SUPPLEMENTARY INFORMATION:

I. Abstract

During FY10, the Volcano Hazards Program (VHP) will provide funding under the American Recovery and Reinvestment Act (ARRA) for improvement of the volcano and other monitoring systems and other monitoring-related activities that contribute to mitigation of volcano hazards. This notice concerns the collection of information that is sufficient and relevant to evaluate and select proposals for funding under the VHP. We will accept proposals from State geological surveys and academic institutions requesting funds to assist in the monitoring of active volcanoes and to conduct volcano-related research. Financial assistance will be awarded on a competitive basis following the evaluation and ranking of State and academic proposals. VHP proposals will be reviewed by a peer panel of six (6) members. Five members will be Department of the Interior representatives and one member will be an external representative. To submit a proposal, you must follow the written guideline (that will be made available at <http://www.Grants.gov>) and complete a project narrative. The application must be submitted via Grants.gov. Grant recipients must complete a final technical report at the end of the project period. Narrative and report guidance is available through <http://volcanoes.usgs.gov/> and at <http://www.Grants.gov>.

II. Data

OMB Control Number: 1028–0090.

Title: Volcano Hazards Program (VHP).

Type of Request: Extension of a currently approved information collection.

Respondent Obligation: Required to obtain or retain benefits.

Frequency of Collection: On occasion.

Description of Respondents: State Geological Surveys and academic institutions.

Estimated Number of Annual Responses: 20 applications and 12 final reports.

Estimated Annual Reporting and Recordkeeping “Hour” Burden: 796 hours. We expect to receive approximately 20 applications. It will take each applicant approximately 35 hours to complete the narrative and present supporting documents. This includes the time for project conception and development, proposal writing, and reviewing and submitting the proposal application through Grants.gov (totaling 700 burden hours). We anticipate awarding 12 grants per year. The award recipients must submit a final report at the end of the project. We estimate that it will take approximately 8 hours to complete the requirement for that report (totaling 96 hours).

Estimated Reporting and Recordkeeping “Non-Hour Cost” Burden: There are no “non-hour cost” burdens associated with this collection of information.

III. Request for Comments

On November 16, 2009, we published a **Federal Register** notice (74 FR 58973) announcing that we would submit this information to OMB for approval. We again invite comments concerning this ICR on: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency’s estimate of the burden on the proposed collection of information; (c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (d) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publically available at any time.
