Instructions
APPLICATION FOR FEDERAL FISHERIES PERMIT (FFP)

Federal Fisheries Permits are required for all vessels conducting groundfish operations and/or retaining groundfish while targeting non-groundfish in the 3-200 mile zone off Alaska (see § 679.4). This includes vessels fishing for groundfish, vessels processing groundfish, vessels tendering groundfish, and support vessels assisting other groundfish vessels (see 679.4).

Groundfish includes but may not be limited to: pollock, Pacific cod, sablefish, Atka mackerel, rockfish, sharks, skates, sculpins, octopus, squid, and any species of flatfish except Pacific halibut (see § 679.20(a)(2)).

Processing or to process means the preparation of, or to prepare, fish or crab to render it suitable for human consumption, industrial uses, or long-term storage, including but not limited to cooking, canning, smoking, salting, drying, freezing, or rendering into meal or oil, but does not mean icing, bleeding, heading, or gutting (see yearly specifications under § 679.20(a)(2)).

A vessel permitted as a catcher vessel, catcher/processor, mothership, and/or tender vessel may conduct all operations authorized for a support vessel. A vessel permitted as a support vessel may not conduct activities as a catcher vessel, catcher-processor, mothership, and/or tender vessel.

Check one or a combination of the vessel operation categories in the groundfish fisheries for which you are requesting.

Catcher Vessel - A vessel that is used for catching fish and that does not process fish onboard.

Catcher/Processor - A vessel that is used for catching fish and processing that fish.

Mothership - A vessel that receives and processes groundfish from other vessels.

Tender Vessel (buying station) - A vessel that is used to transport unprocessed fish received from another vessel to a shoreside processor, stationary floating processor, or mothership.

◆ Endorsements.

Check the appropriate box to indicate that you **would like an endorsement on your FFP** to participate in a directed fishery for Pacific cod, pollock, and/or Atka mackerel with gear other than jig gear. (Once an endorsement is elected, it remains valid until the permit is amended, the permit expires, the permit is revoked, the permit is suspended, or the permit is surrendered).

or

Check to indicate that you would like to **remove an endorsement(s) from your FFP.**

◆ Vessel Monitoring System (VMS)

Vessels participating in these directed fisheries in the EEZ off Alaska are required (see § 679.28(f)) to have onboard an operable VMS transmitter while the directed fisheries for Pacific cod, pollock, and/or Atka mackerel are open, regardless of where the vessel is fishing at the time (including Alaska State waters) or what the vessel is targeting.

◆ Atka mackerel fishery.

Registration. All vessels using trawl gear to conduct directed fishing for Atka mackerel in the Harvest Limit Area (HLA) which is defined as statistical areas 542 and 543, are required to register with NMFS (see § 679.20(a)(8)). To register, the vessel owner or operator must provide information required for an endorsement to the vessel's FFP.

HLA assignment. A semi-annual lottery performed by NMFS Alaska Region (see § 679.20(a)(8)) will randomly assign each vessel to one of two directed fisheries for each statistical area in which the vessel is registered. Each HLA directed fishery within 542 or 543 will be assigned a number of vessels in each of two seasons (A season and B season).

If registered for an Atka mackerel HLA directed fishery, a vessel may not conduct directed fishing for groundfish, other than for Atka mackerel, during the time period that the first Atka mackerel HLA directed fishery to which the vessel is assigned is open.
