The Department of Agriculture collects and publishes information on prices received by farmers for rice. This information is used for estimation of farm income, determination of government program payments, in the computation of the gross national product and for price studies and analysis of returns from various crops.

Your report is needed to accurately estimate prices and quantities sold. This survey is voluntary and not required by law. Individual reports are combined to estimate State and U.S. prices. Information in individual reports is kept confidential. Please fax your report or mail it in the enclosed postage paid envelope. Thank you.

### INSTRUCTIONS

Please report the following information for rough rice purchased from growers and for which settlement was completed with the grower during the time periods specified on this questionnaire. Do not include agreements made for settlement at a future time. Settlement made at a later date should be included on the survey covering that period.

- **Exclude** purchases if not the first buyer of record from grower, i.e. purchases from other mills, coops, or CCC stocks.
- Report total price paid to growers at first point of sale as dry rough rice before deducting drying and storage charges, or transportation costs to the first point of sale. Exclude and LDP or MLG benefit and any payment of storage or transportation earned after point of sale.
- Report data for all settlements by STATE where grown.
- Rice purchased through redemption of CCC loans should be valued at the loan redemption rate (World Market Price [WMP] or loan plus interest whichever is lower) plus any additional payment (premium) to growers.
