

INSTRUCTIONS FOR COMPLETING FORM FNS 380-1, QUALITY CONTROL REVIEW SCHEDULE

GENERAL INFORMATION

The Quality Control Review Schedule (QCRS) is the data entry form to record the results of Food Stamp Quality Control reviews.

The schedule consists of seven sections:

- 1 - Review Summary
- 2 - Detailed Error Findings
- 3 - Household Characteristics
- 4 - Information on Each Household Member
- 5 - Income Identified by Household Member
- 6 - Reserved Coding
- 7 - Optional - For State Use

All entries in the QCRS are dollar amounts, dates, or numeric codes.

Dates - Use six or eight-digit numbers as the entry requires. For example, October 3, 2003 would be coded:

1	0	0	3	2	0	0	3
---	---	---	---	---	---	---	---

The October sample month would be coded:

1	0	2	0	0	3
---	---	---	---	---	---

Dollar Amounts - Round all dollar amounts to the nearest dollar; leading zeros are not required. For example, \$165.00 is entered:

	1	6	5
--	---	---	---

Not Applicable - If an item does not apply to the case reviewed, leave the applicable boxes blank:

--	--	--	--	--	--

Unknown - If an item is known to exist but the specific amount is not known, fill in all boxes for that item with 9's:

9	9	9	9
---	---	---	---

If no information is available or if the item does not apply to the household, leave the boxes blank. Do not enter zeros to indicate no information.

Stratum - States with stratified samples should submit to the FNS regional office a listing of the numeric codes utilized to identify stratum. Stratum codes are assigned by the State agency when the sample is stratified. If stratum codes are not used, leave blank or enter other identifying information at State option.

Local Agency Code - This code is used to group data by county or county equivalent or smaller areas. The system requires a three-digit code. The State may use Federal Information Processing Standards (FIPS) codes or use an alternative method to designate local agency. Once a State has selected a method, submit to the FNS regional office a listing of the local agencies and corresponding codes.

FIPS Codes - The National Institute of Standards and Technology has developed codes for classification of counties and county equivalents. These codes were devised by listing counties alphabetically and assigning sequentially odd integers; e.g., 001, 003, 005.

SECTION 2 - DETAILED ERROR FINDINGS

This section provides for the detailed coding of each variance identified during the QC review. If additional lines are needed to code error findings, attach an additional page. Since the information recorded in this section is the basis for corrective actions, the accuracy of the information is important. If more than one variance is identified, the variance that the agency believes is most significant in leading to the error should be listed first.

12. Element - Enter the appropriate element number of the review for each variance identified.

13. Nature codes - Enter the appropriate code for the nature of each variance.

The following provides the element and nature codes to be used in items 12 and 13.

These nature codes may be used in any element:

Nature code (98) - Transcription or computation errors.

Nature code (99) - Other. Use this nature code in the following situations:

- a) If no specific nature code is listed under an element,
- b) If the nature of the error is clearly understood by looking at the agency/client code recorded for the error, or
- c) If none of the listed nature codes under an element apply to the error being recorded.

➤ **Element 111 - Student Status**

Nature codes:

- 6 - Eligible person(s) excluded

For example: the discovery of an unreported 62 year old with earned income, a bank account, and medical expenses would be recorded under Element 150 (Household Composition), not Elements 211 (Bank Accounts or Cash on Hand), 311 (Wages and Salaries), and 365 (Medical Deduction).

Variances should not be coded under this Element for persons with characteristics that are specifically addressed under other 100 Series Elements (Student Status through Social Security Number). 14. Cause - Enter one of the following codes to indicate the primary cause for each variance identified.

- 1 - Information not reported. (Client failed to report information or changes that are required to be reported. Use this code only if the State could not know this information from another source or could not have anticipated the change.)
- 2 - Incomplete or incorrect information provided. (Client provided information that is incorrect or incomplete and the agency was not required to verify.)
- 3 - Information withheld by client. (Case being referred for IPV investigation.)
- 4 - Incorrect information provided by client. (Case being referred for IPV investigation.)
- 7 - Information reported by a collateral contact inaccurate. (The agency acted upon information provided by a collateral contact, which was verified by QC to be inaccurate, i.e. the client's employer reported incorrect salary information.)
- 8 - Acted on incorrect Federal computer match information that was not required to be verified. (This variance is excluded from the error determination but must be recorded.)
- 10 - Policy incorrectly applied. (The agency used the wrong policy/incorrectly applied policy when determining eligibility or processing change information.)
- 12 - Reported information disregarded or not applied. (The agency failed to take action on information reported by the client or information that became known through some other source, such as non-federal match information.)
- 14 - Agency failed to follow up on inconsistent or incomplete information. (Information provided by the household or collateral source was inconsistent with other information in the case record or incomplete but the agency failed to request verification.)
- 15 - Agency failed to follow up on impending changes. (The agency failed to take follow up action on a change that was anticipated, i.e. unemployment ending within the certification period, pregnancy, etc.)

- 16 - Agency failed to verify required information. (The agency failed to use third party information or documentation to establish the accuracy of statements on the application or change report form which are required to be verified. If the agency is not required to verify reported information use code 2.)

(The agency eligibility system caused the error due to a programming related problem, i.e. an incorrect amount for standard deduction was programmed into the system, the agency authorized the use of workarounds to the computer system that resulted in an error, etc.)
 - 18 - Data entry and/or coding error. (The agency made a data entry error when keying into the State/local agency eligibility system, includes selection of incorrect codes.)
 - 19 - Mass Change. (The error was due to a problem with a computer generated mass change, i.e. mass change was run late or incorrectly updated the case.)

 - 21 - Computer user error. (The EW failed to use computer system properly or used an unauthorized process to work around the system.)
 - 99 - Other. (Variance caused by the agency, which does not fall under any of the specific causes listed above.)
- 15. Error Finding** - (Optional). This item provides a means for reviewers to identify the impact of individual variances. If only one variance is recorded for an error case, the error finding code for this item and item 8, finding, should be the same. Enter the appropriate code for each variance:
- 2 - Overissuance
 - 3 - Underissuance
 - 4 - Ineligible

- 16. Error Amount** - (Optional) Compute and enter the dollar amount of each separate variance. If one variance is coded, then the amount in this item should be the same as the error amount in item 10. If more than one variance is coded, the agency may use the optional guidance provided in Chapter 12 or use State developed procedures for assigning dollar amounts. Some agencies find this calculation helpful as an aid in prioritizing error causes for corrective actions.
- 17. Discovery** - Enter one of the following codes to indicate how the variance was discovered:
- 1 - Variance clearly identified from case record: documentation is not from an automated match
 - 2 - Variance clearly identified from case record: documentation is from an automated match
 - 3 - Variance discovered from recipient interview
 - 4 - Employer (present or former)
 - 5 - Financial institution, insurance company, or other business
 - 6 - Landlord
 - 7 - Government agency or public records, not automated match
 - 8 - Government agency or public records, automated match

 - 2 - At time of most recent action by agency
 - 3 - After the most recent action by agency
 - 9 - Time of occurrence cannot be determined

SECTION 3 - HOUSEHOLD CHARACTERISTICS

This section collects information about the household's processing and specifics about resources, income, and deductions that were the basis of their food stamp benefits.

Some specific items come from the case record (Items 20-24, and 26-27). These items are: most recent action, type of action, length of certification period, allotment adjustment, amount of adjustment, receipt of expedited service, and authorized representative.

For all other items use information from the final QC determination.

20. Most Recent Certification Action - Enter the effective date (month, day and year) of the most recent certification or recertification action prior to or concurrent with the review date. This date cannot be prior to the start of the most recent certification period and should be in the case record.

21. Type of Action - Based on information in the case record, indicate the type of action by entering one of the following codes:

- 1 - Certification
- 2 - Recertification

Certification means the first time a case has been certified or a certification action following a break in participation.

Recertification means the initial certification period has expired and the agency has (a) completed a reexamination of all factors of eligibility subject to change following a period of time during which the recipient has been determined eligible and (b) made a decision to continue eligibility.

22. Length of Certification Period - Enter the number of months the household was certified to participate during the current certification or recertification. For households that are participating in months for which they have not been certified enter the code 98. This information should be found in the case record.

23. Allotment Adjustment - This item records whether there was any adjustment from the standard amount for the household size and income level of the household. Proration is providing less than a full month's allotment due to the date of application or receipt of verification. Other adjustments include claims recoupment, sanctions, and adjustments for failure to comply with other means tested programs. Supplements included in the allotment are not considered as allotment adjustments for this item.

Enter the code that indicates whether or not the allotment was adjusted or prorated. If more than one adjustment was made, enter the code for the adjustment with the greatest impact on the food stamp allotment. Supplements included in the allotment are not considered as allotment adjustments for this item.

- 1 - No adjustment
- 2 - Prorated benefit
- 3 - Other adjustment

24. Amount of Allotment Adjustment - Enter the amount of the allotment adjustment from the record. If more than one adjustment was applied, enter the total amount of the difference between the allotment for the household size and income of the household and the amount the household actually received. If item 23 is coded 1, no adjustment, leave this item blank. Enter 9 if the amount of adjustment is unknown.

25. Number of Household Members - Enter the number of person(s) determined to be a part of the food stamp household and eligible to receive benefits based on the final QC determination. Include persons who should have been in the household but were not in the State's original determination. Do not include persons whose income/resources are considered but are not receiving food stamps or food stamp household members who have been

disqualified from the program. If the household was ineligible for benefits, enter zero.

- 26. Receipt of Expedited Service** - Using information from the case record, enter the appropriate code for the household's entitlement to expedited service at the most recent certification in effect at the time of the sample month:
- 1 - Entitled to expedited service and received benefits within the Federal timeframe.
 - 2 - Entitled to expedited service but did not receive benefits within the Federal timeframe.
 - 3 - Not entitled to expedited service.
- 27. Authorized Representative Used at Application** - Enter the appropriate code using information from the case record. An authorized representative is a responsible adult designated by the household, in writing, to apply for benefits on behalf of the household. Did an authorized representative make application for the household?
- 1 - Yes

*
* This is to collect racial and ethnic data as required by the changes brought
* about by the May 18, 2006 regulation Food Stamp Program: Civil Rights Data
* Collection and to identify how to collect the information until the entire
* caseload has been converted to the new requirement. The change to the new
* format may be done voluntarily at this time but is required for all new
* applications and recertifications effective April 1, 2007. Under this scenario
* QC reviewers will be recording the racial/ethnic data in the new format as
* soon as available and will be collecting the old format from now through April
* 2009.

*
* **New format:** Use codes 1 through 22 to record information if it has been
* collected in the new format.

*
* **Old format:** Use codes 30 through 34 and 99 if the data is in the old format.

*
* We expect the information will continue to be in the old format for most cases

until there are new applications and recertification after April 1, 2007. Due to the way that recertifications are scheduled, cases will continue to have the old format until their certification periods expire in the year following for most cases and 2 years for those elderly cases with 24 month certification periods. This will mean that all cases will be in the new format on April 1, 2009.

*
*
*
*

Under the rules for the new format, applicants are asked to voluntarily fill out ethnicity and race on their applications. Eligibility workers identify information for the applicant when they have not voluntarily filled out the information. QC reviewers are to collect only the information that has been recorded on the application.

SECTION 6 - RESERVED CODING

68. Timeliness of Application Processing (Expedited and 30 Day

Requirement - This information is being collected for possible bonus payments. We want to delineate if there was timeliness of application processing for cases when a new application was filled in the current Federal Fiscal Year.

Timeliness of application processing is measured for cases that filed an application in the current Fiscal Year. If there is more than one application in the current Fiscal Year, measure timeliness for the most recent application for or prior to the sample month.

We are measuring the timeliness of application processing according to Federal processing standards. A household entitled to expedited service must be provided the opportunity to participate within 7 days. Households not entitled to expedited service must be provided the opportunity to participate by the 30th day following the date of application. A case that meets the applicable Federal processing standard is coded 1 - timely. A case that fails to meet the applicable Federal processing standard is coded 2 - not timely.

If a new application was not filed in the review year, the case will not be used in determining the bonus payment. The case should be coded 3 - Other. Also, use Code 3, for cases that have been properly pended for incomplete verification. Improperly pended cases should be coded 2 - not timely.

If after a thorough review of case circumstances and records there is no documentation, application or other information to determine timeliness, the case should be coded 3. For cases with this problem, every effort should be made to determine the timeliness of the case before deciding to use the Other code.

Please indicate the appropriate code:

- 1 - Timely
- 2 - Not timely
- 3 - Other
