(Annual Survey  
 2 of 2)

Each year we contact potato growers throughout the State to compile our annual statistics of acreage, production, and season average prices. The potato industry is an important sector of our agricultural industry and this survey is the most valuable tool we have for tracking that contribution. Regardless of the size of your operation, your response is extremely important. All data reported are kept strictly confidential (as protected by Title 7 of the U.S. Code) and will only be published in State totals. Thank you in advance for your continued support of our State's agriculture.

Please make corrections to name, address and Zip Code, if necessary.

**ACREAGE AND PRODUCTION 2008**

Please enter your final data for acres, yield and production of potatoes:

Acreage		Yield Per Harvested Acre (cwt.)	Total Production (cwt.)
Planted (acres)	Harvested (acres)		

**PRICES RECEIVED**

**INSTRUCTIONS**

Only report sales of potatoes grown in 2008 by you. Exclude any potatoes purchased from other growers. If you did not sell any of your potato crop, enter "none".
