

THE AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009

REPORTING REQUIREMENTS

Federal Highway Administration
U.S. Department of Transportation

July 17, 2009

Version 2.0

Introduction

The American Recovery and Reinvestment Act of 2009 (Recovery Act), provides the State Departments of Transportation and Federal Lands Agencies with \$27.5 billion for highway infrastructure investment. With these funds also comes an increased level of data reporting with the stated goal of improving transparency and accountability at all levels of government. According to President Obama, *“Every American will be able to hold Washington accountable for these decisions by going online to see how and where their tax dollars are being spent.”* The Federal Highway Administration (FHWA) in concert with the Office of the Secretary of Transportation (OST) and the other modes within the U.S. Department of Transportation (DOT) will be taking the appropriate steps to ensure that this accountability and transparency is in place for all infrastructure investments.

The reporting requirements of the Recovery Act are covered in Sections 1201 and 1512. Section 1201 (c)(1) stipulates that “notwithstanding any other provision of law each grant recipient shall submit to the covered agency (FHWA) from which they received funding periodic reports on the use of the funds appropriated in this Act for covered programs. Such reports shall be collected and compiled by the covered agency (FHWA) and transmitted to Congress. Covered agencies (FHWA) may develop such reports on behalf of grant recipients (states) to ensure the accuracy and consistency of such reports.”

OST, FRA, Federal Transit Administration (FTA), and Maritime Administration (MARAD) will initiate a data collection procedure in May 2009 called the TIGER Collector. Reporting on FHWA grants will continue to use the forms provided in this guidance. Recipients of non-FHWA funds will report on those non-FHWA funds using the TIGER Collector but continue to report on FHWA funds using the forms provided in this guidance.

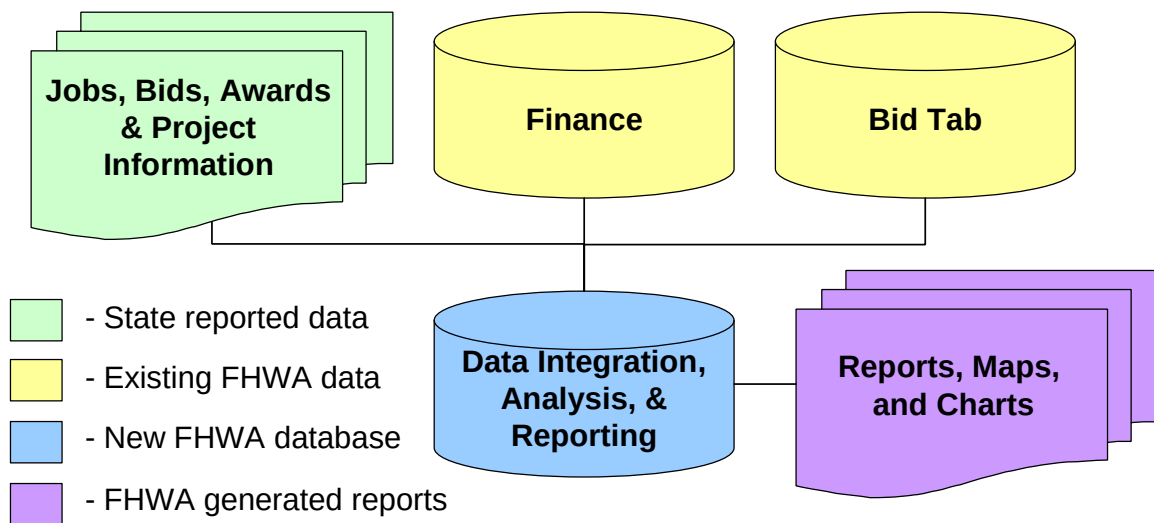

Section 1512, or the “Jobs Accountability Act,” requires “any entity that receives recovery funds directly from the Federal Government (including recovery funds received through grant, loan, or contract) other than an individual,” including States, to provide regular ‘Recipient Reports’.”

All Prime Contractors must have or obtain a DUNS number. All US Government contractors, grantees and loan recipients can request a DUNS number or modification to an existing DUNS record by using the online webform process at <http://fedgov.dnb.com/webform> (for US and International locations) or they can call 866-705-5711, option 3. The toll free number is for US locations only, according to OMB Guidance.

Disadvantage Business Enterprise (DBE) information needs to be captured for each project. The data elements are for the project-specific DBE goal, prime contractor commitment at the time of award, and the actual dollars paid to the DBEs. The Recovery Act specifically states that the DBE requirements apply and the authority for data collection is grounded in the DBE regulations.

This document describes the reporting requirements and data analysis processes that FHWA will implement. States will be responsible for providing the data that are not currently available at the national level. Please note that this document does not address every data element that is required to be reported but rather the data that needs to be specifically collected because it is not currently being reported. To the maximum extent possible, FHWA will utilize existing data programs to meet the Recovery Act reporting requirements. For example, for the requirement to report aggregate expenditures of State funds, FHWA will use existing reports submitted by States and data collected in the Financial Management Information System (FMIS). The following diagram shows a conceptual overview of the flow of data between the existing data programs and the new data to be reported by the States, which will all be fed into a new FHWA data system for integrating, analyzing, and reporting the data. While the reporting obligations in the Recovery Act are only applicable to the grant recipients, the States may need to obtain certain information from their contractors, consultants, and other funding recipients in order to provide the FHWA with all of the required information.

Figure 1 – Conceptual overview of ARRA data model.

As the recipients or grantees for the majority of the Recovery Act funds, States are by statute responsible for the reporting to FHWA on the projects, use of Recovery Act funds, and jobs supported. States that receive recovery fund apportionments directly from the Federal government are responsible for reporting to FHWA, which in turn is responsible for reporting periodically to Congress and quarterly to the Recovery.gov website. To achieve a high-quality and consistent basis for reporting, FHWA has designed a system for obtaining and summarizing data for all purposes. These purposes include ones in legislation and for providing a consistent platform for State and FHWA internal reports.

Reporting Timeline

FHWA will use the information from the regular, monthly State reports and existing FHWA data programs to meet the quarterly and periodic reporting requirements. FHWA requires monthly reporting of data from the States to ensure timely data verification and to ensure the data meets quality standards. In addition, employment data are required on a monthly basis for FHWA’s indirect and induced employment model. The following graphic shows when the various State and Federal Land Management Agency reports are due to the FHWA and when FHWA reports are due to Congress and the public.

Reporting

An initial list of projects to be funded with the Recovery Act, consistent with the list of projects provided in the State's Section 1511 certification, will be submitted by the State directly to the FHWA Headquarters Office. Subsequent State reporting will be through the appropriate FHWA Division Office. The Division Office will be responsible for monitoring the compliance and completeness of the reports. The data quality reviews will be conducted by FHWA Headquarters Office. States will be responsible for updating the project status and jobs information monthly to their respective Division Office for all projects receiving Recovery Act funds. These monthly reports are required regardless of whether the project is funded in whole or in part by Recovery Act funds. To the maximum extent possible, States will be able to use existing State data programs for reporting. For States who do not currently have an existing system with the required information, FHWA will be providing MS Excel based forms that can be used for their own reporting as well as the reporting of their contractors, consultants, and other Recovery Act funding recipients.

It is important to point out that States are responsible for reporting project, jobs, and finance data for all Recovery Act projects including those managed by their funding recipients, such as other state agencies and local governments. States can utilize the FHWA forms for collecting this information, or can use their own existing or new systems if they so desire.

Initial Recovery Act Project Plan File Description

This section covers the by-project information to be provided by each State which accounts for how it plans to invest its allotment of Recovery Act funding. The list needs to be consistent with the list of projects provided in the State's Section 1511 certification, as it may be amended. States should provide their best estimates of a complete list of projects to be funded with Recovery Act grants as of the plan's due date. If a State has not programmed all Recovery Act funds by that time, that information should be provided as well. The project list should be provided in an electronic format that allows for data sorting. For the purpose of this initial project plan report, the State may provide the Section 1511 list of projects if that list of projects provides all data listed below. Simply referencing the STIP will likely not be sufficient, since most do not contain all of the required data. These data will be used for meeting the reporting requirements of Sections 1201 and 1512. The data are also used to link together State DOT and FHWA provided Recovery Act project data.

Format: The data should be provided as a comma separated variable (.csv) text file.

Due date: By March 31, 2009. The State shall provide an additional list of projects within 2 weeks of the State issuing a new Section 1511 certification until September 2012.

Due to: The States will [upload](#) their data to the Recovery Act Data System (RADS) in UPACS. Questions should be directed to ARRA.Questions@dot.gov. Submittal of data to this e-mail account will not qualify as the required submittal under section 1511.

Projects

| Number | Primary Key | Data Element | Definition | Type | Max Length or format | Example | Validation and Business Rule(s) | Comments |
|--------|-------------|--------------------------|--|--------|----------------------|---------------|---|--|
| 1 | PK | State_Code | State FIPS code from the U.S. Census Bureau | int | 4 | 11 | See Appendix A for list of valid codes | Only enter one code |
| 2 | PK | State_Project_Number | The State project number or ID as assigned by the State or its funding recipient, consistent with the format reported in FMIS. | string | 50 | "15648" | | |
| 3 | | Federal_Project_Number | The State assigned federal-aid project number, consistent with the seven digit format reported in FMIS. | string | 25 | "A000349" | | |
| 4 | | Project_Type | A string code used to denote the type of project. Projects are divided into individual projects and area wide projects. | string | 1 | "D" | Valid codes: I, D, S, O | Enter only one code |
| 5 | | Project_Name | Consistent with the project name in the STIP and/or FMIS. | string | 256 | "Campton" | | |
| 6 | | Project_Description | Consistent with project description provided in the 1511 Certification. | string | 2000 | "Resurfacing" | | |
| 7 | | Project_Purpose | Enter the predominant two digit numeric improvement type code consistent with FMIS. | string | 2 | 05 | See Appendix C for list of valid codes | |
| 8 | | Infrastructure_Rationale | The recipient's rationale for funding the infrastructure investment with funds made available under this Act. | string | 10 | "1, 3, 4" | 1 To preserve and create jobs and promote economic recovery 2 To assist those most impacted by the recession 3 To provide investments needed to | More than one code may be provided, separate each with a comma (see example) |

| | | | | | | | | |
|----|--|---------------------|---|---------|------|------------|---|---------------------|
| | | | | | | | <p>increase economic efficiency by spurring technological advances in science and health</p> <p>4 To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits</p> <p>5 To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases</p> | |
| 9 | | Total_ARRA_Estimate | The estimated total amount of Recovery Act (R.A.) funds to be expended on the project. | decimal | 14,2 | 4625261.00 | | |
| 10 | | Total_Cost_Estimate | The estimated total cost of all Recovery Act and non-Recovery Act funds consistent with the STIP and/or FMIS. | decimal | 14,2 | 4625261.00 | | |
| 11 | | EDA | A yes/no check-box to indicate if the project is in an economically distressed area. | string | 1 | "Y" | Valid codes: Y, N | Enter only one code |
| 12 | | NEPA_Class_Action | Code Description: (1) TBD - To be determined; (2) CE - All types of | string | 3 | "CE" | | |

| | | | | | | | | |
|----|--|--------------------------|---|--------|------------|------------|--|------------------------|
| | | | categorical exclusions; (3) EA - Environmental assessment or finding of no significant impact; (4) EIS - Environmental impact statement; (5) NA - Not applicable. | | | | Valid codes: TBD, CE, EA, EIS, NA | Enter only one code |
| 13 | | NEPA_Milestone_Completed | Code Description: (1) TBD - To be determined; (2) CE - All types of categorical exclusions; (3) EA - Environmental assessment; (4) FONSI - Finding of no significant impact; (5) DEIS - Draft environmental impact statement; (6) FEIS - Final environmental impact statement; (7) SEIS - Supplemental environmental impact statement; (8) ROD - Record of decision; (9) NA - Not applicable. | string | 5 | "CE" | Valid codes: TBD, CE, EA, FONSI, DEIS, FEIS, SEIS, ROD, NA | Enter only one code |
| 14 | | NEPA_Milestone_Date | Date NEPA Milestone was completed. | date | mm/dd/yyyy | 02/03/2009 | | |
| 15 | | Federal_NEPA_Date | Enter date that FHWA approved the NEPA document indicated under "NEPA_Class_Action." | date | mm/dd/yyyy | 02/03/2009 | | |
| 16 | | Number_Federal_Permits | Federal permits/approvals requiring NEPA decisions or NEPA documents adoptions by other agencies, such as 404 Permits, Coast Guard Bridge Permits, or federal land transfers. | int | | 2 | | |

| | | | | | | | | |
|----|--|------------------------|--|--------|---|--------|--|---------------------|
| 17 | | Status_Federal_Permits | <p>A stringacter code used to denote the status of any outstanding federal permits or approvals, including those which are not reported in "Number_Federal_Permits" because they do not require a NEPA decision, such as ESA section 7 and Section 106 of the NHPA. If multiple permits or approvals are outstanding, choose teh code that best describes the permit that is expected to be the last one approved. Code Description: (1) TBD - To be determined; (2) NOT - Not applied; (3) PEND - Applied/Pending; (4) COMP - Completed; (5) NA - Not applicable.</p> | string | 4 | "COMP" | <p>Valid codes: TBD, NOT, PEND, COMP, NA</p> | Enter only one code |
|----|--|------------------------|--|--------|---|--------|--|---------------------|

Initial Recovery Act Award File Description

On this form the State will provide information on the status of all Recovery Act projects awards. These data will be used for meeting the reporting requirements of Sections 1201 and 1512.

Format: The data should be provided as a comma separated variable (.csv) text file.

Due date: The State will update information within 2 weeks after any modification to the award(i.e. Advertised Date is issued).

Due to: The States will [upload](#) their data to the Recovery Act Data System (RADS) in UPACS. Questions should be directed to ARRA.Questions@dot.gov. Submittal of data to this e-mail account will not qualify as the required submittal under section 1511.

Awards

| Number | Primary Key | Data Element | Definition | Type | Max Length or format | Example | Validation and Business Rule(s) | Comments |
|--------|-------------|-------------------------|--|--------|----------------------|-----------------------|---|--|
| 1 | PK | State_Code | State FIPS code from the U.S. Census Bureau | int | 4 | 11 | See Appendix A for list of valid codes | |
| 2 | PK | Federal_Project_Number | The State assigned federal-aid project number, consistent with the seven digit format reported in FMIS | string | 50 | "604207" | | |
| 3 | PK | State_Project_Number | The State project number or ID as assigned by the State or its funding recipient, consistent with the format reported in FMIS. | string | 50 | " STIM1235" | | |
| 4 | PK | Contract_Number | If multiple contracts exist on individual projects then list the contract numbers. | String | 50 | "POKA-2006-C-0003-JJ" | | Use "NA" for work performed by a State DOT where an actual contract does not exist |
| 5 | | County_Codes | A 5 digit code comprised of the 2 digit State FIPS code and 3 digit County FIPS Code. For example, the county of Somerset Maine would be coded as "23025." Federal Land Management Agencies will use this field to indicate the State and county where the majority of the project is located. | string | 20 | "23025" | See Appendix B for list of valid codes | |
| 6 | | Congressional_Districts | The numeric Congressional District consistent with FMIS. States with one Congressional District should enter "0" (zero). | string | 20 | "2" | Multiple Congressional Districts should be separated by a comma | |
| 7 | | Area_of_Benefit | The area of benefit may | string | 20 | "County" | | |

| | | | | | | | | |
|----|--|-------------------|---|--------|------------|-------------|--|--|
| | | | be: State, County, City, School District | | | | | |
| 8 | | Advertise_Date | The date that the Recovery Act project was advertised, reported as mm/dd/yyyy (e.g. "May 1, 2009" would be coded as "05/01/2009"). If the project is re-advertised, enter the new date. Leave blank if the project has not yet been advertised; do not enter future dates. | date | mm/dd/yyyy | 5/7/2009 | | |
| 9 | | Award_Date | The date that the Recovery Act project was awarded, reported as mm/dd/yyyy (e.g. "May 1, 2009" would be coded as "05/01/2009"). Leave blank if the project has not yet been advertised; do not enter future dates. | date | mm/dd/yyyy | 4/24/2009 | | |
| 10 | | Proceed_Date | The notice to proceed date for the Recovery Act project, reported as mm/dd/yyyy (e.g. "May 1, 2009" would be coded as "05/01/2009"). Leave blank if the project has not yet been advertised; do not enter future dates. | date | | 5/1/2009 | | |
| 11 | | Award_Description | Award Title Description w/ purpose of each funding action. A brief descriptive title of the project or activity funded in whole or in part with Recovery Act funds. If this award funds multiple projects or activities, provide a descriptive title that captures the general focus area, e.g., "community development," | string | 4000 | "Free Text" | | |

| | | | | | | | | |
|----|--|----------------------|---|---------|------------|------------|--|-----------------------------------|
| | | | “comprehensive community mental health services to adults with a serious mental illness,” etc. | | | | | |
| 12 | | Award_Amount | The total amount of Recovery Act (R.A.) funds on the awarded contract. Enter the cost as whole dollars; do not provide costs in thousands or millions of dollars. | decimal | 14.2 | 12896.32 | | |
| 13 | | Award_Type | Transaction Type—Grant, Contract or Loan | string | 8 | Contract | Valid Codes: Grant, Contract, Loan | |
| 14 | | Total_Funds | The total amount of the awarded contract. Enter the cost as whole dollars; do not provide costs in thousands or millions of dollars. | decimal | 14,2 | 2182100.00 | | |
| 15 | | DBE_Goal | The DBE Goal established by the recipient for the project as a percentage (XX.XX%) of the total estimated project cost. If there is no established goal for the project, report as “0”. | float | | 9.5 | | 10.1% will be represented as 10.1 |
| 16 | | DBE_Commitment | The DBE commitment made by the prime contractor at the time of award as a percentage (XX.XX%) of the total contract amount. | float | | 13 | | 10.1% will be represented as 10.1 |
| 17 | | Estimated_Completion | Estimated project or construction completion date reported as mm/yyyy (e.g. “May 2009” would be coded as “05/2009”). | date | mm/dd/yyyy | 9/01/2009 | | |
| 18 | | Actual_Start | Actual Start date of the project | date | mm/dd/yyyy | 4/01/2009 | | |
| 19 | | Actual_Completion | Actual completion date of the project | date | mm/dd/yyyy | 3/01/2009 | | |

| | | | | | | | |
|----|-----------------------|---|--------|----|-----------------|--|--|
| 20 | Activity_Code | Description of Project or Activity (NAICS code(s) or NTEE-NPC code(s)). For awards primarily funding infrastructure projects or activities, as defined by the awarding agency, provide the North American Industry Classification System (NAICS) code(s) that describe the Recovery Act projects or activities under this award. A searchable code list is at http://www.census.gov/naics/ . For all other awards, provide the National Center for Stringitable Statistics "NTEE-NPC" code(s) that describe the Recovery Act projects or activities under this award. A searchable code list is at http://nccsdataweb.urban.org/PubApps/nteeSearch.php?gQry=all-core&codeType=NPC . | string | 20 | "11531" | | |
| 21 | DUNS_Number | The unique nine-digit number issued by Dun & Bradstreet followed by the optional 4 digit DUNS Plus number. All prime contractors must have a DUNS number. Reported as 999999999.9999 | string | 13 | "9999999999999" | | |
| 22 | Vendor_Prod_SRVC_Desc | A description of the product or service provided by the vendor. | string | 20 | "115310" | | |

| | | | | | | | | |
|----|--|--------------|--|---------|-----|------------|--|--|
| 23 | | Route_Number | Where applicable, the numeric identifier for the route on which the project is located. In some States this can be a mixed field consisting of both letters and numbers. Should be consistent with the route number provided for other federal reports, such as the Highway Performance Monitoring System (HPMS) or the National Bridge Inventory (NBI). Consistent with route number in STIP and/or FMIS. Do not enter multiple route numbers. If the project covers multiple routes, either choose the predominate route, or leave this field blank. | string | 32 | "000SR404" | | |
| 24 | | Begin_Point | Where applicable, the beginning mile point for the project. For projects covering multiple routes, either choose the beginning reference post for the predominant route, or leave this field blank. | decimal | 7,3 | 2.36 | | |
| 25 | | End_Point | Where applicable, the ending mile point for the project. For projects covering multiple routes, either choose the ending reference post for the predominant route, or leave this field blank. | decimal | 7,3 | 1.5 | | |
| 26 | | Length_Miles | The centerline length of the project. If the project covers multiple routes, enter the total mileage. | decimal | 7,3 | 3.44 | | |

Recipients

The State will provide information on all vendors and recipients for Recovery Act projects. These data will be used for meeting the reporting requirements of Sections 1201 and 1512.

Format: The data should be provided as a comma separated variable (.csv) text file.

Due date: The State will provide information as a new vendor or sub-recipient performing work on behalf of the State.

Due to: To be uploaded by the State to the Recovery Act Data System (RADS) in UPACS.

Recipients

| Number | Primary Key | Data Element | Definition | Type | Max Length or format | Example | Validation and Business Rule(s) | Comments |
|--------|-------------|--------------|--|--------|----------------------|-----------------|---------------------------------|---|
| 1 | PK | DUNS_Number | The unique nine-digit number issued by Dun & Bradstreet followed by the optional 4 digit DUNS Plus number. All prime contractors must have a DUNS number. Reported as 999999999.9999 | String | 13 | "9999999999999" | | DUNS#: 9-digit is mandatory but the 4-digit extension is optional |
| 2 | | MPIN_Number | The MPIN is a mandatory data element created by the CCR registrant and must have nine stringacters: at least one letter (upper or lower case) and one number. No spaces or special stringacters are permitted. | string | 9 | "M02956123" | | |
| 3 | | CFDA_Number | Catalog of Federal Domestic Assistance: GSA, OMB; published description of Federal assistance program. Catalog of Federal Domestic Assistance (CFDA) number on the award document or provided by the awarding agency. If this award is being funded through multiple programs, provide each CFDA number. | string | 6 | "20.223" | | |

Monthly Status Employment and Project Status

The State will provide summary employment information for all active Recovery Act projects. These data will be used for meeting the reporting requirements of Sections 1201 and 1512 and are due to FHWA no later than the 20th day of each month for the preceding month's data.

The following data are to be provided for each Recovery Act project. The State DOT is responsible for compiling and reporting the State, local, and contractor provided employment data for each project.

Format: The data should be provided as a comma separated variable (.csv) text file.

Due date: Every month until September 2012 as specified in the comments of each data item in the table below.

Due to: To be uploaded by the State to the Recovery Act Data System (RADS) in UPACS.

Monthly Status

| Number | Primary Key | Data Element | Definition | Type | Max Length or format | Example | Validation and Business Rule(s) | Comments |
|--------|-------------|------------------------|---|---------|----------------------|--------------------|--|-------------------------------|
| 1 | PK | State_Code | State FIPS code from the U.S. Census Bureau | int | 4 | 11 | See Appendix A for list of valid codes | |
| 2 | PK | Federal_Project_Number | The State assigned federal-aid project number, consistent with the seven digit format reported in FMIS. | string | 50 | "1555015" | | |
| 3 | PK | State_Project_Number | The State project number or ID as assigned by the State or its funding recipient, consistent with the format reported in FMIS. | string | 50 | "100775" | | |
| 4 | PK | Contract_Number | If multiple contracts exist on individual projects then list the contract numbers. Note that the combined State Project Number and Contract Number must be unique. Do not enter multiple contract numbers in one cell, each contract number must be a new line in the form. If this row is used for entering State employment data by project then enter zero (0) in this cell. | string | 50 | "DCKA-2009-B-0047" | | |
| 5 | PK | Report_Month | The month and year covered by the report, as mm/yyyy (e.g. "May 2009" would be coded as "05/2009"). | date | mm/dd/yyyy | 04/01/2009 | | |
| 6 | | DBE_Actual_Payments | Cumulative actual dollars paid to DBEs for labor, materials, equipment, etc., from the start of the project (\$XX,XXX.XX) Include payments to DBEs | decimal | 14,2 | 12403.00 | | Due to FHWA no later than the |

| | | | | | | | | |
|---|--|------------------|---|-------|--|--------|--|--|
| | | | for projects with race neutral or "0" goal. | | | | | 10 th day of each month for the preceding month's data. |
| 7 | | Percent_Complete | The status of the project; the amount of elapsed time since work begun relative to the estimated total time to complete the project. Reported as a decimal equivalent i.e. 25% complete = 0.25. | float | | 0.0405 | | Due to FHWA no later than the 10 th day of each month for the preceding month's data. |
| 8 | | Total_Employees | The number of people employed by the prime contractor or consultant and all their subcontractors during the reporting month for each project. Reported as a whole number. | int | | 60 | | Due to FHWA no later than the 20 th day of each month for the preceding month's data. |
| 9 | | Total_Hours | The total hours for all people employed by the prime contractor or consultant, and subcontractor employees for the reporting month. Reported as a whole number. | int | | 803 | | Due to FHWA no later than the 20 th day of each month |

| | | | | | | | | |
|----|--|---------------|--|---------|------|----------|--|--|
| | | | | | | | | for the preceding month's data. |
| 10 | | Total Payroll | The total dollar amount of wages paid by the prime contractor or consultant and all their subcontractors during the reporting month. Rounded to the nearest whole dollar and reported as a whole number. | decimal | 14,2 | 25417.00 | | Due to FHWA no later than the 20 th day of each month for the preceding month's data. |

Quarterly Status

On this form the State will provide information on the status of all Recovery Act projects. These data will be used for meeting the reporting requirements of OMB Sections 1201 and 1512.

Format: The data should be provided as a comma separated variable (.csv) text file.

Due date: Within 10 calendar days after the end of every quarter until September 2012.

Due to: To be uploaded by the State to the Recovery Act Data System (RADS) in UPACS.

Quarterly Status

| Number | Primary Key | Data Element | Definition | Type | Max Length or format | Example | Validation and Business Rule(s) | Comments |
|--------|-------------|------------------------|---|--------|----------------------|-------------|--|----------|
| 1 | PK | State_Code | State FIPS code from the U.S. Census Bureau | int | 4 | 11 | See Appendix A for list of valid codes | |
| 2 | PK | Federal_Project_Number | The State assigned federal-aid project number, consistent with the seven digit format reported in FMIS. | string | 50 | "1555015" | | |
| 3 | PK | State_Project_Number | The State project number or ID as assigned by the State or its funding recipient, consistent with the format reported in FMIS. | string | 50 | "100775" | | |
| 4 | PK | Contract_Number | If multiple contracts exist on individual projects then list the contract numbers. Note that the combined State Project Number and Contract Number must be unique. Do not enter multiple contract numbers in one cell, each contract number must be a new line in the form. If this row is used for entering State employment data by project then enter zero (0) in this cell. | string | 50 | "23889" | | |
| 5 | PK | Report_Quarter | | int | 6 | 3 | | |
| 6 | | Job_Creation | A narrative description of the employment impact of the Recovery Act funded work. This narrative should be cumulative for each calendar quarter and at a minimum, address the impact on the recipient's workforce, and if known, the impact on the | string | 4000 | "Free Text" | | |

| | | | | | | | | |
|--|--|--|---|--|--|--|--|--|
| | | | <p>workforces of subrecipients. At a minimum, the recipient shall provide— (i) A brief description of the types of jobs created and jobs retained in the United States and outlying areas. “Jobs or positions created” means those new positions created and filled, or previously existing unfilled positions that are filled, as a result of Recovery Act funding. “Jobs or positions retained” means those previously existing filled positions that are retained as a result of Recovery Act funding. This description may rely on job titles, broader labor categories, or the contractor’s existing practice for describing jobs as long as the terms used are widely understood and describe the general nature of the work; and (ii) An estimate of the number of jobs created and jobs retained in the United States and outlying areas. At a minimum, this estimate shall include any new positions created and any existing filled positions that were retained to support or carry out Recovery Act projects or activities managed directly by the recipient, and if known, by subrecipients.</p> | | | | | |
|--|--|--|---|--|--|--|--|--|

| | | | | | | | | |
|---|--|------------------|---|---------|------|-----------|--|--|
| | | | <p>The number shall be expressed as "full-time equivalent" (FTE), calculated cumulatively as all hours worked divided by the total number of hours in a full-time schedule, as defined by the recipient. For instance, two full-time employees and one part-time employee working half days would be reported as 2.5 FTE in each calendar quarter. (iii) A job cannot be reported as both created and retained. As used in this instruction, United States means the 50 States and the District of Columbia, and outlying areas means— (1) Commonwealths. (i) Puerto Rico. (ii) The Northern Mariana Islands; (2) Territories. (i) American Samoa. (ii) Guam. (iii) U.S. Virgin Islands; and (3) Minor outlying islands. (i) Baker Island. (ii) Howland Island. (iii) Jarvis Island. (iv) Johnston Atoll. (v) Kingman Reef. (vi) Midway Islands. (vii) Navassa Island. (viii) Palmyra Atoll. (ix) Wake Atoll.</p> | | | | | |
| 7 | | Amount Dispersed | The cumulative amount of cash dispersed. | decimal | 14,2 | 206577.00 | | |

Top Paid Officers

The state will provide information for the five most highly compensated officers of the entity. The names and total compensation of the five most highly compensated officers of the subrecipient entity will be reported if: (1) the recipient in its preceding fiscal year received (a) 80 percent or more of its annual gross revenues in Federal awards; and (b) \$25,000,000 or more in annual gross revenues from Federal awards; and (2) the public does not have access to information about the compensation of the senior executives of the entity through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986 [26 USC § 6104].

“Total compensation” means the cash and non-cash dollar value earned by the executive during the subrecipient’s past fiscal year and includes of the following: (i) salary and bonus; (ii) awards of stock, stock options, and stock appreciation rights (Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with FAS 123R); (iii) earnings for services under non-equity incentive plans (Does not include group life, health, hospitalization, or medical reimbursement plans that do not discriminate in favor of executives and are available generally to all salaried employees); (iv) change in pension value (This is the change in present value of defined benefit and actuarial pension plans.); (v) above-market earnings on deferred compensation that are not tax-qualified; and (vi) other compensation (For example: severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property if the value for the executive exceeds \$10,000). For more information see 17 CFR 229.402(c)(2).

- Format:** The data should be provided as a comma separated variable (.csv) text file.
- Due date:** Within 10 calendar days after the end of every month until September 2012.
- Due to:** To be uploaded by the State to the Recovery Act Data System (RADS) in UPACS.

Top Paid Officers

| Number | Primary Key | Data Element | Definition | Type | Max Length or format | Example | Validation and Business Rule(s) | Comments |
|--------|-------------|--------------------|---|---------|----------------------|------------------|---------------------------------|---|
| 1 | PK | DUNS_Number | The unique nine-digit number issued by Dun & Bradstreet followed by the optional 4 digit DUNS Plus number. All prime contractors must have a DUNS number. Reported as 999999999.9999. | string | 13 | "99999999999999" | | DUNS#: 9-digit is mandatory but the 4-digit extension is optional |
| 2 | PK | Report_Year | The year covered by the report, as yyyy. | int | 2009 | 2009 | | |
| 3 | PK | Officer_Number | A number 1 through 5 to indicate one of the five highest paid officers. | int | 1 | 1 | | |
| 4 | | Officer_Name | The name of the highest paid officer. | string | 50 | "Icabod Crane" | | |
| 5 | | Total_Compensation | For the five most highly compensated officers of the entity: total compensation. | decimal | 50 | 150000 | | |

Maintenance of Effort

As with the 1201 planned expenditure certifications, the reports are for expenditures of State funds on the various types of projects funded under the Recovery Act (not obligations or encumbrances). The 1201 Maintenance of Effort Actual Expenditures Report also must include any State funds spent on projects that are not receiving Recovery Act funding, such as State-funded match for federally-assisted projects and State funding for non-federally-assisted projects that are eligible for Federal funding. This data will be compared to amounts included in the State's MOE certification that will ultimately be used to determine whether each State met its level of effort during the covered period (February 17, 2009, through September 30, 2010).

States must report actual expenditures from State sources for the types of projects funded by each of the covered programs. States must complete the form for all program areas listed in the document, not just "Highway Infrastructure Investment."

Format: Through RADS input screen.

Due date: The periodic reports are due:

| Due date | Report on Activities for the Following Period |
|-------------------|--|
| May 10, 2009 | February 17, 2009 - April 30, 2009 |
| August 10, 2009 | February 17, 2009 - July 31, 2009 |
| February 10, 2010 | February 17, 2009 - January 31, 2010 |
| February 10, 2011 | February 17, 2009 - January 31, 2011 |
| October 10, 2012 | February 17, 2009 - September 30, 2012 |

Due to: To be input by the State to the Recovery Act Data System (RADS) in UPACS.

Example of the RADS input screen

State:

Report Type:

**Alabama Department of Transportation
Recovery Act Section 1201 Report
Actual State Expenditures
February 17, 2009 through May 1, 2009**

Recovery Act grant recipients must report all actual expenditures from State sources for the types of projects that are eligible under each of the Recovery Act covered programs. Grants recipients must include actual State expenditures from February 17, 2009, through May 1, 2009, in this report. Please fill in an amount for each of the covered programs. If you, the grant recipient, did not expend any funds from State sources on the types of projects that are eligible under each of the Recovery Act covered programs during this time period, please indicate "\$0".

Appendix C

FMIS IMPROVEMENT TYPE CODES

| Code | Improvement Type | Description |
|------|--------------------------------------|---|
| 01 | New Construction Roadway | Construction of a new roadway that will not replace an existing roadway. A new roadway will provide: (1) a roadway where none existed or (2) an additional and alternate roadway to an existing roadway that will remain open and continue to serve through traffic. |
| 03 | 4R Reconstruction, Added Capacity | Construction on approximate alignment of an existing route where the old pavement structure is substantially removed and replaced. Such reconstruction includes widening to provide continuous additional through-lane(s), adding or revising interchanges, or replacing other highway elements such as a grade separation to replace an existing grade intersection. Also included, where necessary, are other incidental improvements such as drainage and shoulder improvements. |
| 04 | 4R Reconstruction, No Added Capacity | Widening the lanes and/or shoulders of an existing roadway without adding through lanes. This may include reconstructing the existing pavement and other incidental improvements such as shoulder and drainage improvements. |
| 05 | 4R Resurfacing | Placement of additional surface material over the existing roadway to improve serviceability or to provide additional strength. There may be some upgrading of unsafe features and other incidental work in conjunction with resurfacing. Where surfacing is constructed by a separate project as a final stage of construction, the type of improvement should be the same as that of the preceding stage B new route, relocation, reconstruction, minor widening, etc. |
| 06 | 4R Restoration and Rehabilitation | Work required to return existing pavement (including shoulders) to a condition of adequate structural support or to a condition adequate for placement of an additional stage of construction. There may be some upgrading of unsafe features or other incidental work in conjunction with restoration and rehabilitation. Typical improvements would include replacing spalled or malfunctioning joints; substantial pavement |

| | | |
|----|---------------------------------------|---|
| | | stabilization prior to resurfacing; grinding/grooving of rigid pavements; replacing deteriorated materials; reworking or strengthening bases or sub-bases; and adding under-drains. |
| 07 | 4R Relocation | Construction of a roadway at a new location that replaces an existing roadway. The new roadway carries all the through traffic with the previous facility closed or retained as a land-service road only. |
| 08 | Bridge, New Construction | Construction of a new bridge that does not replace or relocate an existing bridge. |
| 10 | Bridge Replacement, Added Capacity | Total replacement of a structurally inadequate or functionally obsolete bridge with a new structure constructed with additional lanes in the same general traffic corridor to current geometric construction standards. Incidental roadway approach work is included. The use of this code requires the reporting of the National Bridge Inventory (NBI) structure number in the data field identified Bridge Numbers. |
| 11 | Bridge Replacement, No Added Capacity | Total replacement of a structurally-inadequate or functionally-obsolete bridge with a new structure without adding lanes constructed in the same general traffic corridor to current geometric construction standards. A bridge removed and replaced with a lesser facility is considered a bridge replacement. Incidental roadway approach work is included. The use of this code requires the reporting of the National Bridge Inventory (NBI) structure number in the data field identified Bridge Numbers. |
| 13 | Bridge Rehabilitation, Added Capacity | For the major work required to restore structural integrity of a bridge, as well as work necessary to correct major safety defects. Bridge deck replacement (both partial and complete) and widening of bridges including addition of through lanes to specified standards are included. Construction of a dual structure to alleviate a capacity deficiency is also included. Work required correcting minor structure and safety defects or deficiencies, such as deck patching, resurfacing, protective systems, upgrading railings, curbs and gutters, and other minor bridge work. If HBRRP funds are involved, the use of this code requires the reporting of the National Bridge Inventory (NBI) structure |

| | | |
|----|--|---|
| | | number in the data field identified Bridge Numbers. |
| 14 | Bridge Rehabilitation, No Added Capacity | For the major work required to restore structural integrity of a bridge as well as work necessary to correct major safety defects. Bridge deck replacement (both partial and complete) and widening of bridges without adding through lanes to specified standards are included. Work required correcting minor structure and safety defects or deficiencies, such as deck patching, resurfacing, protective systems, upgrading railings, curbs, or other preventative maintenance items are included. If HBRRP funds are involved, the use of this code requires the reporting of the National Bridge Inventory (NBI) structure number in the data field identified Bridge Numbers |
| 15 | Preliminary Engineering | For the preparation of plans, specifications, and estimates (PS&E), traffic, and related studies including field inspections, surveys, material testing, and borings. |
| 16 | Right of Way | For purchase of land, improvement and easements, in addition to the cost of moving and relocating buildings, businesses, and persons. |
| 17 | Construction Engineering | Oversight of construction of roadways, structures, and traffic services facilities including additional design work after construction project is let. |
| 18 | Planning | For Planning related purposes. |
| 19 | Research | For Research related purposes. |
| 20 | Environmental Only | For improvements that do not provide any increase in the level of service, in the condition of the facility or in safety features. Typical improvements that fall in this category would be noise barriers, beautification, and other environmentally related features not built as a part of any other improvement type. If environmental mitigation is needed as the result of a bridge project and it is confined to the reasonable touchdown and the bridge itself, then this is allowable with HBRRP Funds. Outside the reasonable touchdown would not be considered eligible. |
| 21 | Safety | For projects or a significant portion of a project that provides features or devices to enhance safety. For example, expenditures on projects |

| | | |
|----|--|---|
| | | designed to improve the safety of at-grade railroad crossings or for the construction of facilities dedicated to the enforcement of vehicle weight regulations. |
| 22 | Rail/Highway Crossing | Improvements to crossing warning Protective Devices such as signs, markings, and cross bucks; flashing light additions/improvements; and improvements to track circuitry. |
| 23 | Transit | For transit and transit-related purposes. |
| 24 | Traffic Management! Engineering HOV | Traffic operation improvements that are designed to reduce traffic congestion and to facilitate the flow of traffic, both people and vehicles, on existing systems, or to conserve motor fuels. Include automated toll collection equipment, road and bridge surveillance and control systems, etc. |
| 25 | Vehicle Weight Enforcement Program | Vehicle Weight Enforcement. |
| 26 | Ferry Boats | Ferry Boats |
| 27 | Administration | Administration for National Recreational Trails Projects, Commercial Vehicles, and other similar projects. |
| 28 | Facilities for Pedestrians and Bicycles | For independent projects (not part of any other Federal-aid Highway project) to construct a facility to accommodate bicycle transportation and pedestrians. |
| 29 | Acquisition of Scenic Easements and Scenic or Historic Sites | For projects consisting of easement and fee-simple purchase of sites of historic significance and/or considered worthy of preserving due to their scenic qualities within the view shed of a transportation facility. |
| 30 | Scenic or Historic Highway Programs | For projects consisting of scenic highway program and implementation activities not included in safety and other related improvements. |
| 31 | Landscaping and Other Scenic Beautification | For projects involving landscaping and other scenic beautification through planting and related work. This includes vegetation management to assure the sustain ability of landscape areas. |
| 32 | Historic Preservation | For projects consisting of purchasing and restoring/rehabilitating a building, structure, or facility (other than transportation buildings, structures and facilities) that is directly related to the transportation system. |
| 33 | Rehabilitation and Operation of Historic Transportation Buildings, | For projects consisting of purchasing and restoring/rehabilitating, and/or operating |

| | | |
|----|---|---|
| | Structures, or Facilities | transportation buildings, structures, or facilities considered to be of historic significance. |
| 34 | Preservation of Abandoned Railway Corridors | For projects to preserve an abandoned railway corridor. It is expected that most of these projects will accommodate bicycle and pedestrian use. This code may be used for any railway corridor conversion project including those used by equestrians, skaters, and skiers. Not to be used for National Recreational Trails projects. |
| 35 | Control and Removal of Outdoor Advertising | For projects to purchase outdoor advertising for permanent removal, to remove illegal outdoor advertising, or to develop an outdoor advertising control plan. |
| 36 | Archaeological Planning and Research | For projects involving the identification, evaluation, planning, and/or research of historic or archaeological planning and research under Transportation Enhancements. |
| 37 | Mitigation of Water Pollution due to Highway Runoff | Mitigation of water pollution due to highway runoff. |
| 38 | Safety and Education for Pedestrians/Bicyclists | Safety and education for pedestrians and bicyclists |
| 39 | Establishment of Transportation Museums | Establishment of transportation museums. |
| 40 | Special Bridge | This category includes bridge inventory, inspection and classification and other special bridge projects, such as load posting, not covered by another type of improvement code. |
| 41 | Youth Conservation Service | Youth Conservation Service |
| 42 | Training | Training; Supportive Services; TRAC; On the Job Training |
| 43 | Utilities | Utilities |
| 44 | Other | Miscellaneous work such as National Recreational Trails construction, noise barriers, etc. |
| 45 | Debt Service | Interest payments and retirement of principal under an eligible bond issue (including capitalized interest) and any other cost incidental to the sale of an eligible bond issue (including issuance costs, insurance or other credit enhancement fees, and other bond-related costs as determined). |
