Office of Environmental Information

Background:

The Compliance and Innovative Strategies Division (CISD), collect compliance data from vehicle and engine manufacturers using an automated system called Verify. The help desk for Verify is serviced by Computer Science Corporation under contract SES3 TO 1530.

CISD plan to send this survey to the helpdesk users each time a help desk ticket is completed, the data from this survey will be used at the end of each quarter of the fiscal year for performance measurement for the help desk subtask of the above contract.

This survey consists of seven questions pertaining to what help desk users thought of the helpdesk (i.e., how satisfied they were with their experience the help desk) and four informational questions (two optional for name and company name or EPA Office/Division, and two to identify which part of Verify they requested help for), and an open-ended question that asks users for any comments on the help desk.

The information collected in this survey will be aggregated to help CISD measure customer satisfaction with performance for the help desk subtask and for the contractor as the basis for improving the help desk services.

Monthly estimated total respondent burden for this ongoing survey:

30 minutes per month x 28 remaining months in the approved period=14 hours

- Assumes:
 1. 11 questions, each taking 5 seconds to complete
 2. one open ended question takes one minute to complete
 3. Total = ~2 minutes per respondent to complete survey
- 50 potential help desk tickets every month, 30% response rate = 15 completed survey

Estimated total Agency burden:

1.3 hours each month x 28 remaining months in the approved period=36.4 hours

Internally, staff and managers will spend approximately 1.3 hours each month to analyze the results each month.
