### Private health insurance?

1. Yes
2. No

### Priv1\_intro

Now I am going to ask about private health insurance coverage. Private health insurance includes comprehensive medical insurance plans provided through an employer or union, as well as plans purchased directly from an insurance company individually or as part of a group. Since people may be covered by more than one private health insurance plan at a given time, we will try to collect information about each one at a time.

At any time between ^MONTH1 and ^LASTMONTH ^CALENDAR\_YRFIL, ^WEREWAS ^TEMPNAME covered by a private health insurance plan?

(This does not involve plans that contain only one type of coverage, like dental-only or vision-only plans. Please do not include these types of health insurance plans.)

### Priv2\_intro

Sometimes people have health insurance coverage from more than one private health insurance plan at a given time. Did ^TEMPNAME have a second source of private health insurance during the same period as a coverage already included above? (Remember, this does not include plans that cover only one thing, like a dental policy or vision policy. Please do not include these types of health insurance plans.)
