Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 or send comments to Maryam Daneshvar PhD, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information

technology. Written comments should be received within 60 days of this notice.

Proposed Project

“Evaluation of Pharmacy Syringe Access Linked to HIV Testing for Injection Drug Users in New York City (Pharm-HIV)”—New—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP). Centers for Disease Control and Prevention (CDC).

Background and Brief Description

HIV continues to be one of the leading causes of illness and death in the US, especially among black and Hispanic communities. For injection drug users (IDU), who are at high risk of acquiring HIV infection, HIV testing may not be readily accessible. In 2001, the New York State Legislature established an Expanded Syringe Access Demonstration Program (ESAP) in New York City which made syringes available through participating

pharmacies for injection drug users. ESAP thus helped to reduce the burden of HIV by increasing access to sterile syringe sources. The ESAP allows for regular contact between pharmacists and their injection-drug-using syringe customers, thus paving the way for pharmacies to act as access points to health and social services among IDU customers. The expansion of pharmacy services to include referrals for injection-drug-using syringe customers is based on the successes of ESAP, which provides many services beyond syringe exchange.

This project involves two kinds of studies: testing service models at pharmacies and, interviewing individuals regarding the availability of syringes through pharmacies. For testing service models CDC will collaborate with the New York Academy of Medicine (NYAM) to implement this project for a period of three years.

The NYAM will identify 12 ESAP pharmacies in East Harlem, New York

City; ten of which will test a model that refers injection-drug-using syringe customers for HIV testing to local HIV testing sites. Two ESAP pharmacies will evaluate the feasibility of offering and performing HIV counseling and testing in the pharmacy for injection-drug-using syringe customers.

Two types of respondents will provide the individual-level data; forty-eight adult (age ≥18 yrs) pharmacy staff members will be surveyed to learn about pharmacy staff attitudes and behaviors regarding HIV testing and referral. The other respondent group will be 442 adult (age ≥18 yrs) injection-drug-using syringe customers who will complete a brief quantitative interview after HIV referral or HIV testing is offered to them. HIV-seropositive injection-drug-using syringe customers identified during HIV testing will be immediately linked to social and medical services. There is no cost to respondents other than their time.

ESTIMATE OF ANNUALIZED BURDEN TABLE

Types of data collection	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Pharmacy telephone screening and enrollment form	24	1	10/60	4
Pharmacy staff surveys—baseline, every six months x 3, and at end of study.	48	5	20/60	80
Pharmacy staff brief surveys—monthly except when 6 monthly surveys are completed.	12	19	10/60	38
Pharmacy daily syringe sales log	12	600	5/60	600
Injection-drug-using syringe customer surveys	442	1	30/60	221
Total	943

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Subcommittee for Dose Reconstruction Reviews (SDRR), Advisory Board on Radiation and Worker Health (ABRWH), National Institute for Occupational Safety and Health (NIOSH)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC),

announces the following meeting for the aforementioned subcommittee:

Time and Date: 9:30 a.m.–5 p.m., December 8, 2008.

Place: Cincinnati Airport Marriott, 2395 Progress Drive, Hebron, Kentucky 41018. Telephone (859) 334-4611, Fax (859) 334-4619.

Status: Open to the public, but without a public comment period. To access by conference call dial the following information 1(866) 659-0537, Participant Pass Code 9933701.

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines that have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule; advice

on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC).

In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, and will expire on August 3, 2009.

Purpose: The Advisory Board is charged with (a) Providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood
