

U.S. DEPARTMENT OF HOMELAND SECURITY U.S. COAST GUARD	BOAT OWNER'S REPORT POSSIBLE SAFETY DEFECT	OMB No. 1625-0071 Exp: mm/dd/yyyy
---	---	--------------------------------------

Who should use?	Owners of recreational boats, inboard engines, outboard motors and sterndrive units.
What is this collection about?	This information collection enables owners of recreational boats, inboard engines, outboard motors and sterndrive units who believe one of these products either fails to comply with an applicable Federal safety standard or contains a defect which creates a substantial risk of personal injury to the public to report the problem to the Coast Guard (CG) for investigation.
Where do I find the requirements for this information?	46 U.S.C. 4307 prohibits the manufacture or sale of a recreational boat, an inboard engine, an outboard motor or a sterndrive unit unless it complies with Federal regulations and is free of defects which create a substantial risk of personal injury to the public.
When should information be submitted to the Coast Guard?	If a recreational boat, an inboard engine, outboard motor or sterndrive unit is less than 10 years old and has a problem that is: (1) safety-related; (2) might also involve similar boats or engines; and (3) could not be resolved under the manufacturer's warranty, the information should be submitted to the CG as soon as possible after discovery.
How is the information submitted?	By requesting a form – Boat Owner's Report – Possible Safety Defect from Commandant (CG-5422), U.S. Coast Guard, 2100 Second Street SW STOP 7581, Washington DC 20593-7581 or by completing online at: http://www.uscgboating.org/recalls/owners_report.aspx
What happens when information is received?	Coast Guard engineers analyze the problem. If warranted, the Recreational Boating Product Assurance Branch will open an investigation to determine if a safety defect trend exists. Some of these investigations result in safety recalls.
For additional information, contact--	Commandant (CG-5422), U.S. Coast Guard, 2100 Second Street SW STOP 7581, Washington DC 20593-7581 or online at: http://www.uscgboating.org/recalls/owners_report.aspx

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The Coast Guard estimates the average burden for this report is 24 minutes. You may submit any comments concerning the accuracy of this burden estimate or any suggestions for reducing the burden to: Commandant (CG-5422), U.S. Coast Guard, 2100 St., SW STOP 7581, Washington D.C. 20593-7581 or Office of Management and Budget, Paperwork Reduction Project (1625-0071), Washington, DC 20503.
