherdsurvey.org 1-800-937-8281

Response to this revised survey is estimated to require (80) hours. Please report your actual completion time at the end of the questionnaire. If you wish to comment on this burden, please contact Suzanne H. Plimpton of NSF at (703) 292-7556, or e-mail splimpto@nsf.gov.

Please submit your survey data by January 29, 2010.

The web address for submitting your data:

http://www.nsfherdsurvey.org

Or mail this form to:

ATTN: NSF HERD Survey Westat 1650 Research Blvd. Room TA2062 Rockville, MD 20850

Thank you for your participation.

What's New

The Higher Education Research & Development Survey, formerly the Survey of Research and Development Expenditures at Universities and Colleges, has undergone a redesign in consultation with experts, data users, and university representatives. This section briefly describes the changes and additions.

Include all fields of R&D in all survey items

Please note that this revised questionnaire includes all fields of R&D in all survey items, beginning with Question 1 and continuing throughout the questionnaire. Responses to all survey questions should include R&D in science and engineering fields as in the past, and R&D in all other fields such as humanities, education, law, and the arts. See question 9 for a complete listing of all fields of R&D.

Other general changes

- Many specific instructions have been moved to the questions they pertain to.
- Clinical trials and research training grants are now included in the definition of R&D.

Changes to Questions

- Sources of Funds (Question 1). Separate categories have been created for nonprofit organizations and for institutional cost sharing.
- Basic and Applied Research and Development (Question 6). This question now asks for expenditures associated with basic research, applied research, and development.
- Expenditures by Field and Source (Questions 9 and 12). Information on expenditures is collected by field of R&D for all sources of funds.
 - Question 9 collects R&D expenditures funded by specific federal agencies and total federal funding by field.
 - Ouestion 12 collects information for each nonfederal source and total nonfederal funding by field.

New Questions

- Question 2. R&D expenditures of funds from foreign sources
- Question 3. R&D at medical schools
- Question 4. Clinical trial R&D expenditures
- Question 5. Contracts and grants
- Question 10. Other federal agency sources for R&D expenditures
- Question 11. Federally funded R&D expenditures at interdisciplinary research centers
- Question 13. Non-federally funded R&D expenditures at interdisciplinary research centers
- Question 14. Specific cost elements of R&D expenditures
- Questions 17 and 18. Counts of R&D personnel
- Questions 19 through 22. R&D proposal and award counts

Survey Definitions and Instructions

Research and development (R&D)

includes "organized research" as defined by **2 CFR 220** (**OMB Circular A-21**). Please include all R&D activities of an institution that are *separately budgeted and accounted for* (see definition below). R&D includes both "sponsored research" activities (sponsored by federal and non-federal agencies and organizations) and "university research" (separately budgeted under an internal application of institutional funds).

Separately budgeted R&D

includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. Such expenditures include, among others, all those funded from unrestricted gifts and restricted current funds to the extent that such funds were expended for current operating purposes.

R&D includes:	R&D does <i>not</i> include:			
 Direct and indirect costs Equipment purchased from R&D project accounts Research funds passed through to a subrecipient organization, educational or other Clinical trial research (Phases I, II, and III) Research training grants (such as NIH K awards and T32 grants) 	 Public service grants Program evaluation Departmental research expenditures that are not separately budgeted Research conducted by university faculty or staff at outside institutions that is not accounted for in your financial records Non-research training grants Capital projects 			

Please include these components of your Please do *not* include: institution: All branches of your institution Federally funded R&D centers (FFRDCs). included in or with your financial This information is collected separately. statements. Include units such as: For a complete list of FFRDCs, see http://www.nsf.gov/statistics/nsf05306/ Agricultural experiment 0 stations Other organizations or institutions, such Medical schools 0 as teaching hospitals or research institutes, with which your institution has Hospitals or clinics 0 an affiliation or relationship, but which are Research centers and 0 not components of your institution. facilities A university 501(c)3 research foundation established to handle R&D awards.

Question 1. How much of your total current fund expenditures for separately budgeted research and development (R&D) came from the following sources in FY 2009? (See definition of R&D on the previous page.)

- Include both direct and recovered indirect costs in rows a, b, c, d, and f.
- Report the **original source** of funds, when possible. For example, if you received **federal** funds from another university, report that amount under "U.S. federal government."
- Include all fields of R&D: sciences, engineering, humanities, education, law, arts, etc. See full listing in Question 9.

RCE OF FUNDS	(Dollars in thousands) (for example, report \$25,342 as \$25)
a. U.S. federal government	\$
Any agency of the United States government.	Ψ
b. State and local government	
Any state, county, municipality, or other local government entity in the United States, including state health agencies. Include state funds that support R&D at agricultural and other experiment stations.	\$
c. Industry	
Domestic or foreign for-profit organizations. (Report funds from a company's nonprofit foundation in row d.)	\$
d. Nonprofit organizations	
Nonprofit foundations and organizations.	\$
e. Institutional funds	
1. Institutionally financed organized research	
Include expenditures of university funds from unrestricted sources that are separately-budgeted for organized research. \$	
2. Cost sharing	,
Include committed cost sharing other than unrecovered indirect costs. Report unrecovered indirect costs in row e3. \$(Confidential ^1)	
3. Unrecovered indirect costs	
You may calculate this amount as follows for your externally funded R&D (preferably on a project-specific basis) using the appropriate cost	
rate—on-campus, off-campus, etc. • First, multiply the <u>negotiated</u> rate by the corresponding base. • Second, subtract recovered indirect costs. (Confidential ¹	
4. Total institutional funds ²	\$ TOTAL
f. All other sources	
Other sources not reported above, such as funds from foreign governments.	\$
g. Total ²	\$ TOTAL

¹ Information from confidential items is NOT published or released for individual institutions; only aggregate totals will appear in publications.

² Row and column totals are automatically generated on the web survey.

Question 2. How much of the total R&D expenditures reported in Question 1, rows c, d, and f came from <u>foreign sources</u>?

- **Foreign sources** include foreign governments, industry, and nonprofit organizations located outside the U.S.
- Foreign sources do not include Puerto Rico or other territories of the United States.

R&D Expenditures (Dollars in thousands)

Total R&D expenditures from foreign sources

Question 3.	Of the total R&D expenditures reported in Question 1, row g, how much very projects in your medical school?	vas expended	for R&D		
	If your institution does ${\bf not}$ have a medical school (that is, a school that awards degree), check here and go to Question 4.	s the M.D. or D.	О.		
•	 Include projects that are assigned to the medical school or to research centers that are organizationally part of the medical school. 				
	R	&D Expenditur	es		
	(Do	ollars in thousar	nds)		
Total R&I	D expenditures in the university's medical school	\$			

Question 4.	Of the total R&D expenditures reported in Question 1, row g, how much was expended for Phase I, Phase II, and Phase III clinical trials?							
		R&D Expenditures						
		(0	Oollars in thousands)					
		(1)	(2)	(3)				
		Human clinical	Veterinary	Tatal 1

•	u include R&D expenditures for	□ Yes	☐ Yes					
respor	I trials in your FY 2008 survey ase?	□ No	□ No	NA				
			_ 110	11/1				
¹ Dow and colu	umn totals are automatically generated on	the web curvey						
ROW allu Coll	iiiii lulais are aulumalicaliv ueneraleu un	tile web suivev.						

Question 5. Of the total R&D expenditures that were externally funded (all sources other than the institutional funds reported in Question 1, row e4), how much was received under each of the following types of agreements?

R&D Expenditures
(Dollars in thousands)

a. Contracts (including direct or prime contracts and subcontracts)

b. Grants, reimbursements, and all other agreements

c. Total (should match Question 1, row g minus row e4) 1

TOTAL

TOTAL

Question 6. What amounts of your FY 2009 R&D expenditures were development? Estimates are acceptable.	for basic resea	arch, applied res	search, and
	R&D Exp	enditures	
	(1) Federal (Do	(2) Non-federal Ollars in thousand	(3) Total ¹ s)
a. Basic research	·		
Research directed toward an increase of knowledge; it is research where the primary aim of the investigator is a fuller knowledge or understanding of the subject under study rather	\$	\$	\$
than a specific application thereof. b. Applied research			
Research conducted to gain the knowledge or understanding to meet a specific, recognized need.	\$	\$	\$
c. Development			
The systematic use of the knowledge or understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including the design and development of prototypes and processes.	\$	\$	\$
d. Total ¹			
Column 1 total should match Question 1, row a; Column 3 total should match Question 1, row g.	\$ TOTAL	\$ TOTAL	\$ TOTAL
¹ Row and column totals are automatically generated on the web survey			

Question 7. How much of your R&D expenditures reported in Question 1 did your institution <u>receive as a subrecipient?</u>

The **subrecipient** for an award carries out the work but receives the funds from a pass-through entity rather than directly from the original funding source. See OMB Circular A-133, Section 105 for the federal definition. Subrecipients tend to be the co-authors of publications, writers of technical reports discussing findings, inventors, etc.

Do **not** include vendor relationships. A vendor supplies goods and services. See OMB Circular A-133, Section 210.

Source of pass-through funding	(1) Federal	(2) Non-federal	(3) Total ¹				
a. From higher education institutions		(Dollars in thousands)

b. To other organizations	\$	\$	\$ TOTAL				
c. Total ¹	\$ TOTAL	\$ TOTAL	\$ TOTAL				
¹ Row and column totals are automatically generated on the web survey.							

Question 9. What were your FY 2009 R&D expenditures for the federal agencies below in each field of R&D? (Expenditures funded by nonfederal sources will be reported in Question 12.)

- The total for the last row (row K, page 13) should match total federal sources reported in Question 1, row a.
- Examples of the disciplines included in each field are listed below.
- If an individual project involves more than one of the 36 fields of R&D, please prorate expenditures when possible and report the amount for each field involved.

Question 13. How much of the nonfederal R&D expenditures amount reported in Question 12, row K, column f, took place in interdisciplinary research centers at your institution?

R&D Expenditures (Dollars in thousands)

Total R&D expenditures from nonfederal sources for projects in interdisciplinary research centers

\$

Question 14. Of the total amount of R&D expenditures reported in Question 1, row g, what were the amounts for the following types of costs?

Please report only direct costs (including cost sharing) in rows a to f. Recovered and unrecovered indirect costs should be reported in rows g and h.

R&D Expenditures DIRECT COSTS FROM ALL SOURCES (Dollars in thousands) a. Salaries, wages, and fringe benefits—all compensation to full-time and part-time employees included in your R&D expenditures. b. Software purchases—all payments for software. Include both purchases of software packages and license fees for systems. 1. Noncapitalized software 2. Capitalized software c. Capitalized equipment other than software reported in row b—payments for movable equipment exceeding your institution's capitalization threshold. Include ancillary costs such as delivery and set-up. d. Pass-throughs to other universities or organizations (should match the total in Question 8, row c, column 3) e. Other direct costs—other costs that do not fit into one of the above categories, including (but not limited to) travel, services such as consulting, computer usage fees, and supplies. \$ TOTAL f. Total Direct Costs **INDIRECT COSTS** g. Recovered indirect costs (Confidential 1) h. Unrecovered indirect costs (should equal Question 1, row e3) (Confidential 1) \$ TOTAL i. Total (should match total from Question 1, row g) 2 ¹ Information from confidential items is NOT published or released for individual institutions; only aggregate totals will appear in publications. ² Row and column totals are automatically generated on the web survey.

Question 15. At the end of FY 2009, what were your institution's dollar capitalization thresholds for software and equipment?							
	(1) Software	(2) Equipment					
Dollar threshold for capitalization	\$	\$					

Question 16. For the fields of R&D below, what portion of your FY 2009 R&D expenditures went for the purchase of capitalized R&D equipment?

 Note that the total for Question 16 entered on row K, column c, should match Question 14, row c (capitalized equipment other than software).

Question 17. How many principal investigators and other personnel (headcount) were paid from the R&D salaries and wages you reported in Question 14, line a?							
		(1) Principal	(2) All other	(3)			
		investigators	personnel	Total ¹			
Number o	of people (headcount)			TOTAL			
¹ Totals are aut	omatically generated on the web survey.						
Question 18. Of the headcount reported in Question 17, column 3, how many are postdocs, that is, Ph.D. researchers working in temporary positions primarily for training in research?							
	Postdoc positions are designated as Titles for postdocs can include postdo associates, etc.						
Number of p	postdocs (headcount)						

Question 19. How many R&D proposals were submitted by your institution to government agencies, foundations, or other funding sources outside of your institution in FY 2009? Include grant or contract proposals and other documents or actions that involved application for R&D funding.							
			Number				
Proposa	als submitted in FY 2009						
Question 20.	What was the number and dollar value (in thous your institution in FY 2009?	ands) of R&	O projects awarded to				
	In reporting the dollar value, provide the total amount awarded in FY 2009 for both new and ongoing projects. Please do not include contingent or optional renewal years if funds were not awarded in FY 2009.						
		(1) Number	(2) Dollars (in thousands)				
R&D pro	ojects awarded in FY 2009		\$				
Question 20. How many of the R&D project awards reported in Question 20 involved interdisciplinary research? And, what was the dollar value (in thousands) of those awards?							
Interdisciplinary research is a mode of research by teams or individuals that integrates information, data, techniques, tools, perspectives, concepts, and/or theories from two or more disciplines or bodies of specialized knowledge to advance fundamental understanding or to solve problems whose solutions are beyond the scope of a single							

discipline or area of research practice.
