Screening Instrument for Nurses, Counselors, Teachers, and Administrators

Academy for Educational Development

Form Approved
OMB No. 0920-0811
Exp. Date 05/29/2010

In-Depth Interview Screener

Project: Traumatic Brain Injury in Schools
Client: CDC
Date: September 2008

A total of 45 interviews will be conducted with four audiences (school nurses, school counselors, school teachers and school administrators).

NOTES FOR RECRUITERS

- **Please note that all recruitment quotas should be filled for each of the four audiences. For example, “recruit a mix” means that there should be a mix within each audience (nurses, counselors, teachers, and administrators), not the entire study population.**
- **Please use the following language for termination of screening: “Thank you very much for your time today. We are looking to recruit a variety of professionals from across the country to help with this study, and we have already recruited enough people with similar backgrounds. We are still in the process of recruitment, and if we need your help, we will call you back. Again, thank you for your interest. If you have questions about traumatic brain injury, please visit www.cdc.gov/ncipc or call 1-800-CDC-INFO.”**

Public reporting burden of this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX).

Invitation

Thank you for answering my questions. You qualify for the study. At this point, I am going to read you a short description of the project, and I will need you to confirm that you want to participate.

About the Project

The Academy for Educational Development (AED) and the Centers for Disease Control and Prevention (CDC), invite you to be in a research study. The goal of the study is to explore what school nurses, counselors, teachers, and administrators think about traumatic brain injury or TBI. The study will help CDC communicate with school nurses, counselors, teachers, and administrators about preventing and recognizing TBI. Please feel free to ask questions as I explain the study.

We will be interviewing professionals about where and how they get health information. We will also ask for opinions about messages that CDC may use in TBI educational materials.

If you agree to participate, you will be interviewed by a trained researcher for no more than 60 minutes. The information will be used to write a report that will inform CDC's campaign. Your interview will be audio recorded and researchers associated with the study may listen and take notes. The notes and recording will be used to write a report.

The information you give us will be kept private. Your name will not be used in the interview, nor will it appear in the report. All notes and recordings will be kept in a locked cabinet, and no one outside this project will have access to them. Recordings will be deleted after the study.

The interview poses no risks to you. If you begin to feel uncomfortable at any time, you can refuse to answer questions or stop the interview. No one is trying to sell you anything.

Your participation is voluntary. If you agree to participate, you will receive a check for \$40.

If you have any questions about this project, please call Elyse Levine at (202) 884-8913. If you have questions about your rights as a participant in this project or think you have been harmed, please call 1-800-584-8814. Leave a message with your name and phone number, and someone will call you back as soon as possible.

Do you have any questions at this point?

Participant Verbal Consent

I will read you a list of statements about this research. After, I will ask you for your full name, and whether you agree to be interviewed. This information will be kept in a secure place. It will not be connected to your interview. The interviewer will never know your full identity.

I understand and agree that:

- The interview will cover traumatic brain injury prevention and recognition.
- I may refuse to participate or stop the interview at any time.
- My name and opinions will be kept confidential. Only my first name will be used in the interview, or I may choose to use a fake name.
- My interview will be audio taped and researchers may observe.
- The interview will only be used for research.
- No one will try to sell me anything.
- I will receive \$40 for participating.
- I have asked any questions I have.

Please state your name: _____

Do you, (Name), agree to participate in a 60-minute interview about traumatic brain injury?

[Circle response] Yes No [Record date] _____

Thank you. I would like to tell you a little more about the telephone discussion. You can schedule a time to be called, at work or home, anytime between [date] and [times]. Your session will last up to 60 minutes. Before the call you will be sent some information to look at. You will need to read this information and have it with you during the call. You will receive \$40 for participating.

We are counting on your participation, so please be sure to contact us as soon as possible if something comes up and you can't attend. **(GIVE PHONE NUMBER).**

Before we hang up, let me get the correct spelling of your name, your address, phone numbers, and email address so we can give you a reminder call, send you materials to look over, and send your \$40 honorarium for participating.
